Electrolysis is the Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair **permanently**, and it is not a new technique. Successful results have been reported in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrolo-

gist at **Clear Reflections** in the Barrington Commons who can remove those tell-tale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **1-847-381-9020** for your appointment.

Clear Reflections has provided 27 years of service at the same location.

Dear Reader,

Lots of great summertime events are happening. So make plans early to make the most of this wonderful season.

Celebrate Father's Day, June 15, at the BAAC's 17th Annual Summer Art Festival. Fun for the entire family, the day offers visual, musical, culinary, performing and interior design arts. Held on the corner of Cook and Station streets in downtown Barrington, the children will love face painting, a juggler and story telling. And adults will enjoy the fine selection of watercolors, oils, pastels, ceramics, sculptures and more offered for sale. Music will also soothe the soul from jazz to swing.

Delight in the season! Until next time, peace and happiness.

With warm regards,

Barrington resident Phil Bash and his daughter, Barbara (second from right), along with Harris Bank's Karen Mills (second from left) and Kim Duchossois of Barrington (far right) all supported Hospice of Northeastern Illinois at its Second Annual Spring Gala at The Garlands on April 26. The event raised \$50,000 to support hospice patient care and grief support programs.

Cabaret music, delicious food and generous contributors all created a wonderful evening at the Hospice of Northeastern Illinois' Second Annual Spring Gala at The Garlands on April 26. The event raised \$50,000 to support hospice patient care and grief support programs.

The highlight of the evening included celebrity auctioneer David Nelson who raised \$7,000 during the live auction. Along

with raising money for hospice care, two cabaret singers, Maureen Christine and Kym Frankovelia, dazzled the crowd with their lively performances.

Hospice of Northeastern Illinois provides dignified and compassionate care and guidance to those coping with loss and the end-of-life. Hospice of Northeastern Illinois is a not-for-profit organization serving six counties in Chicagoland.

BYDE Outreach Program at Good Shepherd Manor

Mary Greco, founder and artistic director of the Barrington Youth Dance Ensemble, presented her BYDE dancers who performed during the annual outreach program at Good Shepherd Manor on May 7.

The residents enjoyed the dancers who gracefully demonstrated classroom combinations as Mary explained what ballet training is like. The afternoon concluded with *Bach in Blue*, a lovely dance piece choreographed by Pamela Johnson, formerly of Joffrey Ballet Chicago.

The BYDE is pleased that local retailers have joined in a dedicated donor program. When patrons mention BYDE, the propri-

etors will dedicate 10 percent of purchases to support BYDE's annual production of *The Nutcracker* along with other productions, outreach programs and scholarships. Participating retailers at the Ice House Mall are: Peter Daniel, The Canterbury Shoppe, Filly's and Tommy-Terri. At The Foundry, participants include: Country Classics, Mephisto, L'Affaire, G. Whiz, Satin Filly and The Toy Connection.

Celebrate Father's Day at Barrington Area Arts Council's 17th Annual Summer Art Festival

This Father's Day, Sunday, June 15, celebrate the arts with dad at the 17th Annual Summer Art Festival. It is guaranteed to offer something for the entire family.

This annual Barrington Area Arts Council tradition offers grandparents, moms, kids and dads alike an opportunity to stroll through a Victorian-themed day full of visual, musical, culinary, performing and interior-design arts. Over 80 juried artists and several area interior designers will participate in the event, which is held at Cook and Station streets in downtown Barrington. Northern Trust Company, Barrington; Northwest Community Healthcare; Pepper Construction; Pioneer Press; and The Garlands of Barrington are proud sponsors of the 17th Annual Summer Arts Festival.

Adults and children attending the festival will find an array of fine art offered for sale, including watercolors, oils, pastels, colored pencils, acrylics, ceramics, sculptures, glass, mixed media, photographs, printmaking, jewelry and digital art. Each of the featured artists' work has been juried by local art expert Douglas Manley, McHenry Country College art instructor, and will be judged on the day of the event by Blake Mueller, Barrington High School art instructor, and Singrid Wonsil, Elgin Community College art instructor.

New to this year's art festival is Designers' Row, co-sponsored by the Barrington Area Chamber of Commerce. Designers' Row is a showcase of local home and garden offerings featuring a presentation and demonstration throughout the day on how to creatively incorporate fine art into room

design. The presentations will be held throughout the day outside at the Station Street entrance of the BAAC Gallery.

Children will love face painting, a juggler, the telling of stories based on the theme of "dear old dad" and an opportunity to participate in a community art installation sponsored by The Garlands of Barrington featuring the theme of "The Fine Art of Fatherhood." The finished project, a large canvas mural featuring the handiwork of area children under the direction of the artists of the Barrington Area Arts Council, will be displayed in the village for all to enjoy after the event.

The cultural cornucopia of activities would not be complete without melodies from a variety of area musical groups including a jazz quartet, a swing band, and strolling madrigal ensemble performances by The Marian Singers and the Baroque Babes.

In addition to feeding guests' souls with artful happenings, the festival will whet participants' appetites with savory selections from the culinary artists at La Mesa of Barrington, The Rib House of Bollingbrook, Fraternite of Notre Dame's fine pastries, Crazy Nuts, Granny Annie's Gourmet Ice of Cary and Old Tyme Poppin' Corn. Fine diners will also appreciate Father's Day Brunch at The Garlands of Barrington featuring a bountiful buffet.

After brunch, the BAAC Gallery at The Garlands will feature the opening exhibit of photography of Anissa Corirossi. The Garlands will offer free shuttle service to and from the fair.

The Summer Art Festival is a program of the Barrington Area Arts Council, a not-for-profit arts organization that supports, promotes, and sustains programs in the visual, literary, and performing arts. It is partially funded by individual and corporate support, grants from the Illinois Arts Council, a state agency, and the Village of Barrington.

Protecting Your Legal Rights— Retaliation

by Joette S. Doran, J.D.

The federal and state statutes which protect your legal rights from discrimination, such as Title VII (race, color, religion, sex or national origin), the Age Discrimination in Employment Act (40 years of age and older) and the Americans with Disabilities Act, contain provisions prohibiting an employer from taking adverse action against you for making a complaint or filing a charge of discrimination.

For instance, if you complained of sexual harassment against your employer, it would be illegal for your employer to take any adverse action against you, including discharge, because you made such a complaint. In addition to termination, adverse action includes, but is not limited to, a reduction of pay or benefits, suspension, interference with job duties and responsibilities, or other hostile actions. It is also illegal for an employer to retaliate against you if you have supported another employee's claim of discrimination.

The federal and state agencies which handle claims of discrimination also handle claims of retaliation. At the administrative level, the charge will be investigated to determine if a violation occurred and, if so, the agency will attempt to conciliate the matter. If the matter cannot be amicably resolved, then a complaint may be filed with a federal court or heard before an administrative law judge in the state agency. The antiretaliation laws will subject an employer to damages including the

employee's lost wages, benefits, attorney's fees, costs, and compensatory and punitive damages.

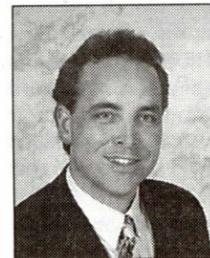

In order to pursue a case of retaliation, a charge of discrimination under the applicable statute must be filed with a state or federal administrative agency. Because the time limitations for filing are strict, I encourage you not to delay receiving information regarding your legal rights. For further information, please visit www.joettedoran.com.

This article is not intended as legal advice. You should consult with an attorney for individual advice regarding your own situation.

Ms. Doran is licensed in Illinois and all Illinois federal courts and is a member of the Federal Trial Bar. She is the past-chairperson of the Employment Law Committee for the Northwest Suburban Bar Association and is the past-president of Barrington Area Professional Women.

Radiance—A More Permanent Injectable Solution

by Gary S. Churchill, MD

Gary Churchill, MD

As we continue to age, facial lines such as nasal labial and geniomandibular folds tend to deepen. Often, patients wish to fill or augment these soft-tissue areas in an effort to preserve a more youthful appearance. To date, injectables such as collagen and harvested bodily fat have been used for this purpose. Both products provide a temporary remedy for facial lines, and most patients require treatment every two to three months to maintain the desired effect.

A new alternative, **Radiance**, has recently received attention from the press for its more permanent results. Radiance is an injectable product which contains synthetic calcium hydroxylapatite (CaHa), a substance found in human bones and teeth. CaHa has been used in the past in both dental and orthopedic reconstruction and is not new to the medical field. A six-month multitreatment study on Radiance indicates promising results with no significant safety issues or negative patient reactions. Radiance was injected into the soft tissue, and after several treatments, these areas showed a volume increase without showing an unnatural turgidity

or puffiness. Radiance is believed to last three to five years.

