## Electrolysis Is The Answer

Anyone who is interested in good grooming and an attractive appearance is likely to read about electrolysis. It is the *only method* which will remove your unwanted hair permanently, and it is not a new technique. Successful results have been reported and discussed favorably in the medical journals since 1875, more than a century ago.

Nowadays thousands of women make appointments every week with their electrologists, but very few openly tell their friends or relatives about the positive results. Most people are too embarrassed to mention facial or body hairs, and so the facts about permanent removal must often be learned from responsible beauty editors or medical columnists.

Fortunately, there is a skilled electrologist at **Clear Reflections** in the Barrington Commons who can remove those telltale hairs quickly and conveniently in the privacy of a professional office.

Now past its 100th anniversary, electrolysis is a boon to mankind which goes on making converts every day. The reason is obvious—success and permanence make an unbeatable combination.

Take away those unwanted hairs and what you have left is confidence in your own charm and attractive appearance. Phone **Clear Reflections** at **381-9020** for your appointment.

**Clear Reflections** has provided 19 years of service at the same location.

May, 1995

Dear Reader,

If you are wondering who plants all those beautiful flowers around Barrington to enjoy each Summer it certainly doesn't happen by magic. Chances are the Council of Barrington Garden Clubs, of which there are 250 women, worked very hard to achieve this special appearance for us all to enjoy. June 4-10 the Village of Barrington and the Council of Barrington Garden Clubs will celebrate National Garden Week. Village President Ronald Hamelberg will issue a proclamation as the entire community joins with the seven garden clubs in celebration. Our congratulations!

Have women made advancements in the work world? Have no doubt! The National Association of Women Business Owners (NAWBO) of the Chicago area will be holding their annual achievement luncheon this month. Over 1,000 will attend. Did you know that women and minority business owners employ more Americans than the Fortune 500 combined? And did you know that Mayor Richard Daley named more women to prominent positions of power and responsibility than any other big city mayor in the country? He will be recognized at the achievement luncheon, among others. The occasion will be held May 10 from 11:30 am to 3:00 pm at the Palmer House Hilton Hotel. Guest speaker: Dr. Mae Jemison, astronaut, physician and entrepreneur.

Until next time, may all your thoughts be sunny.

With warm regards,

*Glenne McMonigal*

## Turn Of The Century Italy Is Theme For TNOS Benefit

Committee chairman Buddy Black from Palatine (center), joins Toni Callahan and Helen Engbrecht, Barrington, as they "try on" hats and accessories for The New Oratorio benefit, "an Evening at the Verdi's", to be held on Sunday afternoon, May 7, at the Barrington Hills Country Club. For information, please call (708) 604-1067.

Members of The New Oratorio Singers (TNOS) and music director Alan Heatherington invite you to travel back with them to the turn of the century Italy for their annual TNOS benefit evening.

An Evening at the Verdi's, the theme for the party, will take place on Sunday, May 7. Guests will be welcomed into the Barrington Hills Country Club resplendent in Italian reds, green vines, luscious grapes and glorious flora reminiscent of gracious times of long ago.

Promptly at 5:00 p.m., the social hour (cash bar) and bidding on the many wonderful auction items begins. Some of the items will include a signed football by Walter Payton, tickets to a Chicago String Ensemble concert under the direction of Alan Heatherington, the Brass Ensemble, Lyric Opera of Chicago dress rehearsal and the *Night of the Rising Stars* in the Civic Opera House, Candlelight Dinner theater, and to the Opera in Focus puppet performance. Also, there will be fine jewelry, a framed water color by Pat Mead, an antique Arthur Rackham illustration, a living shade tree, a week at Park City, Utah, and a getaway escape to Wisconsin; voice lessons, photographic sessions with Al Buschauer Designer Photographer and Portraits by Thomas, retirement financial consultations, restaurant certificates, Arlington International Racecourse Million Room package, and more. All items are most generously donated by individuals, businesses and corporations in the northwest suburbs. Following the four-course buffet sit-down dinner, silent auction top bidders will be announced

as music in the spirit of the Verdi era is heard.

Committee members are Toni Callahan, Joan and Gale Ebert, Helen Engbrecht, James Estes, Joan King, Mary Kuppenheimer, Patti Lancaster, Pat and David Priniski, Janet Twitty, and advisor Terese Messman from Barrington; Gordon Fishburn from Chicago; Gayle Heatherington from Skokie; Janet Lareau from Algonquin; Edith Luke and Susan Miller from Crystal Lake; Helen Messerschmidt from Lake in the Hills; and Alice Peraino from Woodstock. Event committee chairman is Buddy Black from Palatine.

The New Oratorio Singers was founded in 1979 by a group of singers from the northwest suburbs to bring large scale choral works with professional soloists and orchestra to audiences beyond the center of the city. Their performance venue has now expanded to include both the north and northwest suburbs and, on occasion, Chicago itself. Singers come from all walks of life and over thirty communities, and all have a passion for choral music of the great masters. In addition, TNOS was the featured chorus at the 1993 International Church Music Festival in Oberammergau, Germany.

The chorus has received an Illinois Arts Council grant and a 1994 Arts-Boost grant from the Barrington Area Arts Council.

Benefit tickets are \$50. Please send check to TNOS, P.O. Box 1503, Barrington, IL 60011. For information on the benefit and TNOS, phone (708) 604-1067.

## Meet Mrs. Ulysses S. Grant

The Barrington Woman's Club General Meeting and Program will be held Wednesday, May 17 at Wynstone Country Club, Hospitality 11:00 A.M., Lunch 11:45 A.M., Program 1:00 P.M. *The General's Lady* by Lucy Miele will be the topic: a delightfully witty and beautifully costumed presentation of Julia Dent Grant (Mrs. Ulysses S. Grant). She was a paradox, this wife of the man who saved the Union. The pampered daughter of a Missouri Plantation slave-

owner. She liked to shop and entertain and gossip. She became a seasoned traveler and brought to her travels a remarkable well informed mind. And she adored, and was beloved by, her husband, Ulysses S. Grant.

An extraordinary program of humor, history, and high fashion. Not only is *The General's Lady* historically accurate, witty and entertaining, it also mirrors the exquisite costuming of the Opulent Era.

Lucy Miele is in demand as a speaker

## Women Business Owners "Aim High"

Chicago. One of the largest organized groups of women business owners in the nation calls the Chicago area home. Members of NAWBO, the National Association of Women Business Owners, number more than 500 in the Chicago area, and they have set their sights high this spring.

On May 10, from 11:30 AM to 3:00 PM the Palmer House Hilton Hotel will be the site of the 1995 NAWBO Achievement Luncheon. The guest speaker will be former Chicagoan, Dr. Mae Jemison, who credits Chicago's Public School System with helping her get a start on her career as scientist, engineer, physician, astronaut and now, entrepreneur.

"We anticipate a thousand guests at this event, the largest in our history," says NAWBO/Chicago chapter president, Gillian H. Schultz, who is vice-president of *Metronet Protection Services, Inc.*, headquartered in Chicago's Loop. "We are operating our businesses in an environment that is suddenly the focus of government and media attention. Women and minority business owners employ more Americans than the Fortune 500 combined. At the same time we are enjoying record success and record growth, we know that strategic alliances with our corporate partners, like American Airlines, Ameritech, and Chrysler among examples, have resulted in positive benefits for them and a part of their business for us. Despite forces that continually work to undo this progress, we are setting our sights on increased growth, broader diversity and visibility, and stronger roles for women business owners in the public discourse. It is no accident that our 1995 NAWBO Achievement celebration theme is 'Aim High.'"

NAWBO Achievement Luncheon co-chair is Linda K. Hughes, president of Long Grove-based *Resource Marketing, Inc.* "We were really pleased that Dr. Mae Jemison accepted our invitation to keynote this important event on May 10," says Hughes. "Business owners and their corporate guests are so interested in hearing from her that we have sold nearly 500 seats by word of mouth alone. One of our member companies, *Up By Your Bootstraps Productions*, in Chicago, purchased ten tables so that high school girls from minority communities could be present, talk to hundreds of women who own their own businesses, represent millions of dollars and thousands of employees. They will meet and hear from Dr. Jemison, who graduated from Morgan Park High School here."

"It's also timely for us that astronauts are in the news again," continued Hughes. "With the Mir space station/U.S. partnership, the importance of space exploration and respect for pioneers in the field is just increasing. Dr. Mae Jemison blasted into orbit aboard the space shuttle Endeavour on September 12, 1992 as the first woman of color to go into space. She was a Science Mission Specialist, a NASA first, on the STS-47 Spacelab J. flight, a U.S./Japan

throughout the country. She has weekly columns in Rockford, Moline and Rock Island newspapers and has been published in the Chicago Tribune and the Chicago Daily News. Lucy is the author of a variety of best sellers, including several cookbooks. She holds numerous awards for column and fea-

joint mission. She conducted experiments in life sciences, material sciences and was co-investigator for the Bone Cell Research experiment," notes Hughes.

An advocate of science and technology, Dr. Jemison's focus is on improving the status, quality and image of the scientist. Now pioneering an entrepreneurial enterprise, she heads The Jemison Group, Inc., a research and technologies company. Among its initiatives are *Alafia™*, a satellite based telecommunications system to improve healthcare in West Africa; and *The Earth We Share™*, an international science camp for students 12 to 16.

In another first for the NAWBO/Chicago organization, Mayor Richard M. Daley will be honored for having named more women to prominent positions of power and responsibility than any other big city mayor in the country.

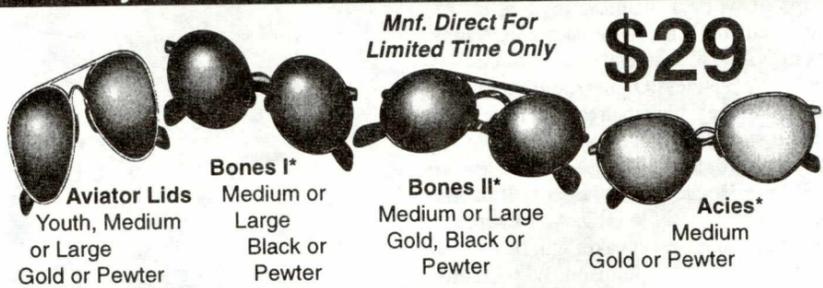

"Recognizing that Richard M. Daley has used his several public positions to further the careers of intelligent and gifted women gives us great pleasure," says NAWBO/Chicago president Gillian Schultz. "It is our view that the 'equal playing field,' which is yet to be attained, is a more realistic goal when we are allied with the practical goals of male business and government leaders like the current Mayor of Chicago. We are proud of his 'honor roll' of prominent women, who are now able to make their contributions toward civic and business goals because of their positions of influence."

