LAKE ZURICH REVIEW

Examinations Given for County Farm Tabulator

An examination was held for the purpose of selecting what is known as a county tabulator at the office of the county agent, O. G. Hippert, at the Farm Bureau headquarters, at Arlington Heights last Saturday.

The corn and hog section is planning to appoint one or more tabulating clerks in the more important corn-hog counties to assist the county agents and local committees in checking the corn-hog contracts for errors. These clerks will list the essential data from these contracts and make computations thereon for analysis purposes.

These tabulating clerks will work under the county agent's direct supervision, but under instructions from the state statistician as a member of the corn-hog state board of review. Accurate and rapid tabulating clerks are essential if this work is to be handled expeditiously. An arithmetic examination for this position of tabulating clerk was given by the county agent in order that qualified clerks might be available when the contracts start to come in from the temporary community committees for checking and listing.

Examination papers are to be graded by A. J. Surrett, Chief Agricultural Statistician of the State of Illinois. The results of the examination are to be announced in the near future and the appointee will have his headquarters at Arlington Heights.

Growing Quality in Small Fruits Easier

Small fruit growers, including the home-gardener type and the commercial producers, this spring will have the best chance that they have ever had to get started with superior, high-quality varieties at a reasonable cost, according to Dr. L. A. Colby, chief in small fruit culture at the college of agriculture, University of Illinois. Nevertheless, prospective buyers should make sure that the varieties they buy are adapted to the climatic, soil and other conditions in their particular locality.

During the past several years many small fruits have been developed through controlled methods of plant breeding which are greatly superior to the older varieties, formerly standard, Dr. Colby said. Many of these newer varieties might well be given a place in the 11,000 acres or more of small fruits that were reported for Illinois in the last census, he said.

Most nurseries are cooperating with the state nursery inspection service to grow and sell only disease-free stock, usually true-to-name, points out Dr. Colby, and the prospective buyer may purchase from any one of several reliable nursery firms with the certainty of getting high-class plants.

Lake Zurich Community Woman's Club

The February meeting of the Lake Zurich Community Woman's club, held at Ela Township high school Friday evening, took the form of a fellowship party, to which each member invited a guest. The evening was spent playing cards and delicious refreshments were served. Hostesses for the party were Mrs. Albert Prehn, Mrs. Coltrin, Miss Travis, Mrs. Smith, Mrs. Rockenbach and Mrs. E[illegible]

The February book review was held at the home of Mrs. J. H. Fink on Friday afternoon. Mrs. A. J. Crawford gave a most interesting review of "As the Earth Turns," by Gladys Hasty Carroll. The story is of New England farm life as it lived from late winter through the following spring, summer, fall and the following winter. The book is written in a delightfully readable style and is a sympathetic portrayal of present day New England.

The needle craft group will again meet at the grade school Tuesdays after the weather has moderated.

Watch for Hurricanes

Thirty-five stations on watch twenty-four hours daily are scattered in isolated sections in the West Indies, Central and South America to obtain and pass along to the weather bureau any information about hurricanes.

Local and Personal

Mr. and Mrs. P. J. Alwart of Evanston were Sunday guests of Dr. and Mrs. William Pretzel.

Mrs. William Tonne and Mrs. Josephine Loomis attended the official dinner and meeting of W.G.M. Mrs. Gussie Hart at Elgin Saturday evening.

Mrs. Myrna Sebley of Westchester was a week-end guest of her sister, Mrs. Melvin Eide.

Mr. and Mrs. Marshall Schaefer and daughter have moved to Muskegon, Mich.

Mr. and Mrs. Helmer Nanstead of Racine, Wis. were guests of local relatives Sunday.

Mr. and Mrs. Charles Windell of Chicago were out to their farm Sunday.

Mr. and Mrs. William Bollweg moved to Huntley Wednesday. Mr. Bollweg was transferred by the Illinois Bell Telephone company.

Mr. and Mrs. Emmett Branding were Sunday callers at the Henry Branding home.