While Radiance is FDA approved for certain medical applications, it has not yet been cleared specifically for cosmetic use in the face. The off-label use of Radiance to fill facial lines and creases is yielding favorable results. This off-label use is similar to the way botox was used for cosmetic purposes prior to its FDA clearance last summer. Bioform, the manufacturer of Radiance, is seeking cosmetic clearance by the FDA and expects it soon.

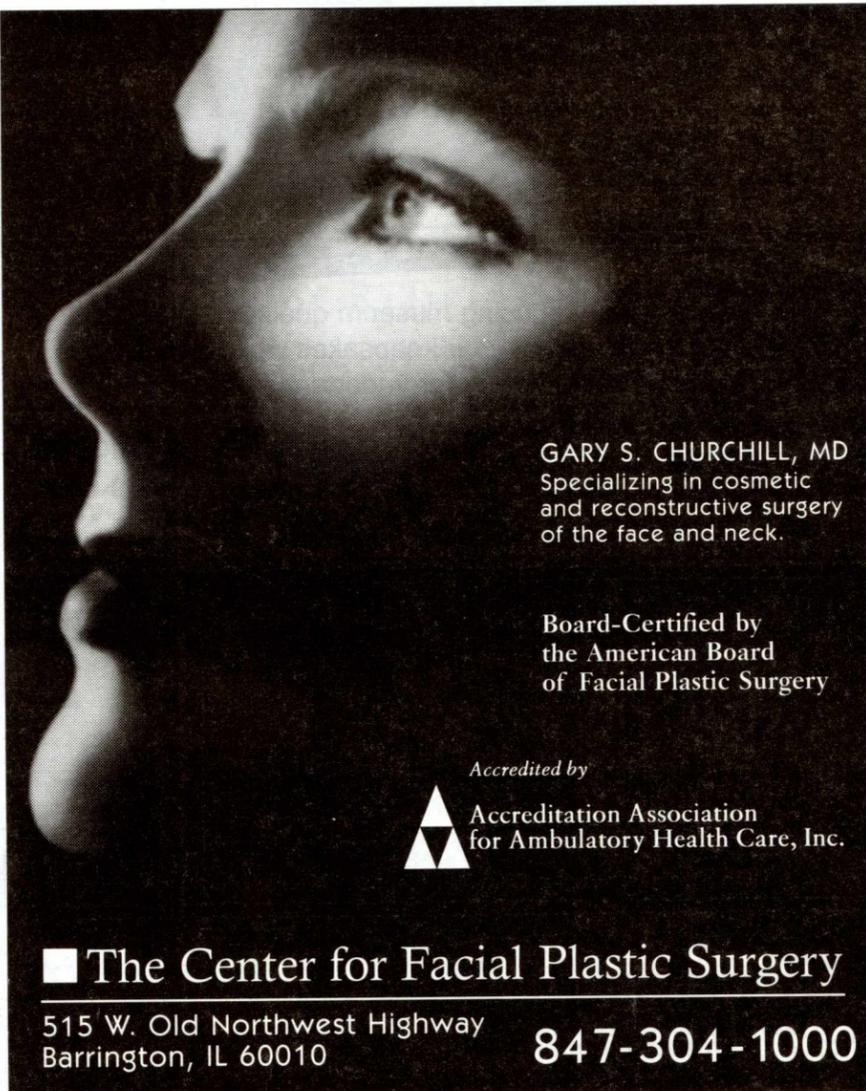

If you have questions regarding Radiance, please call my office, **The Center for Facial Plastic Surgery**, at 1-847-304-1000.

**A.G. Edwards—
 Private Money Management**

For many investors, single-handedly managing a portfolio in today's rapidly changing investment environment can feel like an impossible task. Some think they already have too many demands on their time. Others feel they don't have the expertise to deal with the complex details of managing a growing portfolio. More investors are turning to private money managers to help them achieve their financial goals.

What is a Private Money Manager?

A private money manager provides full-time management of individual portfolios. When you hire a private money manager, you turn over to the manager the process of buying the individual securities that will compose your portfolio. This relieves you of day-to-day investment concerns as well as the time-consuming task of keeping up with complex financial markets.

Your money manager evaluates the overall market and its risks, as well as individual securities; to select suitable investments, keep your portfolio balanced, take advantage of opportunities in specific financial markets and make the tough decision to sell investments, when appropriate.

Why Use a Money Manager?

Hiring a private money manager has many advantages, including:

• **Investment management expertise**

—Some of the best portfolio managers in the country will be available to manage your portfolio. These professional money managers have specific investment styles and can manage all or a portion of your portfolio to help you meet your investment needs.

• **Personalization**—Your portfolio will be customized to fit your financial objectives, and you retain ownership of the individual securities in your portfolio. In addition, your portfolio manager can meet your individual needs regarding tax planning and, if desired, socially-responsible investing.

• **Convenience**—This arrangement relieves you of day-to-day decision making. Instead, you place this task in the competent hands of skilled professionals.

**Finding the Right
 Money Manager For You**

With thousands of money management organizations nationwide, selecting the

best one to meet your financial objectives is no easy task. Your **A.G. Edwards** financial consultant can help you simplify the process of hiring and monitoring your money manager through our exclusive Select Advisor program.

As you participate in the Select Advisor process, your financial consultant and **A.G. Edwards'** Investment Management Consulting will help you:

- Understand how the capital markets affect your portfolio's performance
- Identify your investment objectives and a strategy to help you meet them
- Develop an Investment Policy Statement
- Conduct a manager search and provide ongoing due diligence of the manager
- Review your portfolio's performance

**Evaluating and Selecting
 Money Managers**

Our Select Advisor program uses an extensive set of guidelines to sort through the endless maze of money management firms. The result of this process is our Reference List. This list includes approximately 50 private money management organizations with diverse investment philosophies and management styles that can help meet the complex needs of our clients' portfolios. These criteria include: management experience, style considerations, investment discipline, track record and client service.

Ongoing Service to You

Once you've selected a private money manager, our commitment to you does not end. Your financial consultant will use the many resources Investment Management Consulting offers, including the Quarterly Performance Report, to keep you informed about your progress toward your investment goals.

To learn more about selecting a private money manager, please contact an **A.G. Edwards** financial consultant at **1-847-842-9664** for our Barrington office or **1-847-870-8750** for our Arlington Heights office.

Please note, there are account minimums of \$50,000 required for the Select Advisor Service.

**Deer Park High-Field Open MRI and
Re/Max—Unique Services at Deer Park Town Center**

Deer Park Town Center customers not only enjoy great shopping, delicious dining, and pampering hair, nail, and spa treatments, but also several unique services including medical screening offered by Deer Park High-Field Open MRI and "House Hunting" via Re/Max Advisors.

Deer Park High-Field Open MRI joined the lineup of great stores at Deer Park Town Center in April 2002. The open MRI facility offers patients the most up-to-date and comfortable magnetic resonance imaging system available as well as expert medical professional care. Open MRI means that the patient is not enclosed in a tunnel-like structure, therefore creating a relaxing environment that alleviates claustrophobia and anxiety stress. High-field reflects the faster scan times produced compared to the traditional low-field open machines in the area.

Re/Max Advisors joined Deer Park Town Center in November 2002. As part of the Re/Max Northern Illinois Network, Re/Max Advisors of Wood Dale expanded to Deer Park. The expansion to Deer Park Town Center was a result of demand exceeding supply in the communities of Deer Park, Barrington, Lake Zurich, Inverness, Palatine, Long Grove and Kildeer. Re/Max averages three times the production and more advanced industry education than other agents.

Deer Park Town Center is located at Rand Road (Route 12) and Long Grove Road, just one mile north of Lake Cook Road. Shopping Hours are Monday to Saturday from 10 a.m. to 9 p.m., and Sunday, noon to 5 p.m. For more information, visit the Web site at www.deerparktowncenter.tv or call 1-847-726-7755.

The club offers scholarships each year to graduating high school seniors and college students with a demonstrated interest in an environmental field. Students who did not win a scholarship each received a \$25 Barnes & Noble gift certificate.

Megan Ciesko will graduate from Conant High School in June and has been accepted by Bradley University. She plans to major in biology and become a marine biologist. Ciesko was a member of the Conant swim team, served as a CPR instructor and was editor of the school paper. She also has been a volunteer at Clearbrook, Alexian Brothers Medical Center and PACT (People and Animals in Community Together) Humane Society.

Andrew Kloster will graduate from Schaumburg High School in June and has been accepted by Georgetown University. He wants to major in science, technology and international affairs with a minor in environmental studies. An Eagle Scout, Kloster worked with the Schaumburg Village on a semester-long project outlining a plan for the trees along Schaumburg's roadways. He plans to enter the field of environmental policy and hopes to work

Fun, Fashion and a Great Trunk Show at Satin Filly

As I write this, the school year is coming to an end, and we have the warm and sultry days of summer ahead. Where does the time go? We've had a wonderful spring season, great clothes, fun customers and, as always, looking forward to what the fashion industry has in store for us! It's amazing how they continually invent and reinvent fashion.