The National Association of Women Business Owners is 21 years old, has more than 50 chapters nationwide and is affiliated internationally with the World Association of Women Business Owners. NAWBO champions the cause of entrepreneurship for girls and women, and encourages their professional development to economic strength and effective leadership. ## Downhome Fun, Nostalgic And Colorful

"Harvest Moon Ball" by Terry Redlin

Get ready for some downhome fun. The neighbors are getting together for tonight's barn dance in *Harvest Moon Ball*, the newest release by Terry Redlin, named America's most popular artist for three consecutive years. The honor is no small wonder as Redlin's nostalgic and colorful image of this rural America ritual is a delightful example of his pure and simple style. And the smaller than usual edition size makes this a must for collectors. It's available now at **Woodland Art Gallery** where you'll find one of the largest Redlin collections in the country including many sold out pieces.

And for collectors of artist Robert Bateman, **Woodland Art Gallery** is pleased to announce the exciting release of *Wolf Sketch*. With a direct gaze of a wolf so compelling, a feeling that is as exciting as it is unsettling, you look deep into the eyes of the wild. Furthermore, executed as a pencil drawing on coarsely textured paper and enhanced with hand coloring, the

limited edition print gives you the feeling of the wolf's rough power. But most important, it's a wolf and it's a Bateman. It's expected to sell out fast.

For information on reserving Bateman's *Wolf Sketch* or Redlin's *Harvest Moon Ball*, call or visit **Woodland Art Gallery and Frame Shoppe** at 71-B East Woodstock Street in Downtown Crystal Lake. Phone (815) 459-0460.

The gallery offers a wide array of works by today's most collectable artists including Michael Young, Dean Morrissey, Carl Benders, Don Hatfield, David Armstrong, Bradley J. Parrish, John Seerey-Lester, Peter Ellenshaw, Bev Doolittle, Arleta Pech, Terry Isaac, and Jim Daly. And the gallery is also most respected for their museum mounting, custom matting and framing to preserve your fine works for years to come.

**Woodland Art Gallery** invites you to stop in Monday-Friday 9 a.m. to 5 p.m., Saturday 9 a.m. to 3 p.m.

## Forty Candles Beckon The "Rascal Of The Opera" Back To Barrington

A special "fortieth-year celebration" for Lyric Opera of Chicago, and an "end-of-the-year special evening" for the Barrington Chapter, is planned for members and guests on Friday, May 12, at the Biltmore Country Club in North Barrington. The social hour will begin at 6:30 p.m. A four-course dinner with entertainment will follow.

The evening's program, *A 1954 Retrospective: A Look at Lyric Opera of Chicago's First Season*, will be replete with music, stories, and assured pure enjoyment with the jocular Alfred Glasser as emcee. Interspersed with arias and duets from Lyric Opera's first year by soprano Karen Rees, Evanston, and bass baritone Paul Wayne Grizzell, Naperville, Mr. Glasser will recall many amusing and interesting stories about the forty year-old Lyric Opera of Chicago, promises chapter President Jan Semerad from Inverness.

With his wonderful wit and incredible knowledge, Mr. Glasser, director of education for Lyric Opera of Chicago, is a most sought-after speaker for groups throughout the greater Chicagoland area. Also, he is the mainstay of the popular lecture series which previews the upcoming Lyric Opera season each Fall.

**Memories Last Forever**

What will you leave your children someday? Money? Property? Memories? The money and property will all too soon be consumed, but the memories will last forever, and the one single item that completely reinforces that memory is a portrait. Not just a snapshot at a birthday party or holiday, but a real professional portrait, one that has been designed to not only capture the image of the person but one that tells a story of who and what that person is.

Since 1975, **Joe Rush, Master Photographer** and **Langdon's of Barrington** has been doing just that, capturing not only the

image but also the person behind it.

Because of Joe's extensive background in all styles of portraiture and mastery of photographic techniques, he will bring to you any style and background you wish. This will afford you, the portrait customers, a great deal of convenience while being able to receive the same quality and service as they have always expected from **Langdon's of Barrington**. All this, delivered in a new and unique style at a realistic price.

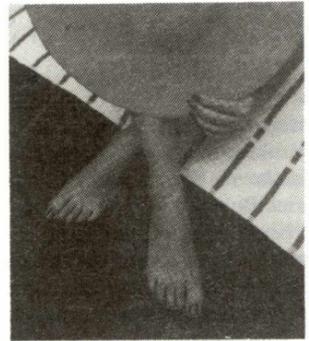

Call (708) 382-5463 NOW for your pre-sitting consultation.

**Its Pedicure And Facial Month  
At The Total Look**

During the month of May, it's pedicure and facial month. The services at **The Total Look** are done by a licensed esthetician. We can design a program for your skin care needs.

Another benefit often overlooked is the therapeutic value of pedicures. After a long day spent on hard floors in dark cramped shoes, pedicures should become an essential part of a client's health and beauty regimen—just like manicures.

We are offering a **May Special** for first-time clients. We can also do a Glycolic Treatment to exfoliate dry skin on your feet, with your pedicure and facial. During May, priced at \$50 (reg. \$80). Gift certificates are available.

## Let's Talk Teeth: Should Regular Dental Exams Be So Regular?

by Dr. Raymond Kotz

The idea of "getting your teeth cleaned every six months" is obsolete. In my office the interval for scheduled dental cleanings may vary from two months to one year depending on my patients' needs.

Cleaning needs are determined by a thorough oral examination of the periodontal structures (gums, bones, ligaments) which support your teeth. X-rays are taken and crevice or sulcus measurements around each tooth are recorded on the patient's chart. An individual's medical status such as diabetes or pregnancy is considered, and a treatment plan is proposed.

For pregnant women or individuals with some degree of gum disease, a three month dental cleaning interval is usually recommended. Multiple studies have shown significant improvement of teeth and gums if cleanings are performed at three month (or more frequent) intervals.

For a few people with very good luck or special oral hygiene efforts, a one year appointment is sufficient. Most patients' schedules, however, fall somewhere in between.

These simple dental tips can aid in your overall dental health between appointments:

- Brush thoroughly once a day with a fluoride toothpaste

- Use a toothbrush with a soft rounded bristle and replace it every three months
- Floss your teeth carefully once a day
- Eat a balanced diet
- Don't smoke or chew tobacco
- Avoid constant sipping of coffee, tea or soft drinks
- Avoid chewing ice, biting pens, cracking popcorn kernels
- Wear a mouthguard when you play sports

For specific recommendations for you or your family, contact Dr. Raymond P. Kotz (708) 381-4040, 129 Park Avenue in Barrington.

## Teaching Your Child Techniques For Learning And Remembering

How well children do in school is determined not only by intelligence, but also by the methods or strategies that they use to master all the new facts, ideas and concepts that they must learn. Children need strategies because effective learning requires their active participation.

According to Dr. Raymond J. Huntington, founder and president of **Huntington Learning Centers**, there are five effective strategies you can teach your children for active learning:

1. *Asking questions.* Self questioning forces the student to think about the material in order to answer the questions. When listening to lectures or reading textbooks, it is helpful for students to think about the topic and make up some questions that will focus their attention and improve concentration.

2. *Making inferences.* Making inferences involves thinking about the information, ideas or opinions we hear or read about, and trying to draw conclusions from this new information. Learners must think about the material, thus making it more meaningful and easier to remember.

3. *Creating analogies.* You can help children create analogies by encouraging them to relate things they know to the new information by looking for similarities or making comparisons. Creating analogies is a way of building temporary mental bridges between what is known and new information.

4. *Finding the main idea.* New information whether in class or in textbooks, usually

includes a number of main ideas or facts and a lot of material to support them. As students read or listen, they must often ask themselves, "What's the point here?" If students constantly look for the main idea, they will be concentrating on the important material, and will be actively involved while studying.

5. *Categorizing information.* When we have many items of information to learn, it helps to group them into categories. All items in a category must have one or more similar characteristics. For example, in science class, animals are divided into groups such as reptiles, mammals, fish, etc. It makes the learning task more manageable by breaking it into smaller parts.

You can help your children succeed in school by talking to them about these five different learning and memory strategies and making sure they understand and are able to use them. But even motivated learners who pay attention to their school work may continue to have difficulty. This could be an indication of a weakness in basic skills.

The **Huntington Learning Center** is a nationally recognized leader in the field of tutoring and supplemental instruction. Programs are offered in reading, writing and math, as well as SAT and ACT exam prep courses.

For more information, or to discuss a specific problem, contact the **Huntington Learning Center** in Barrington at 382-3655 or in Buffalo Grove at 459-5939.

## It's Never Too Late For Piano Lessons

If you are one of the many do-it-yourself pianists, perhaps you enjoy browsing in music stores, buying music, and trying to pick out the melodies. Maybe you'd even like to study piano, but are too embarrassed to contact a teacher because you think music lessons are just for children. If you studied as a child and hated it, maybe now you feel guilty because you were a musical drop-out. You may justify your mixed feelings by saying, "All I wanted to do was play the piano and have fun".

Now you can! According to many adults who are taking lessons, playing the piano

is fun. They have found that piano lessons today are quite different from their earlier experiences, particularly in terms of materials and lesson format.

Whatever your age or musical background, now is the time to begin a satisfying, creative hobby by learning or re-learning to play the piano. When you begin lessons, remember that progress is individual. Move at your own pace, and with regular practice, you will succeed. Don't forget that playing the piano is not a destination. It's a journey. If you've always wanted to play the piano, start that journey today.

## Wish Ball 1995 Raises Nearly \$300,000 To Help Make Wishes Come True

Wish Ball 1995, the Make-A-Wish Foundation of Northern Illinois' largest annual fund-raising event, brought in more than a quarter of a million dollars to help make the wishes of children suffering from life-threatening illnesses come true.

Held on Saturday, April 1, the spectacular black-tie gala, sponsored by Discover Card and National Data Services of Chicago, Inc., welcomed more than 600 guests to the Hyatt Regency Chicago where they enjoyed a fun-filled evening of fine dining and dancing, in addition to the excitement of a live and silent auction.

Guests began arriving at 6:00 p.m. for cocktails and hors d'oeuvres and milled around bidding on the more than 300 silent auction items on display. The more popular silent auction items included an autographed Michael Jordan Wings poster which brought in \$1,250 and a 1994 All-Star Game chair signed by Frank Thomas, which brought guests to their feet raising \$1,000.

After a delicious dinner of stuffed chicken breasts in a basil-pesto sauce and tournedo of beef with wild mushroom ragout, all eyes were on the evenings speaker,

wish child Jami Palmer. Jami, who suffers from osteogenic sarcoma—a fast growing bone cancer—serves as the spokesperson for the Make-A-Wish Foundation. She shared her experience as a wish child and spokesperson to a very attentive audience.