Mr. and Mrs. Otto Ficke were Sunday guests of Mrs. Emma Meyers.

Mr. and Mrs. William Notle and son spent the week-end with relatives at Dwight.

Mrs. E. Heiden left Wednesday to be with the H. C. Williams family of Oak Park.

Mr. and Mrs. Leslie Stolke and son of Itasca were Sunday guests of Mr. and Mrs. W. Luerssen.

Mr. and Mrs. Fred Kropp and Mrs. Edward Sandman visited Mrs. Fred Porep of Palatine who is sick in the Palatine hospital Tuesday and Wednesday.

J. W. White, postal inspector for this district inspected the local post office last week and found everything in splendid condition, is it reported. Miss Grace Branding has been appointed clerk.

Junior class officers elected at a meeting Monday, are William Buesching, president; Katherine Jayne, vice president; Francis Buesching, secretary; George Meyer, treasurer.

Mr. and Mrs. J. T. Griffith are the proud parents of a little daughter born at the Highland Park hospital Saturday.

Miss Dorothea Wester was a week-end guest of Mr. and Mrs. A. L. Payton.

Little Women's 4-H club members have been invited to attend a program at Grayslake Friday evening.

Mrs. Gertrude Dewire will be a guest of Mrs. W. Pretzel Friday, and attend the meeting of the Countryside Garden Study class at the home of Mrs. E. H. Holmes in Barrington.

Elect Officers

The following officers have been elected to head the Girls' club for the second semester: Evelyn Stelling, president; Dorothy Morse, vice president; Pauline Fischer, secretary; Fern Pederson, treasurer; Francis Buesching, social chairman; Carolyn Fehlman, membership chairman. The club met at the home of Miss Marjory Soderberg Wednesday evening. Airplane bunco was played and light refreshments served.

Meaning of "Casilla de Correos"

The Post Office department says that these words mean post office box. Many people make the mistake of thinking they are a person's name because they appear at the bottom of many letters from Cuba.

Hard to Poison Hedgehog

The hedgehog has long been considered as an animal extremely resistant to poisons.

Fox River Grove

Honors School With Gift

Last week the teacher and pupils of Oak Glen school received a book entitled, "The Wolf's Head and the Queen," by John Martin. It was autographed, "In appreciation of the singing of the children of Oak Glen school at the county superintendents' conference at DeKalb on Feb. 5, I am presenting this book for the school library. Francis G. Blair, superintendent of public instruction."

Celebrate Washington's Birthday

Fox River Grove post was much encouraged by the large attendance at its first card party held at the Beseda hall Thursday evening. Carl Olmstead was chairman of the committee assisted by Max Ferenc and George Grahlfs. Forty-four tables were played and 80 prizes distributed.

Many Grovers attended the style show sponsored by the M.E. ladies aid society at the Cary auditorium Wednesday night. The Proscenium Players of the Grove, who contributed to the entertainment by presenting a one act farce called, "The Elopement," have taken in the following new players: Ann Horns, Lillian Sedlar, Helen Prusha, Virginia Stiller, Charles and Joe Francek. They are now rehearsing four one act plays.

School children of the Grove and Oak Glen schools enjoyed a holiday on Washington's birthday.

When Mrs. Coe, county superintendent of schools visited the Grove school last autumn, first grade pupils presented her with reading charts they had made entitled, "Our Trip to Lincoln Park." She displayed them at the superintendents' meeting at DeKalb teachers' college where they were considered so good that officials had them photographed for a bulletin the college sends out.

Members of the local Parent-Teacher association celebrated founders' day with a costume party Tuesday evening. Games were played and refreshments served.

Lillian and Bobby Immens have enrolled in the Lutheran Sunday school at Cary.

Word has been received here that Mr. and Mrs. Frank Kelsey and William Gardner and daughter Mary have left Biloxi, Miss. where they spent the past month and are now at Hot Springs, Ark.