For us at **Satin Filly**, the reintroduction of Cargo pants—long and short—was the biggest hit, and all the skirts! It's been a nice change from pants, and the skirts are fun and different. The trend is moving forward to fall with minis, fringe, "car-wash" and more.

Speaking of fall—easier than saying "transitional"—we are having a **Yansi Fugel Trunk Show** beginning the evening of **Thursday, June 26, through Sunday, June 29**. (It will be chaotic but sometimes that's the most fun.) We love Yansi. It's a great line. Our customers love it too, and the newest collection is really pretty and very wearable. If you haven't tried it, please come in. The entire collection will be here. Put it together the way you want and color it, the best for you! Any questions? Please call **1-847-381-1019**. And remember the dates June 26 to 29. See you soon. —Karen

Visit Enzo & Lucia's Ristorante Italiano

Cuisine

Homemade pasta is the specialty at this Italian restaurant housed in a former Victorian-style home. Begin with bruschetta, grilled calamari or prosciutto with melon. A daily risotto, fresh fish served whole and veal chops are among the hearty selections. Potato gnocchi is a popular dish. Homemade desserts include cannoli and tiramisu.

Ambience

Dine upstairs in the candlelit main room, décoré in greens and burgundy. Wood paneling, French windows, a fireplace and well-spaced tables make for an intimate experience. A view of the fountain and flower garden hints at romance. Or try dining in their kitchen for a glimpse behind the scenes. Enjoy the outdoors by dining *al fresco* (limited seating).

Summer Serenade— An Afternoon of Music

Walfrid Kujala

Sherry Kujala

Two world-renowned flutists will perform popular flute selections in concert to benefit the Summer Serenade, formerly known as the Suburban Summer Symphony.

Walfrid Kujala will join his wife, Sherry, along with their piano accompanist Shirley Trissell in a special gathering of friends of the arts for an afternoon of music, hors d'oeuvres and wine in the Inverness home of Dr. Eloise-Marie and Philip D. McKenzie on Saturday, June 21, from 3 to 6 p.m.

Walfrid Kujala was a member of the Chicago Symphony Orchestra from 1954 until his retirement in 2001. He has been a soloist with the CSO under George Solti, Fritz Reiner, Antonio Janigro and Seiji Ozawa and has also appeared as a soloist at the Stratford and Victoria festivals in Canada. In 1962, he was appointed to the Northwestern University faculty as professor of flute, a position which he holds to this day. He is author of several books on flute technique and is a contributing editor for *Flute Talk* magazine.

Sherry Kujala maintains a career in music that is a blend of her experience in performing, teaching and business management. As a musician, she performs as principal flutist in several Chicago-area orchestras including the Summer Serenade and has appeared as soloist in performances of concertos by Carl Nielsen, Wolfgang Amadeus Mozart, Carl Reinecke and Antonio Vivaldi. Sherry performed as piccoloist in the most recent Grammy-

winning recording of the Chicago Symphony Orchestra's performance of *Ameriques* by Edgar Varese, conducted by Pierre Boulez. She also performed with the Chicago Symphony in Stravinsky's *Symphony of Psalms*, which was Sir George Solti's last recording before his death. As a manager, Sherry has worked with orchestra boards for several community groups, has been president of the board of directors for three different musical groups and was formerly on the management staff of the Chicago Symphony Orchestra.

The Summer Serenade is a 10-year-old professional symphony orchestra which performs free summer concerts in Palatine Park District's Fred Hall Amphitheater under the direction of Jan Paul Varney. The group is partially sponsored by the Palatine Park District, the Illinois Arts Council, plus many businesses and private individuals throughout the Northwest Suburban area. The McKenzies were at one time both professional musicians and are still most interested in the arts. Dr. McKenzie is a noted obstetrician/gynecologist and Philip heads his own business management consulting firm.

The public is invited to attend this afternoon of flute performance, social exchange and refreshment. Admission to the event is \$40 per person and further information may be obtained by calling 1-847-869-2933.

River Trading Post Partners with American Indian College Fund

Native American colleges have been called "under-funded miracles" and "economic lifelines" for U.S. Indian reservations.

There are 32 tribal colleges, all founded by Indians to fight high rates of poverty, educational failure and cultural loss. These colleges created the nonprofit **American Indian College Fund** to raise desperately needed scholarship, endowment and operating monies.

River Trading Post has joined with the **American Indian College Fund** by offering a special AICH series of American Indian trade blankets, also known as Robes, as well as a line of gifts designed to support the college fund. A major portion of these sales goes directly to the college fund.

The Indian trade blanket first came to be known by that name when it was introduced as a type of currency during the fur trade in the late 17th century. Today, the American Indian trade blanket is a functional item that has many uses and purposes as well as being a truly beautiful piece of artwork that increases in value over time.

Renowned Native American artists designed the Pendleton Indian trade blankets at **River Trading Post**. They include United States Senator Ben Nighthorse Campbell (Northern Cheyenne) and Wendy Ponca (Osage). Ponca has won seven first place awards at the Santa Fe Indian Market. Her work is a part of permanent museum collections throughout the nation.

"We're delighted with this partnership," says gallery owner Joe Zeller. "Our customers receive a great work of art, and the American Indian kids get desperately needed help. Everybody wins."

New Weight Loss Program Shows Dramatic Results

Dr. Barry Berger, a Board Certified Internist practicing in Lake Zurich for the past 12 years, introduces a new weight loss program. This program is based on the 40/30/30 nutrition plan which consists of 40% carbohydrates, 30% protein and 30% fat. By increasing protein while decreasing fat and carbohydrates, weight loss success increases. University studies using this diet method along with the latest advances in prescription medication have shown safe and effective weight loss results.

Unlike other programs for which you need to buy food or count calories, this method offers the most freedom and achieves the best long lasting results available today. Fat comes off and stays off! Dr. Berger custom designs a program for each patient and discusses proper exercise, nutrition and overall weight status while considering your current lifestyle, exercise and diet habits.

Dr. Berger has hundreds of satisfied patients. Insurance usually pays for some or most charges, (sorry, no HMOs).

To begin a weight loss program that really works for you, call 1-847-438-2454 in Lake Zurich or 630-789-9495 in Hinsdale to make an appointment for your consultation today.

Teenage Students Discover Life-Changing Skin Care Secrets through Special School Study

The St. Francis DeSales School of Lake Zurich, Illinois, in cooperation with local business owners, is placing students at various host locations to gain unique life experiences outside the usual academic realm.

Five very lucky Eighth grade girls were recently given the opportunity to learn about "correct/healthy" skin care practices from local skin care specialist, Catherine Zedan Grandi, L.E.

Grandi (Director of **Estetica Advanced Skin Care**) explains, "It turned out to be a truly unique experience for me as well as the students. They learned what healthy skin care is REALLY about... I learned how the marketing of popular over-the-counter skin care products can cause serious confusion for many young adults."

Healthy Skin is Not About Make-Up

"It's about proper nutrition and exercise. It's about age-appropriate and heritage-appropriate daily care procedures, cleans-

ing and moisturizing products that are right for YOU. It's also about very simple things... like drinking more water. One of my students has a beautiful, olive-Italian complexion. Her skin will always be more resilient than her fair-haired, Irish friend's glowing white skin. These two girls require very different daily care routines, yet both must take similar precautions against sun damage, and both must drink plenty of water.

"The adolescent years (a period when hormonal changes occur) is an excellent time to learn about dietary requirements to maintain a healthy, resilient skin."

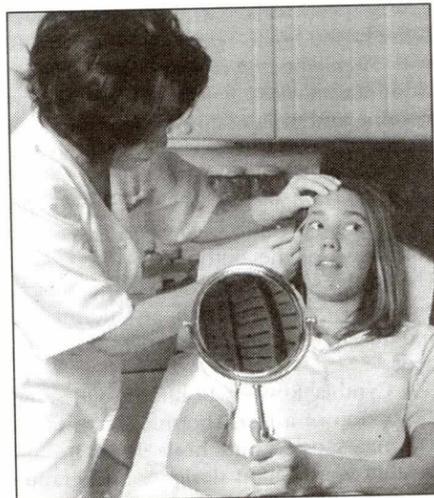

Belief Transformation

"On the first day of the program, the girls were asking excitedly about when we'd start using all of the make-up."

"Soon after, we were talking about good nutrition, health history, eyebrow design, Ear Candling and Microderm Abrasion. By the end of our four day program, they'd forgotten all about make-up. They were having loads of fun doing skin analysis and giving one another facials!"

"The St. Francis Enrichment Program is a glowing success! The students were delightful. I was proud to be a part of it and will gladly donate my services again."