It was, however, the live auction that started to get things going. An autographed Michael Jordan Olympic jersey, which had guests in a wild bid-out, brought in a whopping \$3,400. A trip for two to Los Angeles including airfare, hotel and a "walk-on" part in the popular NBC sitcom *The John Larroquette Show* went for \$3,000. Other live auction items included: Four floor seats to a 1995-96 Chicago Bulls game and an autographed team basketball raised \$5,000.; a chance to shoot hoops "one-on-one" with former Bull's star John Paxson was caught for \$5,000; a skybox for a Chicago Blackhawks game and a hockey stick autographed by goalie Ed Belfour went for \$2,800; a fluffy, purebred American Eskimo puppy tugged at guests hearts bringing in \$2,000.

As the live auction came to a close, guests packed the dance floor to enjoy the festive music of the Gentleman of Leisure.

## Newest Generation Of Fashion Designers Showcase Their Work

"Fashion 95", this year's School of the Art Institute of Chicago fashion performance, features apparel created by 52 fashion design students with over 100 garments being shown in a diversity of styles for both women and men. Produced every year since 1934, the performance is presented with professional models and is directed, choreographed and designed by School faculty.

A benefit reception and performance is being held on May 4 at 6:30 p.m. in the Great Room of the School's 112 S. Michigan Ave. building. Tickets are \$75 with proceeds benefiting the fashion design department. On May 5, performances are at 2 p.m. and 7 p.m. with tickets priced from \$15 to \$20 for the matinee and \$20 to \$25 for the evening show.

For "Fashion 95", students have selected fabrics ranging from natural fibers, such as silks and wools, to screen-printed cloth and space age, high-tech materials in bright and intense colors. Some garments are dyed and hand-painted using original designs. Highly-textured linens and silks as well as muted sheers and metallic yarns take on soft, supple shapes with perpendicular and linear seaming, while more shapely designs, cut on the bias, will also be displayed. Lengths vary from very short to ankle-length. Sophomores show one garment, juniors present three designs and seniors display five pieces.

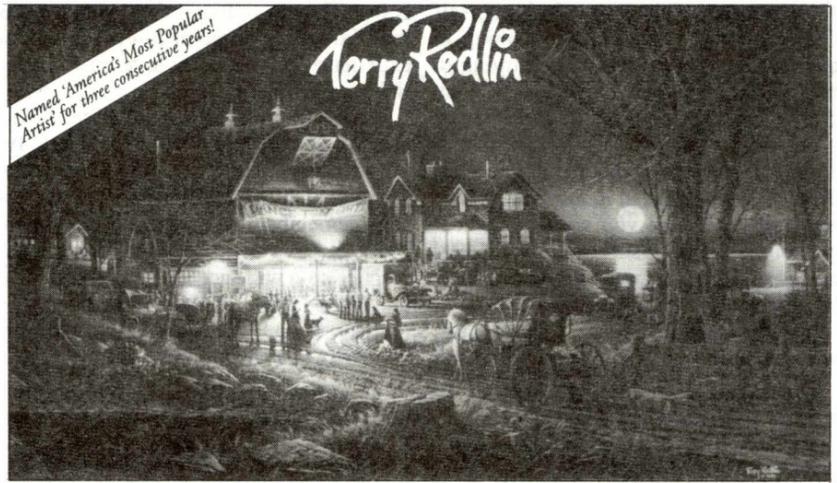

The fashion performance includes designs by students who have won awards at prestigious national and international fashion

competitions throughout the year. Honored are the 1995 winners of the Cornelia Steckl Fashion Fellowship Award, Sage Foundation Scholarship Fund, the Marshall Field's Perry Ellis Scholarship and Marshall Field's Emmanuel Ungaro Scholarship, the Shirley G. Schnackenberg Student Grant in Fashion Design, the Lester Novy Memorial Scholarship, the Morris and Rose Goldman Foundation Scholarship, the Lord & Taylor American Dress Design Competition, the William V. Mollihan Scholarship, the Association of Mannequins Award, Air France's Concours International des Jeunes Creatures de Mode and the NAMSB Foundation of the National Association of Men's Sportswear Buyers Stanley Heller Design Award for Excellence in Menswear Design.

"Fashion 95" is produced by Leah Bowman, chair of the School's department of fashion design; directed by Werner Herterich, faculty member, department of performance, who also designed the sound and lighting; choreographed by Thomas Jaremba, chair, department of performance; with sets designed by Sally Levine, faculty member, department of interior architecture.

Culminating each year of study, the fashion performance demonstrates the caliber of fashion design education received at the School of the Art Institute. In addition to providing students with the skills necessary for fashion design, the School also cultivates an understanding of the fine and applied arts, and an awareness of the social

and technical forces of our time and of those throughout history as they influence life and fashion. The department of fashion design endeavors to provide the fashion world with designers who will be innovators, who will make meaningful contributions, and who will be constantly revitalizing influences in the field of design.

The School's commitment to fulfilling the needs of today's fashion design student has been facilitated by the department's acquisition of additional space for the development of the Fashion Resource Center, a study collection of garments, accessories, footwear, videos, books and fashion publications located in the department of fashion design at 37 S. Wabash Ave.

Fashion students may enrich their studies by participating in trips to such international fashion centers as Paris, Milan, London and New York, or by attending informal lectures by prominent members of the international fashion community, such as

Issey Miyake, Jean Charles de Castelbajac, Emanuel Ungaro, Gianni Versace and Isaac Mizrahi, who have visited the School as honored guests and speakers.

The School's own fashion design alumni have gone on to hold distinguished positions in the international and national fashion design community, working as designers or in related fields such as fashion illustration, photostyling and fashion display. Notable alumni include Halston, Babach, Jan and Carlos, Cynthia Rowley, Gemma Kahng, Lawrence Steele and J. Morgan Puett.

## Service Fees

by Eleanor Nelson & Sally Hayward

This is a unique business... a travel agency. The better we do our job... finding you the lowest fares, least expensive hotel and car rentals, and the most vacation travel for your dollars... the harder we must work, the less money we make. When tickets are written and refunded, and the trip is canceled, Travel House refunds our entire commission back to the airline or tour operator. We have done all the work, but we've made no money.

As you may be aware, the major airlines have recently announced that they have reduced the commission they will pay an agency on domestic air tickets, and with some hesitation Travel House has announced to its customers that we must begin charging service fees.

We believe we offer services that cannot be obtained from calling the airlines; a personal travel representative, the lowest fares for all airline availability, the ability to exchange and refund tickets without going to the airport and waiting in line. We will keep checking periodically on a heavily booked flight to see if an aisle or window seat has opened up, know your frequent flyer numbers, your preferences for cars and hotels,

deliver your tickets to your home or office, while continuing to offer the finest most competent travel service.

We appreciate all of our clients' business, and regret that the commission changes by the airline forces us to institute this new policy. We hope you will understand this and continue to do business with Travel House 381-0600.

At the same time we will enlarge our lounge slightly, which will allow us to serve small portions of our cuisine in the bar.

Still from the newsroom...we have hired a very qualified pastry/dessert chef, Joyce Erickson (has worked at some very famous French restaurants in the Chicago area). So come in and check our desserts—they are

## Barrington To Celebrate National Garden Week—June 4-10

The Village of Barrington and the Council of Barrington Garden Clubs will celebrate National Garden Week, June 4-10, 1995, an activity of the National Council of State Garden Clubs. Seven garden clubs in the Greater Barrington Area, with a combined membership of 250 women, belong to the Council of Barrington Garden Clubs, an organization which is marking its thirty-seventh year. The clubs are: Country Home and Garden, Countryside Garden Class, Garden Club of Barrington, Field and Flower, Green Thumbs, Little Garden Club of Barrington, and Village Planters.

To begin the National Garden Week celebration, Village President Ronald M. Hamelberg plans to issue a proclamation at the May 22 Village Board Meeting. During the first two weeks of June a banner will be displayed in the plaza area at Hough and Main Streets.

On Wednesday, June 7, at 10:00 a.m. the public is invited to the Meeting Room of the Barrington Area Library for a presentation on the library gardens design by Terry Ryan of Jacobs/Ryan Associates, the Chicago-based landscape design firm, followed by a guided tour of the perennial gardens by Ms. Ryan and Becki Conner of Otto Damgaard Sons, the installing landscape contractor. Books on gardening, donated by various garden clubs, will be "pulled" for convenient check out to guests.

In conclusion of National Garden Week, Saturday, June 10, 9:30 a.m. Village Presi-

dent Ronald M. Hamelberg, Village Forester, Michael J. Symanski, Assistant Director of Public Works Mark Werksman, Council of Barrington Garden Clubs President Kay Golitz, and garden club presidents, and representatives will plant a tree at the Village Hall marked by a granite boulder with a bronze plaque.

The Council has been involved in many activities over the years, two of the most familiar being Arbor Day celebrated with the District 220 schools, and Planter Box Day coordinated with the Chamber of Commerce. The Council also presents the Barrington Area Beautification Awards to Chamber member businesses which demonstrate outstanding effort in beautifying and maintaining their buildings and landscapes. During the winter holiday season, Council garden clubs decorate the Barrington Area Historical Society and Barrington Area Library.

The Council has helped with the beautification and maintenance of the Ruth and Robert Work Park at Barrington Road and Interstate 90, since its dedication in 1962. Council clubs are involved with other small park areas in Barrington, such as the relatively new park on Summit Street. In 1994, the Council donated funds for the planting of eight trees at the Barrington Area Library. In addition, several large new areas of the library landscape project were donated by individual member clubs.

## "A Point Of View" BAAC's May Exhibit

The Barrington Area Arts Council (BAAC) invites the public to the opening of the BAAC Gallery's May exhibit entitled "A Point of View". The artist's reception will be Friday, May 5, from 7-9 p.m. in the BAAC Gallery located at 207 Park Avenue, Barrington. The exhibit features a trio of artists with paintings by Winifred Godfrey and Steven Jones and the hand-beveled glass of Robert Stewart. Each artist explores the creation of light and form.

Chicago artists, Winifred Godfrey is nationally known for her realistic oils and watercolors of flowers. Working from slides, she paints glorious close-ups which transform the viewer into the light and form of the flower. Her 4' x 5' oil on canvas "White Tulips", has become the 1995 Tulip Time poster for the Holland, Michigan festival.

Steven Jones, is the Art Gallery Curator and instructor at the College of Lake

Winifred Godfrey "Calla Lilies" oil on canvas, 34" x 54"

County and an instructor at Lake Forest College. A realistic painter, he studied in Paris in the 1970's and learned a method of painting called the "technique mixte", combining tempura and oil painting. Each painting reveals his concern with light and the relationship between an interesting selection and arrangement of objects.

Robert Stewart lives and works in Cary, Illinois and has been a full-time glass craftsman since 1975. All of his original designs are hand-crafted and hand-beveled. His works are a tribute to the engravers of the past and are in art collections throughout the world including former President Ronald Reagan.

The exhibit will be on display in the BAAC Gallery through May 30, 1995. The exhibit and artist reception are underwritten by Pat and Bill Wiggenhorn, and a grant from the Illinois Arts Council, a state agency.

For more information, contact the BAAC Gallery, (708) 382-5626.