Mr. and Mrs. Bjorke and son Raymond of Chicago spent Washington's birthday at their cottage. Friends will be glad to learn that Mrs. Bjorke's eyesight is somewhat improved.

Ended Wars of Queen Ann

France was separated from Spain in 1713 by the peace of Utrecht which also ended the wars of Queen Ann.

More Soldiers Than Citizens

The only sovereign state in the world where there are more soldiers than civilians in the population and where maps are scaled in yards rather than miles is Vatican City.

Heat of Sun's Interior

How hot the interior of the sun may be is estimated variously from 10,000,000 degrees centigrade to 100,000,000 degrees.

FUN & FACTS

VOL. 6 Barrington, Illinois, Thursday March 1, 1934 NO. 9

The short month is over. How much did it "short" you?

From the looks of our desk we'd say this country doesn't need a thirteen month year as much as a 30 hour day.

Just a Reminder

We want you and you neighbors to be with us on Friday, March 16 for our Farm Equipment day or Power Farming Day. Come early. Make a day of it! Free lunch at noon. Remember the day and date —March 16th! All day!

Efficient machinery is just as important to profit on a farm as in a factory. McCormick-Deering machinery is built for efficiency and endurance.

Here's some good news for you Barrington women. Spring style show given at the Methodist church on March 16 afternoon and evening. 3:30 and 8 p. m. Admission 25c. Come and pick out your new Easter outfit.

It's winter all right, but just around the corner is spring. Already folks are commencing to look at spring items.

Completely Sunk

O'Brien called downtown to see Mrs. O'Connor, to tell her that her husband was locked up for being drunk.

"Why didn't you bail him out, Man?"

"Bail him out! Be-dad, you could not pump him out!"

The farmers' interests are our interests in a community such as this—for after all the farmer is the back-bone of this country.

Check up on your milk cans. Need some? We have some dandy ones here right now. That's the reason we mention it.

Good Equipment Makes a Good Farmer Better.

You wouldn't buy a horse and buggy...

THEN WHY USE ANCIENT HEATING METHODS

WHEN RATES FOR GAS ARE SO LOW?

IS your heating plant out of date—like the old-fashioned horse and buggy? Do you still put up with soot, dust, dirty ashes, and back-breaking furnace drudgery?

Why not get rid of all this mess and nuisance! Heat the modern way—with gas. Gas heat is as different as night is from day, from all other forms of heat. You have no furnace worries from one year to the next! Your house *stays clean*, because gas gives off no soot or dirt. You say good-bye to coal shovels and dirty ash buckets. And every hour, day and night, your house is kept at the correct temperature—automatically.

To prove that every home can afford to heat with gas, we'll install it at our expense . . . and remove it at our expense, if you don't like it.

Low rates—you invest nothing to try

Rates for heating homes with gas are *now one-half of what they were in 1930-31.*

And—you can try gas heat without one cent of investment! We will install a burner in your present furnace or boiler at our own expense. You pay only the rental on the equipment, which amounts to $3 a month in the average home. You try it for a month, two months, a year. And if within the year you find that you are not completely satisfied with gas, we will take it out at our expense and replace your former heating equipment in good workmanlike order. But—if you decide to keep gas heat—as we think you will—the rental you have paid applies on the purchase price of the equipment.

Act now!

Don't delay! Investigate this liberal offer on gas heat today. Call your nearest Public Service Company office for full information.

YOUR GAS METER

You are proud of the accuracy of your fine watch. And rightly. It's an exquisite precision instrument.

Yet it is no more accurate than your gas meter. By official test made before meters are installed—and recurrent checks with in specified periods—the Public Service Company of Northern Illinois attains in its meters as high standards of accuracy as the fine watchmaker who manufactured your pocket timepiece.

Before installation, every meter must pass the rigid test of official inspectors. In the Company's laboratories meters are checked according to specifications set up by the United States Bureau of Standards. A carefully measured volume of gas is passed through the meter and it is adjusted to exact accuracy.

Gas heat can be installed in your home without allowing the house to cool off