Not for Women Only—A Unique Gift for the Graduate or Dad in Your Life

Full Circle Pilates Studio, Ltd. Offers Gift Certificates in Pilates One-on-One Sessions and Massage Therapy

For the Graduate

Whether the student in your life is an athlete, performing artist, computer geek or "I've graduated... take the summer off" type, Pilates and massage therapy will empower them as they move towards adulthood. Emphasizing uniform development of all muscle groups, the resulting balanced body offsets structural imbalances associated with the repetitive movements of student life. An added bonus to physical enhancement is that Pilates challenges their mind. Because the Pilates Method is appropriate for all ages and fitness levels, chances are your graduate will be surprised by the fun and vigorous workout they experience!

For the Dad

Remind Dad that those who benefit from Pilates span nearly every organized athletic group. Golfers, runners, skiers, cyclists, scuba divers, walkers, baseball players, gymnasts, boxers and professional football teams—which include the Cincinnati

Bengals and San Francisco 49ers—have incorporated Pilates into their workout regime. Typical exercise methods emphasize strength over flexibility. As we age, however, there is a natural process of tightening. Maintaining a seemingly magical balance between strength and flexibility, tight hamstrings, overloaded quads and aching lower backs can be corrected using the Pilates Method, not to mention prevention and rehabilitation from sports injuries. Massage therapy furthers the above benefits while providing relief of stress and anxiety, offering a much appreciated hour of peace and relaxation.

Whether the dad in your life is a weekend athlete, highly stressed worker or huggable teddy bear, the benefits of Pilates and massage therapy are gifts to the mind, body and spirit which can last a lifetime, unlike the proverbial tie!

Shaun and Pamela Kelly-Kenyon, Barrington Hills

On Friday, May 9, The Woman's Board of Northwestern Memorial Hospital hosted "The Boogie Ball" at The Casino, raising nearly \$100,000 in support of the National Ovarian Cancer Early Detection Program

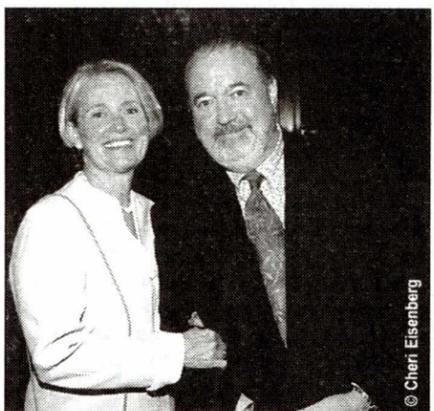

Shaun Kelly and "Boogie Ball" co-chair Nora Marra, Lake Forest

at Northwestern Memorial Hospital.

More than 350 guests attended the Mardi Gras-inspired event, which kicked off with cocktails and an oyster bar, followed by a scrumptious Creole buffet. Buckwheat Zydeco, with a reputation as one of the best party bands in America, performed hit after hit, making the audience jump up from their chairs in the first few bars to make their way to the bustling dance floor.

"The Woman's Board would like to extend a very special thanks to our wonderful guests and sponsors," said Stephanie McKean, Boogie Ball co-chair. "L'Oreal USA was especially generous in supporting The Woman's Board and our efforts on behalf of the National Ovarian Cancer Early Detection Program at Northwestern."

McKean continued, "The American Cancer Society estimates that there will be about 25,400 new cases of ovarian cancer

Demonstration Garden at MCC

McHenry County Master Gardeners will host a free tour of McHenry County College's demonstration garden from 9 to 11 a.m. on every other Saturday from June 14 through Aug. 23.

Master gardeners will be available to answer questions at the garden on June 14, 28; July 12, 26; and Aug. 9 and 23.

Each spring, a demonstration garden is planted and maintained by University of Illinois Extension, McHenry County Master Gardeners. A children's garden is this year's theme. A colorful alphabet garden and a pizza garden will be the highlights. The pizza garden will be designed in the shape of a pizza and will be planted with the herbs and vegetables used for making pizza. It is enclosed by a unique bamboo

gate and fence made by the master gardeners.

The public is welcome to visit the garden any time. Located just west of building E on the campus of MCC, it is open daily. Enclosed by a unique bamboo gate and fence made by the master gardeners, the permanent collection of plants includes: grasses, roses, peonies, lilies, vegetables, native plants, perennials and shade plants. "Shakespeare in the Park"

Literally rising from the ashes after a recent barn fire destroyed most of the theatre company's stock platforms and costumes, Talisman Theatre will produce its largest "Shakespeare in the Park" ever.

This year's event will run four weeks longer than past events. Two productions in rotating repertory will give audiences the chance to see two different shows on consecutive nights. Talisman's "Shakespeare in the Park" will also begin much earlier in the summer with opening night on Saturday, June 28.

"Shakespeare in the Park" 2003 will in-

clude two of Shakespeare's most delightful comedies, the swaggering swashbuckling farce *The Two Gentlemen of Verona* and the magical, mystical *A Midsummer Night's Dream*. The productions will run Wednesday through Saturday at 7:30 p.m. and Sundays at 6:30 p.m. from June 28 to Aug. 9 (July 4 excluded). All shows will be featured at Elgin's Wing Park Bandshell, 1000 Wing Street, Elgin.

"Western Visions"

The Barrington Area Arts Council's exhibit for June 2 to Aug. 29 at BAAC Gallery at the Library is entitled "Western Visions." The exhibit features pastel painting by Claire Vogt Wally.

Ms. Wally is a Barrington resident. The paintings were painted "en plein aire" (or outdoors) in New Mexico in all kinds of weather. Her works from Ghost Ranch are from an area where Georgia O'Keefe lived and painted for years. "En plein aire" paintings must be completed in less than three hours.

The technique involves painting quickly, with the idea that the details to finish the paintings would be done later in the workshop.

The exhibit is on view at the Barrington Area Library at 505 N. Northwest Highway in Barrington during regular library hours.

Barrington Resident Writes Article for *Illinois Bar Journal*

Attorney Douglas A. Darch, a resident of Barrington and a partner at the Chicago office of Seyfarth Shaw where he practices in the labor-and-employment law group, wrote the article *Unfinished Business: The U.S. Supreme Court's Recent Labor-and-Employment Cases*. The article appeared in the April issue of the *Illinois Bar Journal*, the monthly magazine of the ISBA.

From start to finish, **Langdon's of Barrington** and Joe Rush, Master Photographer, orchestrates all the facets of the location portrait process. The result?—a cherished professional portrait bursting with vibrant color and detail. Joe's portraits keenly capture the essence of the character of his subjects.

Chers Amis...

Of course, the best way to stay informed about what's going on at **D & J Bistro** is to log on and visit us at www.dj-bistro.com. Our site is updated every other week on the average with a new recipe each month. Most important is our calendar of events. But since you are nice enough to read this column, here is what the month of June has in store for our customers: the "true bistro dish" of the month is **braised sweetbreads** in a Madeira wine sauce for \$18.50 (or \$21.50 with a glass of wine). On **Father's Day, Sunday, June 15**, the glass of wine will be free when ordering sweetbreads.

Sunday, June 8, is also important. If you own a classic, sport, vintage or just collectible automobile, join us for our **10th Annual Wheels and Meal**. The

event features an eclectic gathering of people and machines, a secret destination, and an ending with a gourmet meal, prizes, fun, a show-and-tell atmosphere—it's just a great way to spend a Sunday afternoon. So drop by and pick up more information.

And a last word: in the face of increasing competition, remember that **D & J Bistro** is still a great value. We keep updating our food and wine offerings. We keep up with the seasonal items, always have a good selection of fresh (versus stale) cheeses, make everything from scratch, etc. And, we have clean restrooms (my obsession when I go out)!

Thank you for being our customer.

Real People 2003 McHenry County Arts Group Seeks Artists for Juried Exhibition

The Old Court House Figurative League is inviting professional and amateur artists to submit their works for Real People 2003, a juried art exhibition "Celebrating our Humanity Through Faces and Figures."

The second annual exhibition is slated for Aug. 7 through Sept. 28, 2003, at the historic Old Court House Arts Center on Woodstock's charming town square.

This two-month long art exhibit—the only one of its kind staged in McHenry County—spotlights a diverse collection of works from artists throughout the Midwest. Real People 2003 showcases paintings, drawings and sculpture, representing a wide range of interpretations, styles and media.

Entry deadline for Real People 2003 is Monday, June 23, 2003, for artists submitting a maximum of three slides of work completed within the past two years. A \$25 jurying fee must be included with the submission. Cash prizes will be awarded for first-, second- and third-place winners.

Artists' slides will be judged by Eastern

Illinois University Art Professor Jenny Chi, who holds a master's of fine arts degree from the Graduate School of Figurative Art of New York. Professor Chi, a respected, award-winning Illinois artist who has exhibited internationally and has been collected worldwide, will also conduct a figurative workshop on Sunday, Aug. 3, in conjunction with the exhibit. The daylong workshop, open to both exhibitors and artists at large, will be held in the Old Court House. Fee is \$75. For registration, call 815-338-4525.