## Schaumburg Presents 8th Annual Fine Arts Festival

The Village of Schaumburg presents its 8th annual Prairie Arts Festival Saturday and Sunday, May 27 and 28, on the grounds of the Robert O. Atcher Municipal Center, Schaumburg Road and Summit Drive.

The juried exhibition and sale will feature 140 fine artists, including painters, sculptors, photographers and jewelers from coast to coast, including California, New York and Florida.

Each year the outdoor festival continues to draw patrons from Chicago, the Northwest and outlying suburbs, many of whom come to enjoy the placid surroundings of the Municipal grounds as well as to purchase art.

And while the event is free and easily accessible to patrons, exhibiting artists find acceptance into the festival increasingly difficult. Over the years the popularity of the festival has grown so rapidly among artists that the number of applicants well exceeds

the availability of spaces. Despite this rise in applicants, festival officials have resisted the temptation of allowing more artists to exhibit, a reflection of the festival's commitment to maintaining the highest artistic standards possible.

While many patrons attend to purchase or view the displayed works, fine art is not the festival's only attraction. Live entertainment can be heard at the outdoor stage where youth orchestras, high school jazz bands and local musical artists are featured hourly. Younger artists will enjoy a children's activity tent, sponsored by the Schaumburg Park District. Restaurant vendors will also be on the grounds serving a variety of food and refreshments.

The two-day festival will operate from 10 AM to 5 PM both Saturday and Sunday over Memorial Day weekend. Admission is free. For more information, call (708) 894-3600 weekdays from 9 AM to 5 PM.

## Kumon Summertime Fun!

*Kumon Math students at the world's largest Kumon Center in Toronto, Canada, where more than 1000 students study the Kumon individualized programs. There are now over 40 Kumon Centers in the Chicagoland area.*

The **Kumon Educational Institute** is the world's largest private educational institute, with two million students enrolled in 23 countries. Students of all ages and skill levels can enroll in the **Kumon** math program. Unlike other math programs that utilize calculators and the latest computer technology, the **Kumon** method is decidedly low-tech. Students complete packets of worksheets that focus on specific mathematical concepts exclusively until each concept is mastered. This back-to-basics approach has helped students develop their math proficiency, study skills, and confidence.

### The Kumon Philosophy

**Kumon** is not just a way of learning math; it's a way of learning how to learn. The **Kumon** method helps develop study habits and a positive attitude toward achieving academic goals. The method, which involves daily practice on worksheets, focused concentration, and complete mastery of concepts, enables children to teach themselves.

### Building Self-Confidence

All students begin **Kumon** at a skill level that is easier than their current study level in school, so that they achieve a perfect score immediately. This develops self-confidence, a desire for perfection, and an eagerness to learn more.

### Speed and Accuracy

One of the most significant aspects of the **Kumon** method is the emphasis on getting the work done quickly and correctly. **Kumon** asks students to correct any mistakes so that a score of 100% is always achieved.

### Concentration

When students complete their work accurately and within the standard time, they naturally find themselves concentrating better. Many parents have discovered that with **Kumon's** help their children are able to do other school work more quickly and accurately than before.

For details on Summer enrollment and locations, call **Kumon's** Chicago regional office at 1-800-YES-MATH.

## Female Stress 1995

Today's increasingly faster paced world combined with the ever-changing roles in society are two primary contributors to higher stress levels placed on the female population.

The many socioeconomic factors have placed women in the workplace to compete with men for recognition as well as career advancement. This career pressure along with the guilt that many times follows the working woman because of the reduced time with children and/or spouse, compounds the stress level.

A non-working mother or housewife is also not immune to the growing competitiveness, heightened pace, and therefore greater stress. Children's demands tend to be greater today, pressure from the male is increased because of his higher level of stress, and being homebound tends to initiate internal battles of personal worthiness or productivity upon comparisons with ca-

reer women.

A female also contends with physical burdens of menstruation (specifically PMS) and eventual menopause. Menopause and the reduced estrogen levels, as well as PMS, can have significant psychological and physical effects which translate into stressors.

Symptoms of stress can range from muscular tension or headaches to heart disease or cancerous precursors.

To prevent or alleviate these many times debilitating symptoms of stress, we can take three effective courses of action: improving our lifestyles to include regular exercise and better nutrition, including meditation and relaxation on a regular basis, and massage therapy.

To "exercise" any of these options contact **R.S.I.** at 726-8308. **R.S.I.** is offering a **FREE Fitness Consultation, good through June 1, 1995.**

"What better way to show the deep appreciation to our mothers for all the love they have given us than by giving a little

love away in their name," says Carole Blazek, Hospice Foundation Director. "Our fund-raising effort affords an opportunity for Mom to receive a beautiful Mother's Day card while also supporting the work of the hospice in treating terminally ill patients and their families."

The Hospice of Northeastern Illinois (HNI) is a not-for-profit hospice serving McHenry, Lake, Cook, Kane and DuPage counties. ### I Remember Mama, In So Many Ways!

What do you get a Mom who has everything? This is a question that we hear at **The Canterbury Shoppe** almost every year at this time. Like most of us, we want to get Mom a beautiful gift to show our love and appreciation, but struggle with finding the perfect gift! Well, the staff at **The Canterbury Shoppe** understands this dilemma, and that is why each day we pay *very close attention* to our customers comments of items that they really love, so often buying for others, and wishing they could keep! With this information, we have compiled our "Top Ten most hinted at" items from our customers for Mother's Day!

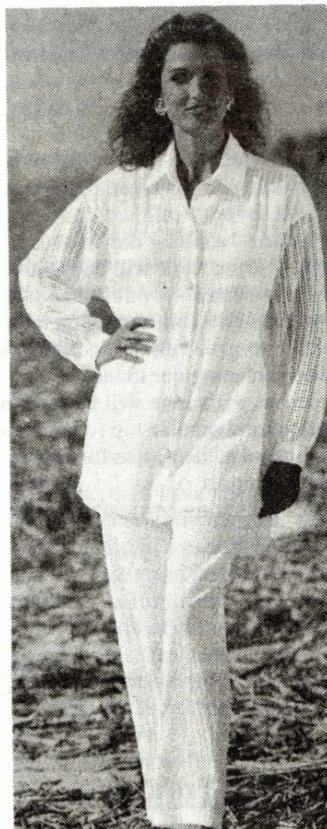

1. Porcelain Limoges Boxes from France
2. "Waterflowers" gorgeous silk arrangements in vases filled with faux water. (Most customers don't realize they are not real!)
3. Paper Windows Porcelain from California (any piece, women love the classic simplicity and originality of design)
4. Jenna Hawkins Porcelain (any piece, women love how just one piece adds a bright cheery accent to a table! (The new American Flag Design has been very popular!)
5. Fine linen & Lace Trays (embedded in glass, they never have to be washed or ironed!)
6. Miniature antique reproduction porcelain teacups
7. Bosque River Beveled glass Jewel Boxes (signed pieces)

8. Bosque River Beveled glass Frame (signed). Bring in your favorite photo!
9. Miniature Brass clocks, (Women love having a clock that doesn't take up too much dresser or desk space)
10. Camille Beckman hand cream & Bella Crema Cappuccino (one of our most popular hostess & birthday gifts bought for women by women!) Stop in and sample some!

It may sound crazy, but every day moms admire the Christopher Radko ornaments upstairs, often commenting how they would love to start a collection. Each of these blown glass European ornaments takes one week to make. Once again, these are items often bought as gifts for others during the season, but with all the holiday spending, often put on personal wish lists!

**Don't forget, Mother's Day is May 14th! Stop in and register Mom for a \$50 gift certificate opportunity! No purchase necessary.**

**The Canterbury Shoppe** is located one block south of Main Street, on Station Street between Rte. 59 and Cook St. Our hours are Tuesday through Friday 10-5:30, Saturday & Sunday, 10-4 (We are closed Monday). Stop by or call (708) 304-9627, our staff will be delighted to serve you! As always, all gifts are complementary gift wrapped with our gorgeous floral overwraps! And, we wish all Mom's and Grandmothers... A Happy Mothers Day!

**M**om always enjoys a personal gift, and beautiful clothing is on top of the list, especially when it's from **Betty's of Barrington**. Take for example these summer whites in 100% cotton gauze. Mom would enjoy an ensemble like this to keep cool and collected during the warmest of summer days.

You'll find other gift items equally lovely including sportswear and unique jewelry.

A wonderful selection for Mothers of the Wedding and Guests of the Wedding are at **Betty's**, too.

From dressy to casual, the season's latest clothes await your selection at **Betty's**. Located on North Cook Street in downtown Barrington.

Psst... don't miss **Betty's** storewide moving sale going on right now. Save 25%-35%!

ceeds will benefit The Infant Welfare Society of Chicago as supported by the Northwest Suburban Chapters.

The main purpose of the Society is to raise funds to support the Philip D. Armour Center, a medical and dental facility which provides health care for inner city mothers and children.

Ladies and gentlemen of all ages are invited to attend. In case of inclement weather, the event will be held indoors. A minimum of \$6.00 per adult donation is requested. There are a limited number of tickets available.

Music will accompany the show featuring local models and their look-alike dolls. World famous European doll maker Goetz has created a limited group of exclusive

clothes for this event. Designed and crafted in Germany, each model's attire specifically matches one of their new 1995 play dolls.

Dan and Ulla Koenig, owners of The Toy Connection stores, were impressed with this presentation at the International Toy Fair at Nuernberg, Germany, and were able to arrange this exclusive event.

Complimentary gourmet pastries and tea from Ambrosia will be served.

Tickets are available at Ambrosia, 304-8278, and all Toy Connection stores: Barrington, 381-8474; Bannockburn Green, 940-8474; Carillon Square, Glenview, 657-8474; Brink Street Market, Crystal Lake, 815/477-4422. ## Betty Rodgers Of Barrington Honored At Benefit

Betty Rodgers, founder of Stuart-Rodgers Photography Ltd., was honored for her 50 years in business at a reception that benefited the National Association of Women Business Owners (NAWBO) last month at Galleria Marchetti, 825 W. Erie, Chicago.

Hosted by NAWBO and I.M. International, Rodgers was presented with an award designed by Tiffany & Co. in appreciation for paving the way for other female entrepreneurs.

"Female entrepreneurs such as Betty are wonderful role models for other women in business, and NAWBO is pleased to recognize her achievements," said Bobbi Burgstone, NAWBO's national director of marketing.

In 1945, Rodgers started her business in a small studio in North Evanston. Today, after 200,000 weddings, almost as many family portraits, hundreds of corporate and candid shots, Stuart-Rodgers Photography is considered one of the leading portrait photography studios in the Chicago area.

Rodgers attended Northwestern University, where she majored in journalism. She gained valuable photography experience by taking pictures at Greek parties, weddings, and football games.

Prior to opening up her business, weddings were covered exclusively as formal portrait sessions, but Rodgers' unique blend of formal family photographs with the creation of a candid picture story of the event remains today as highly popular and at the

forefront of the field.

Now at age 71, Rodgers is still as passionate about photography as she was when she first started, and she maintains that she'll continue to work as long as she's alive.

NAWBO provides a strong and continuing voice and vision for women business owners within the economic, social, and political communities. NAWBO is head-

## Mom Deserves The Best

What is a Mom? Let us count all of the things she does for us all year long—it is hard to ever repay her with just a gift.

Make this the best Mother's Day ever for your special Mom.

The make-up artists and estheticians at **Syd Simons** are experts in everything they do... including pampering and making each person feel very special and relaxed.

Mom could begin by having a relaxing, deep cleansing facial, having her hands treated with our special warm mitts and having her feet slip into comfy booties. All of this happens in a very private and quiet

room.

Next, Mom could have a soothing body massage, manicure and pedicure. And finally, Mom could be beautifully made up to enhance her skin and bone structure.

### Mikimoto Comes To M.J. Miller & Co.

Simplicity, grace, and elegance... the language of pearls has been likened to a warm embrace. Radiating a subtle luster, the beauty of a pearl is beyond compare. A variety of pearl oysters yields a wealth of pearls, each with its own distinctive color, luster, and shape, among them akoya pearls, black or white lip pearls and conch pearls. In search of materials deserving of the Mikimoto name, K. Mikimoto & Co., Ltd. oversees every stage of the procurement and production process, from rigorous selection

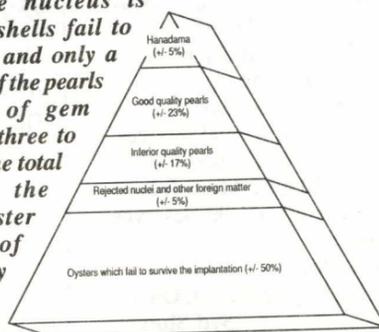

of only the best quality gems and pearls to design and crafting of fine jewelry. Among the jewels treasured by the royal families of the world, pearls are treated as family heirlooms: a girl's first piece of jewelry is often a pearl. Throughout the ages, the subtle radiance of the pearl has beguiled with a constant appeal. K. Mikimoto & Co., Ltd., is dedicated to bringing the finest quality pearls to discerning customers around the world.

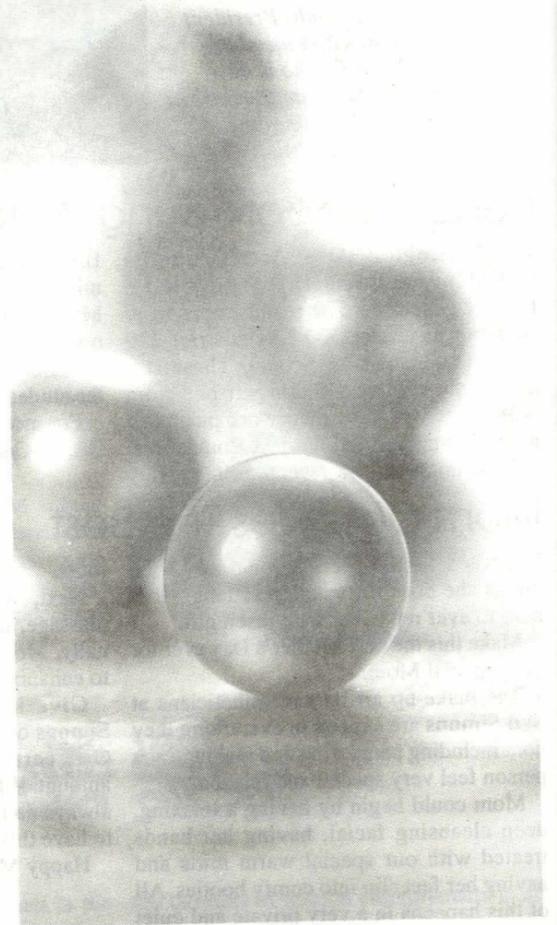

The Mikimoto name signals superior quality at every stage, from selection of the finest materials to design and workmanship of the finished product. The distinctive shell mark, engraved on every piece of genuine Mikimoto jewelry, is your assurance of quality service if ever there should be a need.

The process of producing a pearl is a lengthy one: young mollusks must first be cultivated into healthy pearl oysters into which a nucleus is painstakingly inserted. Then the oysters are patiently tended as the pearls are formed. But even when cultured with utmost care, not all pearls are qualified to bear the Mikimoto name. Among a hundred pearls, an average of five percent will pass inspection as *hanadama*, the finest grade. K. Mikimoto & Co., Ltd. sets high standards for shape, color, luster, the thickness and smoothness of the nacre, and absence of surface blemishes. Only those pearls which pass this rigorous inspection will be crafted into Mikimoto jewelry of the finest quality.

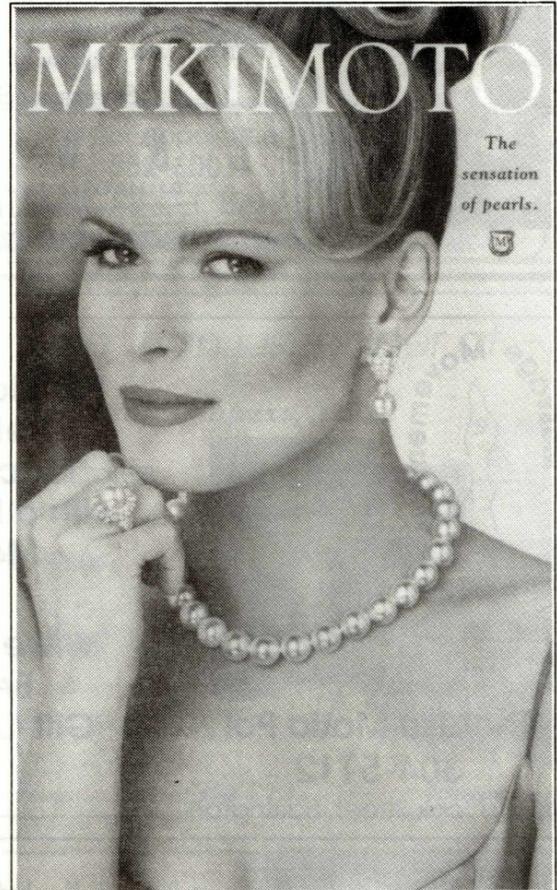

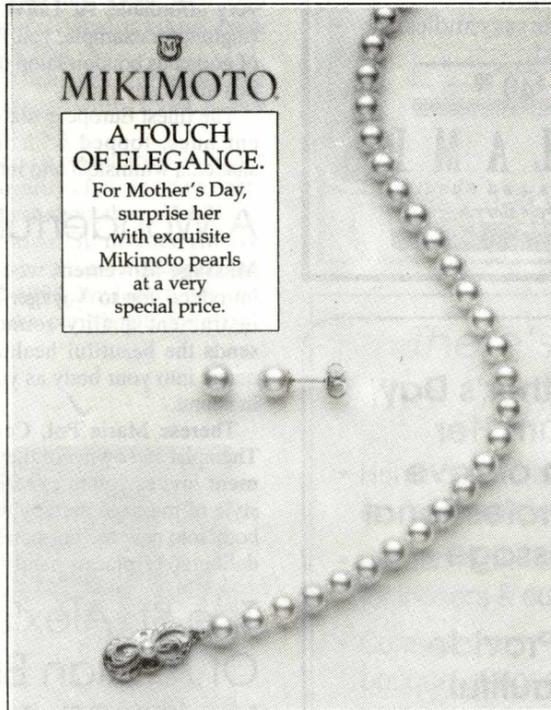

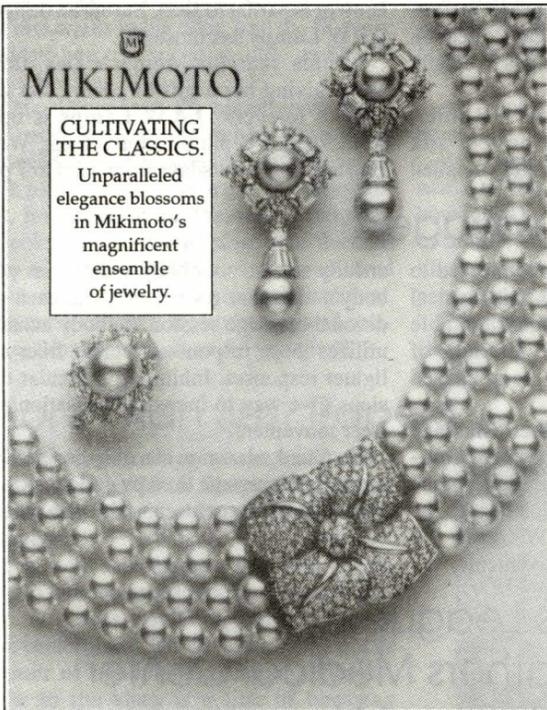

*Even after the nucleus is inserted, some shells fail to produce pearls, and only a limited number of the pearls produced are of gem quality. A mere three to five percent of the total harvest show the exceptional luster and shape of superior quality "hanadama" pearls.*

## Best Selling Authors Highlight "Lunching For Literacy" Fundraiser

Best-selling authors Mary Higgins Clark, Judith Michael, Clyde Edgerton and Barbara Leaming will be featured at the Junior League of Chicago's annual "Lunching for Literacy" fundraiser on Wednesday, May 24, 1995 at the Hyatt Regency O'Hare, 9300 Bryn Mawr Avenue, Rosemont, Illinois. This event is co-sponsored by Border's Books and Music.

Clark, America's reigning Queen of Suspense and author of thirteen best-selling mysteries, will introduce her latest novel, *Let Me Call You Sweetheart*, a fascinating and terrifying look into the minds of people obsessed with beauty, and those who will kill in its name.

Chicago's own Judith Michael, the best-selling husband and wife author team of Judith Barnard and Michael Fain, will discuss their latest novel, *A Tangled Web*, which completes the story of identical twins who switched lives in their previous book, *Deceptions*. In just ten years, Barnard and Fain have published seven best sellers under the name Judith Michael.

Classic American novelist Clyde Edgerton will introduce his most recent work, *REDEYE: A Western*. Known for his descriptive stories of life in the American South, Edgerton pioneers new frontiers in the 19th century Southwest. The author of five previous novels, Edgerton is a recent recipient of the Guggenheim fellowship and a Lyndhurst Prize.

Critically acclaimed biographer Barbara

Leaming will introduce *Katherine Hepburn*, her latest book describing the life and times of legendary film stars. Her previous biographies on Orson Welles, Bette Davis and Rita Hayworth have received rave reviews for her use of meticulous research and thoughtful insight to discover the human side of actors that is often buried beneath Hollywood's well-crafted public images.

"Lunching for Literacy" will feature book signings by the authors, author presentations and a luncheon. Book dramatist Greta Wiley will serve as master of ceremonies at the event. Book signings begin at 10:30 a.m. and the luncheon begins at 12:00 p.m. Tickets to the event are \$45.