Applications for Real People 2003 and the figurative workshop are available at www.oldcourthouseartscenter.com. Applications can also be obtained by writing to the Old Court House Arts Center, 101 N. Johnson, Woodstock, IL, 60098, or by calling 815-338-4525.

The Old Court House Figurative League is comprised of amateur and professional artists who participate in weekly life-drawing sessions at the Old Court House Arts Center in Woodstock, Ill.

Where to Find Fine Wearable Art

The artists' spring collections have just arrived at the Old Court House Arts Center Gallery on the historic Woodstock Square, significantly expanding the gallery's selection of hand-crafted wearable art.

This exciting new work is reasonably priced and all made by professional artists from the McHenry County area. Bev Ganschow, gallery owner, feels this collection is a wonderful addition to the gallery and is in keeping with their tradition of offering quality fine art at affordable prices.

Artist Ann Feldman of Barrington has used her watercolor skills to create luxurious hand-painted silk scarves in the colors and images of garden flowers.

Joan Hasselman of Crystal Lake, Nancy Marzec of Barrington and Jill Witty of Woodstock, all painters, have adapted their artistic sense of color and form to jewelry design, creating contemporary and traditional beaded jewelry. Unique

necklaces, earrings and bracelets with dramatic combinations of color, sparkle, shape and texture, reflect the artistry of the designs. Their new medium includes Swarovski crystal, Chinese lamp glass, glass, pearls, semiprecious stones, bone, horn, Bali sterling silver and more. This wonderful jewelry is a great accessory when you are looking for that final special touch.

Louise Steinbeck of Crystal Lake makes cigar box purses. Her brand name, The Naughty Blond, provides a little insight into her sense of humor as she combines lusty female images with the male cigar box. It's certainly a unique gift.

Laura Webb of Cary has created a collection of beautifully-woven summer shawls, the perfect touch for a cool summer evening.

Financial Planning: More Than Investing in the Stock Market

While there are no simple answers that will magically rebound depreciated securities, there are strategies to help you offset the pain of lower portfolio values. Debbie Schoendorf, CFP®, a financial consultant with **Smith Barney** in Barrington, suggests you consider the following five planning strategies:

- **Contribute to a 401(k) or 403(b)** through your employer. Contributions to these plans are made on a pretax basis, proffering an immediate tax savings. Further, many of these plans offer matching employer contributions. The combination of tax savings and employer matching could result in an immediate return on your money, regardless of market conditions.

- Given today's low interest rates, **refinancing your mortgage** may be a smart move. If you have a variable mortgage, now may be a prime time to lock in a low fixed fare.

- The premature death or disability of a breadwinner can be devastating. While many employers offer group **life and disability insurance** for reasonable premiums, individual policies can be designed to fit most budgets.

- There are many tax-advantaged vehicles available today to help you save for your **children's college education**. Section 529 plans offer tax-deferred growth and special estate-planning benefits. Regardless of whether your underlying investments are conservative or aggressive, the tax benefits of these plans make your money work harder than would comparable savings or investment accounts.

- **A will** is a legal document that specifies how your possessions will be distributed and who will manage your estate. If you die without a will, state laws determine how your estate will be divided, rarely matching what you would have wished. In addition, if both parents die without a will, the courts will decide who will be the guardian of a minor.

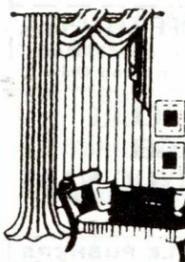

With the help of your tax and legal advisors and financial consultants, you can be well on your way to developing a total financial plan.

Smith Barney does not give tax or legal advice. Please consult your tax and/or legal advisor for such guidelines.

Esthetic Dentistry

What do you notice first? Their eyes? Their hair? Their smile? When meeting someone new, a nice smile is always toward the top of the list of things that get you noticed. But what do you do if you weren't born with the smile that complements the rest of you?

Each day, patients go to their dentist wanting to change their smile but are anxious about the appearance of the result. To help the patient visualize what their new smile may look like, the dentist can take digital photos and make the changes using software. The patient can then review the changes along with the dentist and make suggestions: longer, whiter, bigger, etc. The dentist then determines what procedures need to be performed in order to reach that goal.

Bleaching, bonding, crowns and veneers are just some of the tools a dentist has at his disposal for changing the appearance of teeth. How does he create in the mouth what has been created on a computer? Plaster models of the patient's existing teeth are sent to the dental laboratory along with the "before" and ideal "after" pictures. The technician then works on creating temporary veneers, crowns or bridges that duplicate what he sees. They are sent back to the dentist, and he places them into the patient's mouth. The change is instant. And the best part is that now

Dr. James Gavrilos

the patient can live with their new look before the final restorations are made. If the patient desires any changes, the dentist can easily make them because the temporary restorations are made of acrylic. Once the patient approves the final appearance, the dentist makes new molds, and the laboratory can produce the final porcelain restorations to match the approved temporaries. The patient has no surprises when the new teeth go in because they have already lived with them for weeks.

If you are not pleased with what you see when you smile, you owe it to yourself to visit the dentist and ask for an esthetic consultation. Visualizing the possibilities can make a world of difference.

For an esthetic consultation with Dr. Gavrilos, call our office in Barrington at **1-847-381-4040**.

Top Procedure, Leading Edge Skill

Surgery performed on the nose to improve breathing and/or improve its appearance is collectively referred to as nasal surgery or rhinoplasty. According to The American Society For Aesthetic Plastic Surgery, nasal surgery was among the top five aesthetic plastic surgical procedures performed in 2002. Both men and women undergo this type of surgery each year. The most common indications for nasal surgery are to correct a nose that is too large or wide in relation to the face, or to refine or reshape the nose tip.

There are two common surgical approaches to correcting the nose: the closed technique wherein all the incisions are placed inside the nose and an open technique wherein these same incisions are used in addition to very small incisions concealed at the base of the nose.

"One of the primary reasons why nasal surgery is so popular is that the nose occupies the central portion of the face, playing a key role in overall facial harmony," states Gregory M. Bazell, MD of **The Aesthetic Plastic Surgery Center of Barrington**. "Faces that are deemed attractive demonstrate common relationships between each individual component of the face with respect to its other structures."

Ancillary procedures such as chin augmentation, lip enhancement and eyelid surgery are frequently performed in conjunction with nasal surgery.

Gregory M. Bazell, MD, of The Aesthetic Plastic Surgery Center of Barrington, was recently awarded The Best Journal Article On Aesthetic Surgery by the American Society for Aesthetic Plastic Surgery and the

Language Stars Makes Learning a Game

"**Language Stars** is simply a great program; I have never found anything that works as well for my children. **Language Stars** makes learning a game," says Karen Pritzker, mother of five.

Language Stars' unique **FunImmersion™** method turns learning into a game, focusing on a young child's ability to learn a language naturally through fun and engaging activities. Children learn through interactive games, arts and crafts, singing, cooking and more, all presented entirely in the foreign language.

"Children have a window of opportunity during which the brain is uniquely suited to absorbing language naturally," explains Karen Gould, **Language Stars'** director of education. "Children have the innate ability to absorb the structures and rules of a language as easily as they learned their first language. They can also pick up a native accent flawlessly."

Children who learn a second language

young also go on to show enhanced problem solving skills, stronger communication skills, and higher standardized SAT test scores.

Language Stars offers **FunImmersion™** programs for children ages 1 to 10 in several Chicago and suburban locations, including Barrington and Arlington Hts. In addition to year-round programs for Parents & Tots (12 to 36 months) and Kids Only groups (3 to 5, 5 to 8 and 8 to 10 years), **Language Stars** also offers exciting summer camp options.

"After just one week of **Language Stars** camp, there was an explosion of Spanish in our house!" says Dena, mother of 5-year-old Marlee. "The teachers are all native speakers, and most importantly, my daughter had a ton of fun."

The Only Form of Permanent Hair Removal

Absolutely! Electrolysis Salon provides safe, gentle and effective permanent hair removal by a board-certified registered nurse.

For the past 10 years, owner Debbie Fritzshall RN, CPE, has helped men and women achieve permanent hair removal on the upper lip, chin, eyebrows, underarms, back, arms, legs and bikini line.

Electrolysis is the only safe, sensible and permanent treatment for the removal of unwanted hair. It will free you from the limitations and frustrations of temporary hair removal methods such as lasers, waxing, shaving, bleaching, tweezing and depilatories. These temporary methods will only result in the regrowth of coarser and more deeply rooted hair.

Electrolysis is the only form of permanent hair removal approved by the FDA and the American Medical Association. It is a gradual destructive process that involves a series of treatments. Consistent treatment is the most important factor contributing to the success of reaching your goal of permanent hair removal. Fritzshall offers a consultation to assist clients in choosing the appropriate treatment schedule and method.