Proceeds from the luncheon will directly support the Junior League of Chicago's community service and philanthropic projects, with an emphasis on programs which promote literacy in both adults and children.

The Junior League of Chicago, Inc. is a metropolitan organization of women committed to promoting volunteerism and improving the community through effective action and leadership of trained volunteers. The Junior League of Chicago is affiliated with the Association of Junior Leagues International, Inc. and reaches out to women of all races, religions and national origins who demonstrate an interest in and a commitment to volunteerism.

## An Evening Of "Treasures Under The Sea"

Standing in front of the illuminated ice sculpture are the "Treasures Under the Sea" executive planning committee: Left to right, Karen Smith, Maureen Sieger, Linda Baker, Kelly McNulty, Louise Pozzi and Kim Pesayento, all of Barrington.

Over 375 people attended the "Treasures Under The Sea," dinner and dance benefit hosted by the North Central Junior Auxiliary of the Children's Home & Aid Society of Illinois at the Schaumburg Marriott on March 11, 1995.

Early in the evening, guests browsed the silent auction tables and enjoyed an open bar and appetizers. A large nautical ice sculpture decorated the hors d'oeuvre's table. The gourmet dinner was complete with flaming bananas foster.

Winners of two American Airline tickets were Mr. and Mrs. Don Duffy of Woodridge. Therese Balducci won a dinner cruise for four on the Odyssey. The gourmet wine basket was won by Maria and Brian Liedlich of Barrington. Michael and

Barbara Warheit of Barrington were the winners of the \$500.00 cash prize in the "Sunken Treasure Chest." Dancing followed the live auction with music provided by the Murray Brothers Band.

The Auxiliary will donate in excess of \$30,000 from the evening to Children's Home and Aid Society (CHASI). Founded in 1883, CHASI is the Midwest's largest private, not-for-profit child and family service agency. Residents in 40 Illinois counties benefit from the Society's statewide adoption, foster care, day care, residential treatment, and counseling programs. More than 10,000 children and families received services through the Society last year. CHASI supports three day care and counseling centers in Palatine, Hanover Park and

This gives you a choice when it comes down to design and price.

**Delta Renovations, Inc.** has built its business by analyzing the needs of its clients and finding the best way to meet those needs.

"The whole process is by nature an emotional one because it involves entrusting others with not only money but the comfort and security of home and family."

Their approach to renovation as a specialized field of construction, provides attention to detail only experience and commitment can bring.

## Glare-Not Window Tinters Provides Savings Year Round

Improve appearance with the elegant look of window film. Solar Gard residential films are now backed by a lifetime warranty. Solar Gard films come in a variety of densities from clear to blackout or neutral to reflective with a natural and beautiful look. Neutral films keep the same look of the trees, grass, and blue sky.

Window film rejects up to 98% of harmful ultra violet rays which is a major contributor to fading of furnishings, carpets, drapes, displays, etc.

Solar Gard also improves efficiency by rejecting up to 79% of the sun's solar energy in the summer and insulating your home to retain heat in the winter, meaning

less money going to our favorite people (electric co.) and remaining in your pocket.

Window film also increases safety with pressure sensitive adhesive. The adhesive bonds the film to the glass helping to hold fragments in place if glass breakage were to occur by a golf ball, baseball, burglar, etc.

**Glare-Not Inc.** has provided savings and security for 8 years in Barrington, Long Grove and the north shore area. Remember all Solar Gard films are backed by a lifetime residential warranty. References are available upon request.

We look forward to saving you money!!!

### Tips from the Top of The Rock™

Margaret R. Semrad  
Broker/Manager  
Barrington Office

**The Prudential**   
Preferred Properties

While sitting at my desk recently, a friend called to talk. Mark had been a customer of mine for years buying resale properties. Now he was saying it was time for a change. He didn't want to do any more updating or maintenance on his current home and asked what I thought about his building a home. Since Mark knew nothing about new home construction, it was time for him to learn about being a new construction home buyer.

"Listen Mark, calling a Realtor was the right beginning on the road to becoming a new construction buyer." Why? Because the Realtor is trained to listen to buyers and ask questions which crystallize their ideas to satisfy the needs, wants and expectations of what their future home should offer.

Major mistake: A few new construction buyers go out of their way to avoid a Realtor under the mistaken assumption that working with a Realtor costs them additional money. On the contrary, most builders have already included the commission fee into the new home package price whether the buyer buys directly from the on-site builder's agent or with the help of a Realtor who only represents that buyer's interest. A Realtor's expertise is extremely

helpful in the purchase of new construction. Realtors know what will insure a wise investment so that the buyer will realize the best possible price when he, in turn, sells in the future.

Where to start: The educational process. You must wind your way through three distinct phases. First, deciding whether to be a custom home buyer or the buyer of a new home in a subdivision. Some builders specialize in grand and costly homes while others specialize in homes of different periods, smaller sizes and prices. Once our Realtor understands what the buyer is looking for, the Realtor will find the right builder. This is much more time efficient than new home buyers driving around and around.

Second: Finding the right builder. Our Realtor is responsive to the buyer's budget and will guide the buyer to a builder with a solid reputation who will best serve the nervous buyer. The Realtor works with the buyer at the onset to submit and negotiate a sales contract, resolving issues during the construction phase and after the new home is built. The Realtor acts as an intermediary with the builder. Many new home buyers feel unsure in dealing with the builder

## A River And 10 Glorious Acres

It's no secret that getting away for weekends does wonders for one's sanity. Doctors prescribe it—and even take their own advice!

And now—a mere hour and a quarter drive from Barrington (all tollway)—on the Pecatonica River in the picture-book farm country near Freeport, Illinois, there's the perfect escape from weekday wars.

It's 10+ acres of enchanting high meadow and woods with a quarter mile of river frontage and a limestone mill that's been transformed into an exquisite 3-level home.

It's the only privately held limestone mill in Illinois. Built in 1857 by Spencer Tracy's great grandfather (a member of the Brown family that founded Brown University), its beautifully textured walls have turned a warm rosy beige over the years.

Inside, it has been completely redone. There's a custom cherry kitchen with a delightful sitting area in a windowed bay cantilevered over the river's edge, a 3-sided fireplace, a living/dining room with 17 foot ceilings and skylights, a study, a perfectly

appointed master suite, 2 additional bedrooms, 2½ bathrooms altogether, and gleaming hardwood floors throughout.

The architecturally charming 2+ car garage has a large 2nd floor space with a separate entrance that could be a studio, a caretaker's suite, or another bedroom and bath.

A spacious and handsome patio overlooks the sweeping expanse of river, pampered flower beds, rolling lawn and magnificent trees.

There is peace. There is privacy. But there are neighbors a comfortable distance away.

The property is priced at \$495,000. For more information and a brochure, call **Arlene Cullen** of **The Prudential Preferred Properties'** Barrington office. She is a national award winning Realtor and Certified Homefinding Specialist, and provides customized real estate services to clients and customers throughout Barrington and the neighboring communities. Her private lines are (708) 465-2261 and (708) 991-3345.

**Decorating Connections** is located in

the Marketplace shopping plaza on Route 59 and Kelsey Road.

## Preventative Maintenance

It's up to you. But the smart money goes with restoration. Any day. Because with proper treatment, you can double or even triple the service life of your cedar roof. So think about it. Now. Not later.

Properly maintained, your cedar roof can last 50 years.

- Untreated, it may only last 10-12 years.

• Treat it, however, and you spend only about \$1,700, or about 12% of the replacement cost.

• Replace your cedar roof, and you could be looking at up to \$14,000 for the typical 3,000 square foot roof.

Call **RG's Cedar Roof Maintenance** at **708-658-5562**.

## "World's Greatest" Squirrel Baffle For The Serious Bird Enthusiast!

squir.rel.baf.fle (noun) 1: fits even the largest poles—up to 1½" in diameter 2: all welded steel construction that can't be chewed—pried apart—and won't crack 3: high quality—baked enamel finish 4: resists the elements 5: very easy installation.

The "Squirrel Baffle" fits below the feeder. It prevents squirrels from climbing into the feeding station. Squirrels greedily monopolize feeding stations and drive away desirable song birds. The "Squirrel Baffle" a proven solution to controlling the bushy-tailed rodent—according to Frank Wollney, local wild bird feeding enthusiast. Chanticleer Farms offers the "Squirrel Baffle" for \$16.50 plus \$3.50 shipping and handling from Chanticleer, 140 Hawthorne Road on Route 5, Barrington Hills, Illinois 60010.

Business of feeding wild birds became one of the nation's fastest growing industries sometime in the late 1980's—and is still exploding! A government survey in 1985 indicated 82.5 million Americans were bird feeding enthusiasts. Bird feedings' principle appeal is that it is inexpensive and not a demanding hobby.

Frank Wollney, with installation of "Squirrel Baffle" at multiple feeding station.

Americans spend several billion dollars each year to provide a complete feed/survival package for wild birds including woodpeckers, chickadees, finches, juncos and cardinals so that bird feeding enthusiasts may enjoy the pleasure of feeding and the song of their feathered friends. Bird feeding, as a hobby, is greatest in the populous and suburbanized midwest where there is an abundance of shrubs and trees to provide cover and protection to attract songbirds.

## Barrington Junior Women's Club Spring Fashion Show

More than 85 Barrington-area merchants enthusiastically "gave back" to their community by supporting the Barrington Junior Women's Club's Spring Fashion Show on Saturday, April 22.

All profits from the fashion show silent auction will be channeled to service organizations, such as the United Way of Barrington, and educational programs, such as Safety Town, that positively impact the lives of children, adults and senior citizens in the Barrington community.

In addition to Woodfield retailers, area clothiers were represented on the runway. Professional models wore elegant special occasion and bridal fashions from A'L'Amour, and distinctive causal attire from Sundance.

*Bride, Susan Masterson of ZAZZ Productions, Dr. David Menner of Menner Chiropractic, Lake Zurich, and Barrington's own flower girl, Kate Kamp's, modeled bridal fashions from A'L'Amour and Gipper Formal Wear, featured in the Barrington Junior Women's Club Spring Fashion Show.*

**Keep Your Furniture Looking New**

**Sta - Kleen** offers the highest available protection against stains, spills and fading at affordable prices. **Sta - Kleen** is owner operated, not a franchise. You are dealing with the owner, not an employee. This protection is applied to furniture, oriental carpeting and wall to wall carpeting. This is backed by a 50 month warranty. This means if the customer has a stain or spill that does not come off **Sta - Kleen** will come out and remove it at no charge. **Sta - Kleen** can offer this for several reasons. **Sta - Kleen** uses only the highest quality chemical available which is a teflon resin not a silicone oil as do most. This is applied in the home with no fumes and is non-toxic. **Sta - Kleen** is

completely safe on all fibers. **Sta - Kleen** also contains strong ultra violet protectors to guard against fading. Because **Sta - Kleen** uses a teflon resin the items treated will hold its stain protection through many cleanings, the teflon resin wicks into the center of the fiber so **Sta - Kleen** will not seal in any soil, this also increases the life of the fabric. **Sta - Kleen** will not change the feel or texture of the fabric. **Sta - Kleen** has only been available through fine stores until now. So keep your furniture looking new for years to come and for a limited time the first item treated will be at **20% off.** Call **Sta - Kleen** at **708-991-4791** for prices.

What Is A Certified Kitchen Designer?

While there are many designers who "do" kitchens, only a limited number hold credentials as Certified Kitchen Designers (CKD). Jim Walker, a partner at Barrington Homeworks Kitchen Center, and himself a Certified Kitchen Designer, says, "CKDs work very hard to help you determine what you really want. The plans they show you, the options they describe, the products they recommend, reflect your individual needs. They remember always—this is *your* kitchen."

The kitchen is the most technically complex room in the house, and the most expensive to install. Designing a *good* kitchen, making it work as well as it looks, requires very specialized skills.

From the beginning, the back-and-forth exchange of information with a CKD will reassure you. In your initial meetings, the CKD interviews you at great length to discover how you cook and live in a kitchen space. This is the time to share all your ideas—notes and pictures, too.

In a short time, you will review preliminary designs. The CKD will go over them with you, discussing the advantages of each, describing the choices and the relative investment figures. Together, you and your CKD will perfect the plan and make product decisions.

The CKD will have final plans prepared for your review—including interpretive drawings so you will see what your new kitchen will look like.

Some CKDs offer a design service only. But Walker is affiliated with Barrington Homeworks Kitchen Center and can of-

fer a complete showroom. Both types of specialists submit a clear and complete proposal encompassing all of the work planned. The specifications describe in detail all construction work, cabinetry, countertops, fixtures, wiring, plumbing, lighting. There should be no surprises when you work with a CKD.

CKDs make sure you understand all of your choices during the planning process. They know kitchens from the inside out: from the wiring, venting and plumbing hidden inside the walls, to all the technical and aesthetic alternatives you weigh as you look at cabinetry, appliances and surfacing materials.

CKDs keep up-to-date on new equipment and new construction materials, as well as building codes, safety rules and environmental regulations. They will make sure that your new kitchen meets all standards for safe use by you and your helpers.

CKDs understand budgets and can explain the pros and cons of products as they relate to the required investment. The CKD's sound advice will help you make the right decisions for your new kitchen.

It takes years of training and expertise to earn those coveted CKD initials. Requirements go far beyond the demonstration of space planning and design talent. The "look" if it is to work, requires thorough knowledge of building, construction, mechanical and electrical systems. It requires the ability to write specifications and draw plans that plumbers, electricians and cabinet installers can interpret. It means keep-

## R. K. Tech Wows Its Clients—Literally Traveling The World In Search Of Great Design

"Wow!" the letter began.

"Every time we walk into the kitchen, it takes our breath away!"

That is how a Sleepy Hollow couple reacted to the completion of one of **R. K. Tech's** kitchen renovations.

"And that's the way we like it. Our clients should be thrilled," says Lisa McCauley, president and chief designer at **R. K. Tech**, a firm that has reached out from downtown Barrington to gain national prominence for its innovative cabinet designs.

"Many times our job is to translate a dream into a reality that works.

"Take the couple who wrote that letter," Lisa continues.

"These are sophisticated people who have thought seriously about how they want to improve their surroundings. They came to us because they wanted a level of expertise and attention to detail that they couldn't get elsewhere. Maintaining that level of expertise takes a lot of work"

### Design Leaders

Trained in architecture and design, Lisa brings unsurpassed credentials to every kitchen project she does, and the quest for new design ideas never ends.

"We sell some of the best cabinets you can buy, but even with the quality of our goods, everything starts with a great design. As professionals we are on a life-long search for new ideas.

"Last year in London we visited the early nineteenth century home of the English architect John Soane. You need to walk around in these places to fully appreciate what the great artists can teach us. Soane's use of natural light is incredibly subtle, and yet it can be applied in many different contexts. His domed breakfast room is famous, and often photographed, but his art gallery was a real find. Massive doors fifteen feet high nested into the walls of a small room with the feel of a tower, light filtering down from skylights at the top. There you find Soane's renderings of his own great projects, like the demolished Bank of England, as well as the Hogarths and a tiny sketch by Peter Paul Rubens.

"We are just back from the National Kitchen and Bath Show in New Orleans, which is a great place for checking out what's hot in kitchen design.

"And we like to think we're leading a bit.

We work in a variety of styles, which means we're not bound by what the manufacturers are showing. We were out there years ago with dark, rich cherry cabinets when everybody else was into white laminate. And we proved that if you design your lighting properly, dark cabinets don't need to make a dark kitchen.

"These days we're finding a lot of interest in Shaker and Mission—not slavish reproduction, but a modern take on the simple, clean lines of these classic furniture styles. With lots of painted finishes. Sometimes stained wood is merely an accent.

"The 'country' look has finally found its way into the mainstream. You can find it at the lumber yards; but to do it right takes real artistry and practical experience.

### "The Best Cabinets in the World"

"We work with the Grabill Cabinet company, which is a very well known name in the custom cabinet world. I tell people that we sell the best cabinets they can buy, and here's how I can make that statement. American casework is the best in the world. I've walked through the showrooms of the European manufacturers and looked at the cabinets; and there is nothing in their construction that in any way surpasses what we do in this country. In most cases American cabinet construction is obviously better.

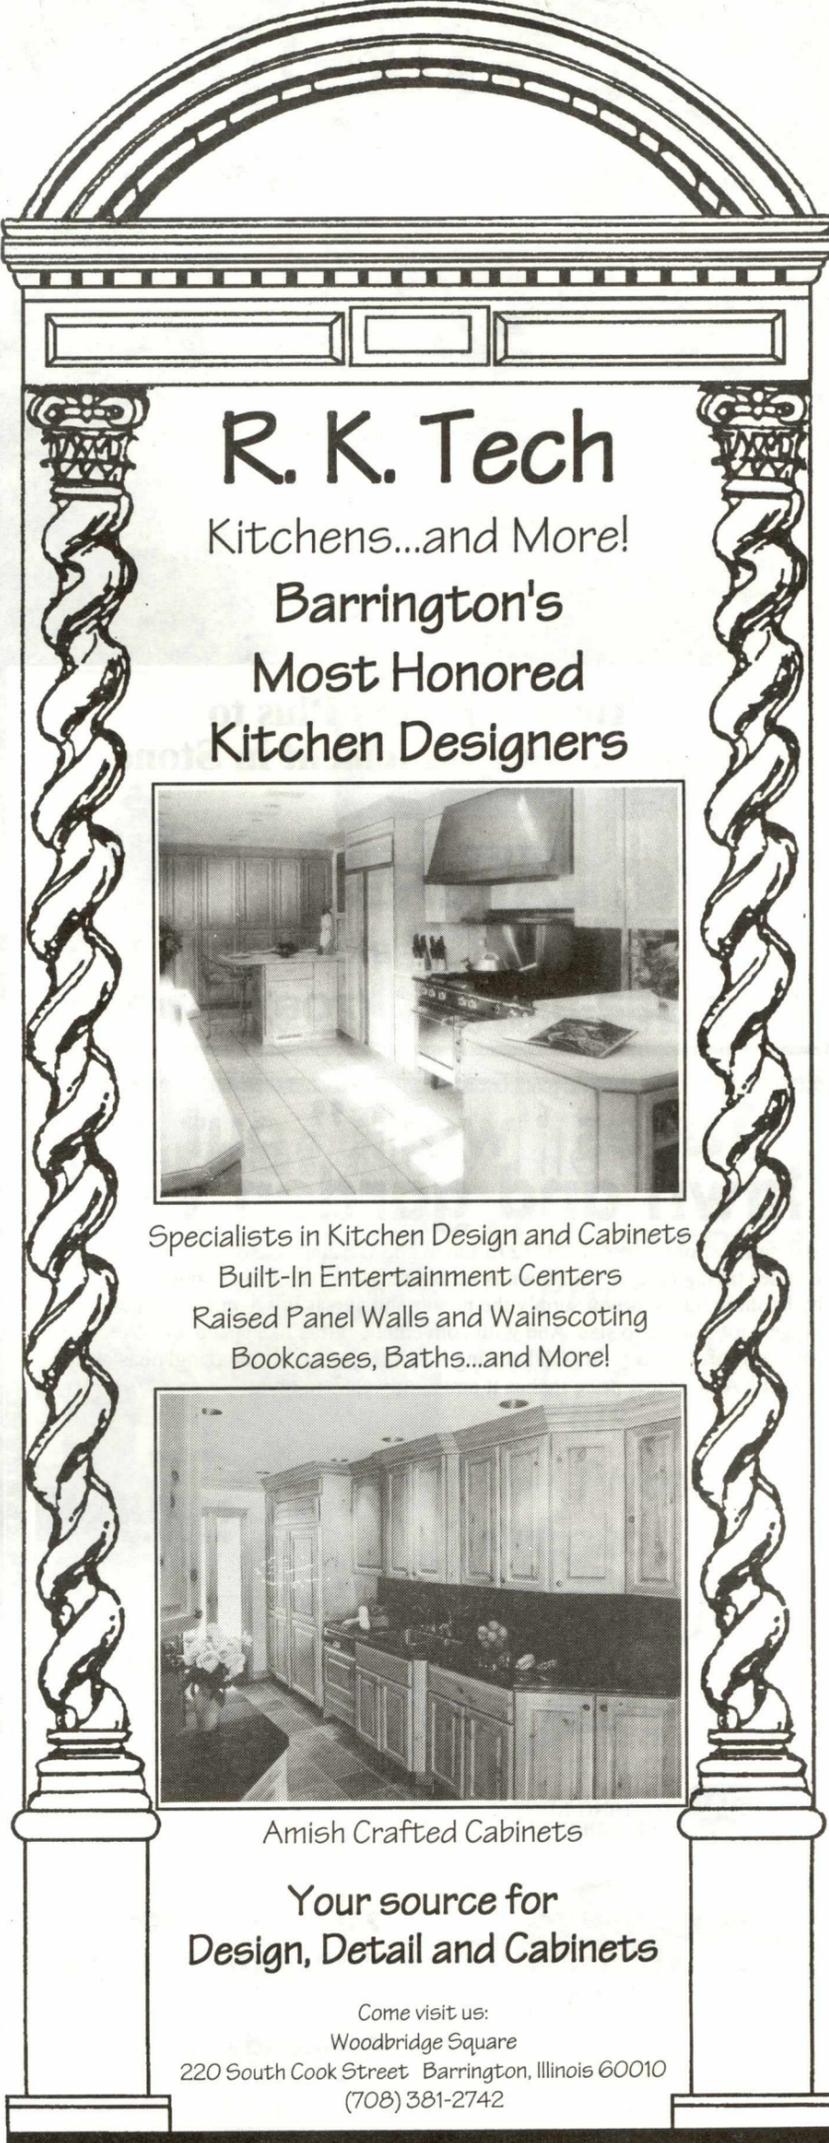

"In this country we have better access to quality hardwoods, greater attention to detail, and the latest technology. Grabill has fifty years of experience in cabinet making, a very fine name in the business, and a finish that nobody can top. Price is comparable to, or lower than, the other best names in American cabinet making. That's why our cabinets are the best in the world—and the best value.