Any prospective client seeking electrolysis treatment should inquire about the

methods of sterilization of equipment, use of sterile disposable probes, gloves and a mask. Questions to ask of the electrologist include: What professional organizations do you belong to? What is your educational background? Are you board certified? What types of continuing education classes have you attended in the past year? Are you preparing yourself for licensing which will begin in January 2004? By next January, those electrologists who are not complying with the law will be forbidden to practice electrolysis. It is your right to be an informed consumer. Please ask these questions of your current electrologist.

Electrolysis will lift your spirits and your self-confidence as the look you desire is achieved, as the troublesome hair is gone forever! Electrolysis has been known to improve your physical appearance and self-image and help you feel more attractive and socially acceptable. You are making a permanent choice for a lasting impression!

Absolutely! Electrolysis Salon is located at 368 W. Liberty St. (Route 176), conveniently located two blocks east of Rand Road in Wauconda. Call **Debbie** at **1-847-487-9020** to discover the difference. You will love the results!

Leadership and Patient Care

Allergan Pharmaceuticals, Inc. recently designated **Dermatology Physicians & Surgeons, Ltd.** as a national training site for Botox® Cosmetic wrinkle reduction therapy.

David P. Van Dam, MD and founder of the practice, and his associates are one of a few centers nationwide certified to train other physicians in Botox Therapy treatment based on experience and skill as well as a record of safety and patient satisfaction.

"Botox® Cosmetic therapy offers patients of any age the opportunity to reduce the signs of aging in a procedure that takes only a few minutes and affords no patient downtime," states Dr. Van Dam. "When properly performed, treatment produces a natural relaxation of the muscles that cause wrinkles and furrows, and a resultant smoothing of the skin surface and softening the signs of aging."

Dermatology Physicians and Surgeons, Ltd. has grown rapidly since its founding in 1979 to offer treatment of general dermatologic disorders as well as specialized care in the treatment of skin cancer and in aesthetic dermatology. As **Dermatology Physicians & Surgeons** has grown, the practice has become a recognized source in the region for aesthetic medical treatments including clinical skin-care, dermatologic surgery and aesthetic plastic surgery.

"We are proud of our leadership role in aesthetic medicine and the responsibility attached to it," states Dr. Van Dam. "We see Allergan's endorsement as much more than a recognition of our efforts. Our practice is committed to the advancement of

patient care beyond the boundaries of our offices."

The practice continues a record of national recognition for excellence as a training center for advanced techniques in aesthetic skin care. Having already been appointed as a national training center for Intense Pulsed Light therapy, they are delighted to be included among the top centers in the country for Botox® Cosmetic.

In 2002, the **Dermatology Physicians & Surgeons** opened Versa Medi-Spa, offering clients and patients the opportunity for medically supervised, clinical skincare in a relaxing and attentive environment. Also in 2002, aesthetic plastic surgeon Greg Bazell, MD, joined the practice, broadening services to encompass aesthetic plastic surgery for the face and entire body. All services are performed in our private, fully equipped surgical suite accredited by the Accreditation Association for Ambulatory Health Care located at The Foundry of Barrington.

"Throughout our growth and evolution, our mission has remained consistent," states Dr. Van Dam. "We strive to provide quality care and safety for our patients to achieve natural results with minimal discomfort and downtime, in a nonpressured, private environment focused on education, comfort and the individual."

"Vintage Voila" and BACOA— Both on the Go!

The Barrington Area Council on Aging is on the go. It continues to expand its programs that provide support and education to family caregivers. Their efforts include a recent affiliation with the Suburban Area Agency on Aging to begin providing BenefitsCheckUp's to help link seniors and their caregivers to state and national programs that might benefit them.

BACOA's premier fund-raising event, "Vintage Voila," is also on the go. The new date for this annual wine tasting and silent auction event is Sunday, Aug. 24. The new location is The Garlands of Barrington's Performing Arts Center. Merrill Lynch has once again offered to be the primary corporate sponsor of the event, and Ken and Sandy Wodek, owners of Armanetti's Barrington Cellars, are providing the wine.

"BACOA provides support to a growing population of older adults and the people who care for them," says Carol Beese, BACOA advisory board member and honorary chair of the event. "It is an organization we should all support. Mark your calendar and please join us at this fun and enjoyable fund-raising event."

The 15th Annual Shining Star Ball honored McDonald's for its support of Clearbrook and its advocacy and involvement in numerous other children's charities locally and throughout the country. More than 500 guests attended the black-tie affair benefiting the Clearbrook Clinic. Last year, the Clearbrook Clinic provided more than 20,000 hours of services in the areas of occupational, physical, speech and language therapies, along with counseling, behavioral supports and psychological consultations to children and adults with developmental challenges.

"We are proud to recognize the McDonald's Corporation with this year's distinguished Shining Star Award. An Exciting Home Addition

In addition to providing custom room additions with bathrooms, kitchens and fireplaces, **Armcor Design and Build** is your local store for **Four Seasons Sunrooms**, the nation's largest manufacturer of sunrooms for residential and commercial use.

Each **Four Seasons Sunrooms'** product is meticulously designed and crafted to be a practical, beautiful, and exciting addition that will bring a new dimension of space, light and warmth to what might otherwise be an ordinary room, whatever the season or location of your home.

Armcor Design & Build craftsmanship and quality products are also an excellent investment and can add real value to your home. Often, much of your investment in a **Four Seasons'** sunroom can be recovered when you sell your home.

Glass room additions create views of the sun and sky and add extra year-round living space with possibly little or no alterations. New MC² glass, with a Lifetime Warranty and specially designed to keep summer heat out and winter heat in, is one key to **Four Seasons Sunrooms'** success—especially in our Chicagoland climate.

Many patented features are available exclusively from **Four Seasons Sunrooms**,

and all products are designed to meet or exceed building code structural requirements and have successfully withstood more than 200,000 installations.

Armcor Design & Build will provide you with a complete "turn key" room addition project or you can build it yourself. Every **Four Seasons'** sunroom is virtually maintenance-free, weather-tight and comes with a lifetime limited warranty on MC² glass, five year warranty on parts and labor. There are numerous options, both wood and aluminum systems, and a wide variety of models and sizes.

Armor Design & Build's new showroom is at 951 N. Old Rand Rd. (Main St.) in Wauconda. **1-847-487-7900**.

Landscaping Adds Value in Many Ways

Mother Nature's quite the artist. Her canvas is the great outdoors, and we enjoy her beauty in all seasons. The question becomes what to do.

At **SanFilippo Landscape**, we recommend copying some of the lessons of nature, not haphazardly but created by someone with experience.

Economic Value

- According to the American Association of Nurserymen, a well-landscaped home sells more quickly and at a higher price than a not-so-well-landscaped home.

- According to *Money Magazine*, landscaping can have a 100 to 200 percent recovery value.

- Trees add value as they grow in size.
- Landscaping can provide shade in the summer and shelter from wind and snow in the winter.

Environmental Value

- A mature tree removes 26 lb. of carbon dioxide from the air and releases 13 lb. of oxygen.

- Plantings slow soil erosion and allow water absorption.

- Plantings provide shelter and food for birds and other wildlife.

Common Mistakes

Curb appeal is every homeowner's goal. But a lot of money can be spent and efforts could be in vain. The following are four common mistakes:

- **Improper Choice of Plants and Shrubs**—The choice of specific plants is key to ensuring their adaptation to our climate and their vitality on your property. We recommend materials that have been grown

in Northern Illinois and Wisconsin nurseries. For instance, evergreens can be finicky. Sometimes, they brown out or lose growth. Why? With not enough snow to protect them, our winters may be too cold.

- **Planting in the Wrong Place**—Keep in mind "the right plant for the right location." Always consider a plant's mature size. Sun or shade tolerance is also an issue. Popular shrubs like rhododendrons should be replaced after one season if they receive too much sunshine.

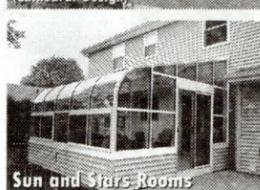

Many types of shrubs remain puny if planted in northern exposures. Broadleaf evergreens planted under taller trees may die off. When the trees lose their leaves, they lose their protection from the winter sun and wind.

- **Lack of Variety and Imagination**—In your design, try to pay attention to variety in the texture, color and size of your plant materials. A good mix of heights give a landscape dimension, while large groupings of the same plant can help create variety in texture and color throughout all seasons. All green is boring. Also, mixing deciduous plants with evergreens creates interest in all seasons.

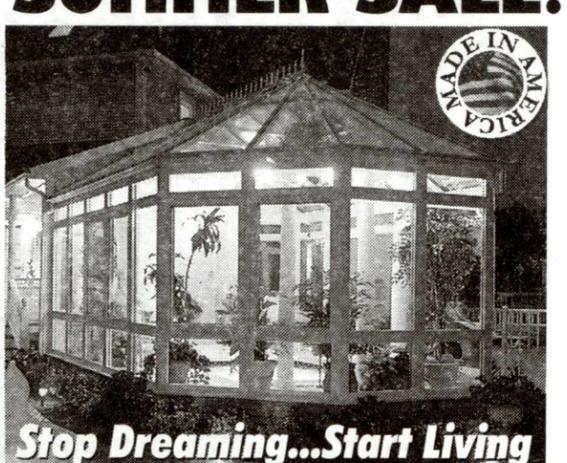

- **Not Having an Overall Plan**—When creating a plan, it's important to envision the finished result, keeping in mind that landscaping is a process and not just a destination. When dealing with living things, change is constant. A plan creates direction.

So many reasons to improve the landscaping of your home—call **Michael SanFilippo** at **1-847-381-1611**.

REMODELING 2003

With four growing children, John and Kathy Loy had come to the conclusion that the kitchen of their 1970's vintage house was no longer serving the needs of their family. Although pleased with the basic L-shaped layout, the couple felt the massive storage closet and soffits made the kitchen feel too confined. They also wanted to replace their dark oak cabinets and 70's era appliances. Designer Ross Gerami of **Barrington Kitchen & Bath Studio** worked with the Loys to create this stunning new kitchen, but not without a test of his creativity.

"One way to really open up the kitchen visually and add extra storage space is to remove the soffits. Often, they were put in by builders just to fill space, but sometimes we find vents or plumbing pipes running through them," says Ross. At the Loys's, pipes were discovered over the range and over a doorway. Ross felt so strongly that the new kitchen would be enhanced by the removal of the soffits that he went back to the drawing board and created a unique maple chase to enclose the pipes. "We call remodeling 'the art of the unexpected,'" Ross continues. "That's why it is important to choose seasoned designers and tradespeople who aren't thrown by the unexpected situations which can arise during remodeling." Experience has given him the ability to make lemonade out of lemons. Ross also feels it is important to have the design work and the installation done by one source, so that if unexpected conditions arise, the homeowner has everybody on the same team—theirs—and not shifting responsibility back and forth. "Through our sister company **Delta Renovations**, I am lucky to work hand in hand with some of the best and most experienced craftsmen in the business. As challenges arise, we work together to find solutions!"

The finished kitchen is a testimony to that experience. Using simple

The Loys new kitchen is light and warm. The checkerboard tile gives just the right amount of punch.

light maple cabinets from Crystal, earthy granite countertops and sparkling stainless appliances, the finished room is warm and inviting. Two pantry cabinets replace the space-wasting built-in closet. Fluted angles on each side of the sink add definition and style. The wood floor, refinished to complement the new color scheme, glows with warmth.

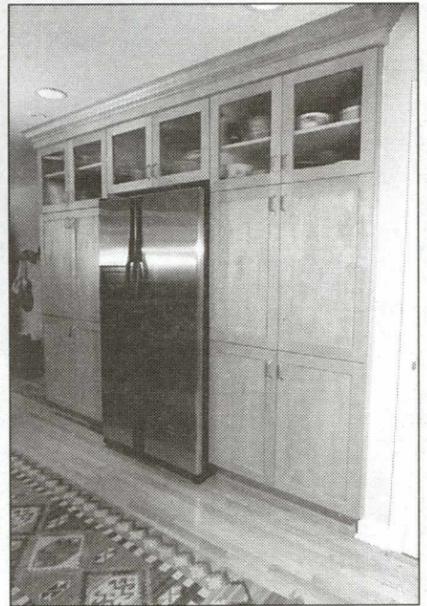

If you are considering a new kitchen and want to put our team on your team, call **Barrington Kitchen & Bath Studio** at **1-847-381-3084**. Let us put our experience to work for you—we guarantee you'll love your beautiful new kitchen!

Designer Ross Gerami used a wood chase and stacked moldings to dress up the kitchen and hide plumbing pipes exposed when the soffit was removed.

A warming drawer was a must for this busy family. Handy at holidays, too. Deep drawers are perfect for storing pots and pans or those ubiquitous plastic storage containers. Note the styled end panel.

Pantry cabinets with rollout shelves and glass doors for display now replace a bulky space-wasting storage closet.

Outdoor Amenities Lure Buyers to Brookstone in Long Grove

If enjoying spectacular views of a majestic forest preserve from your custom-built home is an important priority, then **Homes by Richmond** offers an opulent outdoor lifestyle at **Brookstone** in Long Grove.

An enclave of 15 one-of-a-kind custom homes on one- to 1.75-acre wooded home sites, **Brookstone** sits on a 30-acre wooded parcel bordered by a 400-acre forest preserve on the south and east and a seven-acre conservancy boasting two ponds and a nature trail along the east side.

Due to the unusual rolling terrain of the land, most homes have walkout or English basements. Each lavish residence is designed with the owners' love of the outdoors in mind, so the rear of each home is as impressive as the front. Multiple balconies, brick paver patios, spectacular swimming pools and exciting hot tubs all serve to make the outdoors an extension of the home.

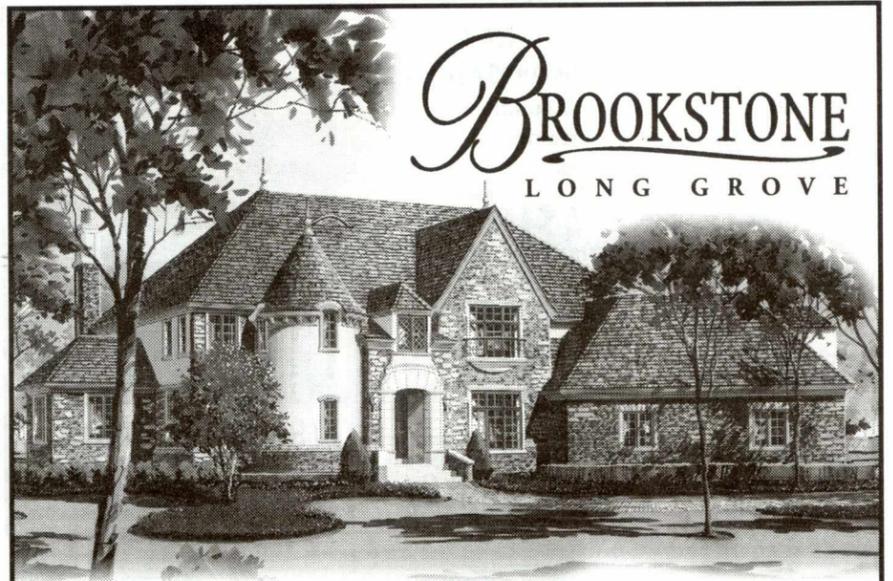

Setting the backdrop for these unique Old World residences, the Lake County Forest Preserve provides a haven for outdoor enthusiasts with its bike paths, walking trails and two lakes stocked with fish. Homeowners can enjoy fishing, kite flying, bird watching, wild life photography

and just plain deer watching.

Large stone patios step down to a kidney shaped pool and overflowing hot tub with lights, Jacuzzi and fountains. Curved balconies with elegant wrought-iron railings extend off the master bedroom suite in back of the house and overlook the swimming pool. Sumptuous bedroom balconies enhanced with limestone balusters are large enough to accommodate a couch, rattan chairs and a table.

An octagonal turret houses a breakfast room on the first level with an eight-foot whirlpool hot tub perched atop, creating a master bedroom balcony that's relaxing and functional at the same time. While the balcony overlooks the first-floor patio, a pond and an outdoor fireplace, inside the bedroom, a wall of glass allows the homeowner to enjoy spectacular views of the forest preserve. For those who love to entertain family and friends, an outdoor kitchen comprised of a wet bar, built-in professional grill and fireplace extends the summer a few more months and is great way of taking advantage of the changing seasons.

A demonstration house is open daily from 10 a.m. to 5 p.m. except Wednesday and Thursday. Call **1-847-537-8459**.

Dumb Money vs. Smart Money

Dumb money goes for free design advice from lawn maintenance services and relatives. **Smart money** knows that lifestyle-compatible design concepts of the non-cookie-cutter variety are had from a design professional.

Dumb money buys what looks good today, on sale, and often guided by the label or sales clerk. **Smart money** knows labels are often incomplete and misleading; and aims for long-term and low-maintenance color for all the seasons.

Dumb money downsizes materials to excess, sacrifices quality, and puts off fundamental problems when the budget is squeezed. **Smart money** takes on one area at a time, does it well, then moves on as budget allows.

Dumb money is cutting back, digging out, and replacing dead and overgrown in just a few years. **Smart money** is pulling a nine iron.

The Orren Pickell Vacation House Open to Public to Benefit Charities

The Vacation House by Orren Pickell Designers & Builders is open to the public for tours Fridays through Mondays from 11 a.m. to 4 p.m. or by appointment. From June 1 to July 14, donations are \$10 per person or \$20 per family and benefit the Greater Chicagoland's Housing Foundation and breast cancer research at Evanston Northwestern Healthcare. Tickets are available at the door, 550 South Lake Shore Drive on the south shore of Geneva Lake. For more information about the club or directions, call 262-248-8430 or visit www.thesouthshoreclub.com.

About the Club

Orren Pickell Designers & Builders has developed an extraordinary 41-acre lakefront site in Lake Geneva, Wis. A vacation community of 40 custom homes, the South Shore Club is a maintenance free, Old World, European-style, boating community that rivals the country's most famous luxury lifestyle destinations such as Fisher Island, Fla., or Sea Island, Ga.

Just over an hour's drive from Chicago and less than one hour from Milwaukee, the South Shore Club's idyllic setting on the shores of beautiful Geneva Lake makes this a truly exceptional investment opportunity. The homes themselves are impressive custom residences while the concierge-service living is unmistakably carefree.

Homeowners within the community have access to all the amenities that make this a place to relax and unwind. Nearly 1,000 feet of shoreline will house piers, boat slips, moorings, a marina and a yacht

club. Along with a 5,000-square-foot subterranean clubhouse with sauna and exercise rooms, the club features: bocce ball; croquet; a campfire area; a 4,000-square-foot, zero-depth pool; a playground; a clay tennis court; a beach and swimming area; nature trails; and more. Above all, residents will be able to get right down to enjoying themselves rather than worrying about boat upkeep or home maintenance, all of which are taken care of in this private lakefront community.

Other unique features of this extraordinary home are the "boys and girls dormitories" in the upper and lower levels. The upper-level girl's quarter is filled with surprises including two solid-surface packing tables and four built-in bunks. The finished lower level doubles as the boy's dorm including a locker room; a wet bar with a custom-built cabinetry, granite and copper countertops; a genuine tin ceiling; a fireplace; and an adjoining media and game room! A walkout terrace from the boy's dorm provides an ideal outdoor gathering place.

South Shore Club sites with custom homes start at \$1.5 million including land. Properties are even more valuable since homeowners have the rights to the full 41 acres and nearly 1,000 feet of lakefront, not just their residences. The award-winning architectural team at Pickell has created easy, low-maintenance living that includes state-of-the-art technology in a storybook, neighborhood setting. The properties at the South Shore Club will become family legacies that can be passed down from generation to generation.

So Much is New at Barrington WINGS Home

Members of the Barrington Friends of WINGS Advisory take a break with carpet installers from Carpet Mill Outlet, donor of new carpeting for the Barrington home: (from left) Kandy Dille, Mary Gerak, Greg Natzke, Paul Pavlus and Sue Jacobs.

When the Barrington Friends of WINGS Advisory formed last October, the group set out to meet the needs of WINGS in the Barrington area and at the Barrington home. They have achieved that and so much more, thanks to an outpouring of generosity from the community.

Spring chores began with some much-needed work on the exterior of the home. A dangerous old garage door was removed and replaced with a beautiful new

door, thanks to Charlene Wilson and Barrington Networking Plus. Buckeridge Door Company of Arlington Heights installed the door. The company also donated the door opener and security lights. The worn and cracked driveway was removed and replaced with assistance from Baird & Warner, Barrington Lunch Rotary, Barrington Junior Women's Club and Petersen Sealcoating & Paving of Lake in the Hills. The new garage and driveway accommo-

Maximizing Your Landscape Investment Begins with Great Design

JB Enterprises—Barrington's Landscape Company for Over a Decade

For over 10 years, **JB Enterprises** has served customers in the greater Barrington area and beyond. Spring is finally here, and our client projects are well underway.

One of the things we find critical to our customers' satisfaction is their investment in a detailed, high-quality landscape and/or hardscape plan. The incremental cost for a customized professional landscape design is well worth the investment because our clients obtain a very clear understanding of the plant materials, positioning and scope of their project. The work does not begin until our customer is completely satisfied with the plan. Our landscape designers take creativity to a new level based on a client's objective for longevity, aesthetic beauty and hardiness. We are especially aware of the need for

our projects to "mature" well, and we guarantee our materials. We take pride in doing it right the first time, and our clients trust in the quality work we perform.

JB Enterprises has an extensive client portfolio of beautifully-executed client properties that include high-quality plant materials, driveways, walks and walls in a variety of brick and stone. We work with newly-constructed sites as well as the renovations of existing outdoor living areas. In addition to the creative solutions we bring, our timely, professional service is never forgotten.

Residential or commercial, we're *Barrington's Landscape Company*.

BACOA's Sixth Annual Village Garden Walk

Garden enthusiasts are invited to enjoy the "Bloom Where You're Planted" Village Garden Walk and Boutique on Saturday, June 28, from 10 a.m. to 3 p.m.

You are invited to stroll leisurely through eight special gardens in and adjacent to the Village of Barrington. You are also invited to purchase special garden items at the garden boutique, located at St. Paul's United Church of Christ, and speak with a gardening expert.

This year, the Barrington Area Council on Aging's Sixth Annual "Bloom Where You're Planted" Village Garden Walk and Boutique is sponsored generously by members of Barrington's real estate community.

The starting point for the walk will be St. Paul's United Church of Christ at 401

E. Main St. in Barrington. Participants will receive a program describing all the gardens included on the tour. Proceeds from ticket and garden boutique sales will support the Barrington Area Council on Aging, Inc.

Tickets for the walk are \$15 each. Tickets may be purchased in advance by calling 1-847-381-5030 or stopping by the office at 200 S. Hough St., Suite 001, Barrington Village Hall. Tickets will also be available for sale at the following real estate offices in Barrington: Baird & Warner Real Estate, Barrington Realty, Century 21 Care Real Estate, Coldwell Banker Real Estate, Keller Williams Success Realty, Re/Max of Barrington, Starck & Company Realtors, and Village Square Realty.

date a new minivan, many thanks to Dr. Eugene Meyer from the Barrington Advisory, who helped get the van in working order.

Our gratitude goes to Ben and Kandy Dille who took care of the first big mow of the season; the rest of the summer mowing will be handled thanks to Scotties of Elk Grove Village. Cleanup around the rest of the yard was a breeze thanks to TruCare, who donated fertilizer and weed control, and Hendrickson, The Care of Trees, who donated trimming services. The Barrington friends of WINGS Advisory members put the finishing touches on the outside work by planting flowers on a warm and rainy spring day. Several of the Barrington garden clubs will assist in the gardening efforts this summer.

The interior of the home also received some updating. Carpet Mill Outlet in Barrington generously donated new carpeting for the entire home. Barrington advisory member Paul Pavlus from the Cook County State Attorney's Office got the project started by removing all of the old carpeting. Once the dust settled on all this

activity, All Kinds of Cleaning from Palatine donated a complete spring house-cleaning. Next on the to-do list is storage shelving from Pepper Construction Company and fresh paint from Sue Jacobs Decorative Painting.

The community came forward with plenty of good cheer for the family as well. The advisory showed up for the Easter holiday with fresh flowers, Easter eggs and plenty of Easter basket goodies donated by Cub Scout Den 14/Pack 183 from Grove and Hough schools and by the Pepper family. Thanks to a donation of a family pool pass from the Barrington Junior Women's Club, the WINGS family will enjoy a cool and fun summer!

The group is excited to receive initial funding for work in the kitchen from Sears' American Dream House Program and continues fund-raising efforts for other work around the home. Individuals or groups wishing to support WINGS with material, labor or monetary donations are invited to contact WINGS directly at 1-847-963-8910 or to contact Mary Gerak, advisory chairperson, at 1-847-304-0861.

From a Woman's Point of View

by Gail Wickstrom, Wickstrom Ford

It's so hard to believe we're coming up to the midpoint of the year! The calendar for the month of June is quickly filling up with dates to celebrate. This year, we're celebrating two graduations among **Wickstrom Ford** employees. Jared Csar will be a Palatine High School graduate this year. He will attend Harper College in the fall. And our Friday phone assistant Barrett Franciscatti will receive his long-awaited bachelor's of science degree from Roosevelt University.

What's amazing is how quickly our employees become like family. Referrals are important in our business, and we've found that's the best way to recruit employees too! Previously, Jared's brother worked in our Quick Lane. And the wonderful Sister Lorraine from St. Anne's in Barrington referred Barrett to us about five years ago.

Wouldn't it be exciting to make an entrance at your college graduation with a new car? **Zero percent financing** might make that possibility come true! Select your car, add taxes, doc fee, license and title registration to the price and divide by up to 60 months. That's your payment. This is true zero percent financing. Any money down you provide will lower your payment as well.

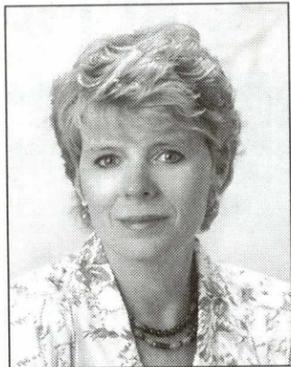

Some of our vehicles, such as the Explorer, also offer a \$1,000 down payment match to go along with the zero percent financing!