"Put our cabinet quality together with our design expertise, and you have the formula for a truly great kitchen."

**R. K. Tech's** award winning work has been featured in national publications and in beautiful homes throughout the Chicago area.

**R. K. Tech** is located at 220 S. Cook Street, Suite 210, in Barrington, one block east of Hough Street (Route 59) and two blocks south of Main Street (Lake Cook Road). Call **381-2742**.

"Our showroom is small," says Lisa; "but our results are big."

## New In The Area—Val-Tile Superstore

There's a new tile store located in Palatine. A store that has been established for a number of reasons. Obviously, the main one was to sell beautiful ceramic and natural stone tile from around the world. Another reason for the formation of the **Val-Tile Superstore**, was, in the words of owner Jim March, "To let people know just what kind of benefits they can receive by utilizing good tile materials in their homes."

Some background. For the last twenty or so years, March has worked as a sales executive for some of the world's most formidable tile producers. "In addition to traveling around the country, calling on tile distributors, retailers, architects, designers, builders, you name it, he also made an annual pilgrimage to Italy, to work with Italian manufacturers. It was a great business with great people, but he was spending just too much time away from home."

March and his wife, Sandy, who live in North Barrington and have seven children, wanted to see more of each other. So they decided to go into business together. "There are lots of tile stores in every city," states Sandy. "We plan to offer one that is different. We want to not only sell world-class tile and tile-related products; we want to educate and update our customers on the

best ways to use tile. On ways that will not only visually enhance their homes, but also, ways that will add value to them."

Jim pointed out that the average European uses thirteen times as much ceramic and/or stone tile in his or her home. "It's natural, much easier to maintain than virtually any other surfacing material...and it lasts," he stated.

The **Val-Tile Superstore** is located at 20066B North Rand Road in Palatine, right next to North Shore Refrigeration. Unlike other stores where customers select tile from "sample board" displays and then have to wait four or five weeks for their materials to be delivered, **Val-Tile** has an enormous inventory on hand every day. "The fact that we buy directly from manufacturers allows us to sell our products at warehouse prices," declared Sandy.

"Some people look at tile as a commodity item," mentioned Jim. "We look at it as an investment in your home or place of business."

Jim and Sandy are also looking forward to meeting you at their new establishment. The **Val-Tile Superstore** hours are Monday-Friday, 10:00 to 6:00. Thursday nights it is open until 8:00 pm. Saturday, 10:00-5:00 and Sunday, 11:00-4:00.

## Creative Arts For Abused Children

Creative Arts for Abused Children is a volunteer organization which provides a service to shelters, residential care facilities, and children's homes to offer arts activities to abused and neglected children on a continuing basis and during specially planned arts events.

The Arts: visual art, music, dance, drama, creative writing, and storytelling provide children opportunities to: develop creative thinking, unlock the imagination, take risks, use non-verbal self expression and communication, problem solve, build self esteem and provide enjoyment.

Under the guidance of arts specialists, trained volunteers will share arts experiences with small groups of children on a regularly scheduled basis. It is our desire

that our volunteers will foster the uniqueness of the individuals: talents, abilities, potential and value and that the volunteers will provide training in the arts as well as encouragement and a positive role model for the children.

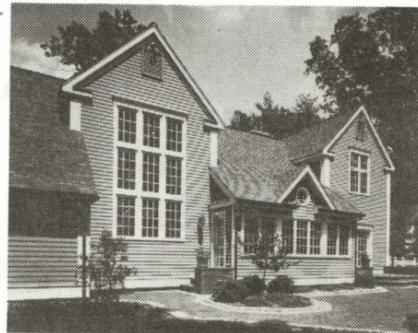

### Volunteers

Those interested in becoming a volunteer will need to attend a monthly meeting prior to their service. Training information will be presented and materials to be read will be given. The monthly meetings will be the first Monday of each month and will be held at: The Arlington Heights Memorial Library, 500 North Dunton Street, Arlington Heights, IL 60004, 7:00 p.m.-9:00 p.m. (please call one of the leaders prior to the meeting to reserve your space)

## Can't Find The Room? Let Us Help!

"As architects, it's our job to solve your space problems," says John C. Cazzetta, President of **Kemper Cazzetta Architects** in Barrington. "A large majority of our work is in remodeling, and because our clients need everything from small additions to complete estate makeovers, we tend to 'see it all.' Our philosophy is to listen to our clients, study their existing conditions, calculate their budget and endeavor to aesthetically solve their space needs."

Many homeowners struggle with the thought of "taking apart their house," especially while they still live there. "This dilemma is the biggest hurdle in some projects," adds Cazzetta. "The design solution has to take this issue into account or the project could be a disaster. We have actually designed some projects to allow the owner to move into the new addition, before we renovated the existing space. The quality of life during the process is as important as the design excellence realized upon its completion." The end result is al-

ways the same—the homeowner is amazed at how their 'old' home has come back to life," concludes Cazzetta.

If your home needs updating, additional space or reconfiguration, call John C. Cazzetta, at **Kemper Cazzetta Architects**, for a no-obligation consultation today. "We feel you will be pleasantly surprised at the potential of your existing home." Phone **382-8322** to schedule an appointment with **Kemper Cazzetta, Architects**.

## Create Additional Parking/Garage Spaces

Although most installations of the **CAR-LIFT** have been single family suburban homes, they are also adaptable for multi family residential buildings, both condominium and rental units.

To create additional parking, or garage spaces, in these buildings can be expensive and time consuming.

**Circle Affiliated Systems Inc.** received an order for **CAR-LIFTS** to be installed at 411 W. Ontario St., Chicago. This is an office building converted for residential occupancy. The apartment spaces are sold as custom condominiums with optional parking spaces on the lower level. Due to the limited parking area, it was critical to expand parking capacity without any structural changes to the building. The problem

was solved by using the **CAR-LIFT** system. The **CAR-LIFT** is the identical unit that is sold by CAS for residential use in suburban areas.

Volunteers need to fill out paperwork for the facility in which they, will offer their services. These usually include medical information, permission for a background check, a release form etc. In addition we ask that each volunteer fill out a volunteer

application for our files as well.

For further information please call: Emily Erickson, 708-382-0349; Cammy Avella, 708-394-8852; Jeanine Soldner, 708-854-6651; Diane Ward, 815-455-7881.

## From A Woman's Point Of View

by Gail Wickstrom, Wickstrom Ford

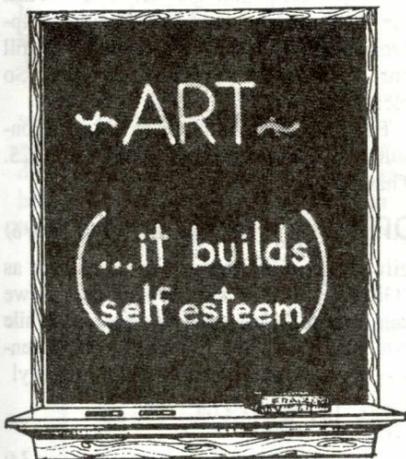

I can't believe we are approaching our 11th anniversary this summer at **Wickstrom Ford**. Tim and I feel extremely blessed that we have so many long term employees.

One of our long term employees is Bob Goettel, one of our service managers. Bob started working for us in October of 1984. At that time he was only 20 years old, but everyone always guessed him at about 30. He grew up in the automobile business that his family owned in Crystal Lake. He started out in the sales department, did a stint in the finance and insurance department, but eventually ended up in our service department as a service writer. He was promoted to a service manager a few years ago. Bob is a very loyal, dedicated employee, but we still like to tease him about how old he looks. Some people guess his age at 25 and then others will guess him at 40 (which does not make Bob a happy camper).

It's people like Bob Goettel that make **Wickstrom Ford** the special place that we feel it is.

## Now Is The Time To Plan For That Deck

"It's not just a deck," says Larry Kirchner, chief designer and president of **Deck-A-Roo Decks**. "A deck is a pleasant addition to any home and a necessity."

Decks are great investments. If properly built, a deck will give the owner years and years of wonderful use as well as add more to the value of the home than the initial cost. However, an improperly built deck will soon become an eyesore as well as a financial burden on the owner.

At **Deck-A-Roo Decks** every aspect of the deck design is considered: what style will best fit the house; what are the size and design needs of the client; what materials best suit the location and design of the deck; how the design affects price both now and over the lifetime of the deck; and how maintenance will be affected by the design.

In addition to a proper design, the actual

construction of the deck and the follow through of the builder are very important. Questions you should ask: Who actually will perform the work? What quality of material will be used? What construction practices will be used? And, who will service the deck if needed? Larry's favorite phrase, "You get what you pay for, if you're lucky!"

**Deck-A-Roo Decks** is a full service builder, working with the home owner from the beginning of the design to the final completion of the deck. No subcontractors are used. All employees have been trained to a high level of quality and given the amount of time needed to complete the job properly. Only high quality materials are used by **Deck-A-Roo** as well as new environmentally friendly products. Every deck is serviced promptly as well as courteously. We also offer deck cleaning and deck sealing to all our customers as well as those who have decks already.

A special note from Larry: "Now is the time to plan having your deck built if you would like it for spring. It's important to give yourself as much lead time as possible if you are planning a party or event that the deck will be used for. Spring is approaching and we have a tendency to fill our April and May schedules early. So please call now."

For more information or an in-home consultation, please call us at (708) 381-3325. Thank you.

and will rely on the Realtor to settle all issues.

As mentioned above, builders are all different in talent and specialty. Some are builders of developments and subdivisions. Some only build their own specialty...such as a high-tech contemporary home. Others are custom builders who design to your vision. Some builders work with architects to help produce custom homes with distinctive designs while other builders perform the design role themselves.

Third: Decision Time. New construction buyers have a lot of decisions to make. You cannot start the foundation unless you have agreed on a floor plan. Our Realtors assist buyers in making informed choices in all

selections and help new home buyers stay within their budgets by doing things in a timely manner.

Building a new home is a big challenge, but with teamwork, communication and trust, it can be an absolutely positive experience. The bottom line is that picking the right Realtor and working with that Realtor does make a dramatic difference.

Like Mark, call one of our professional Realtors and make sure your decision to build your dream home turns out to be the dream you envisioned.

the carrier flies) or a travel voucher for a set amount applicable to any ticket. The voucher is better: it's usually more flexible (no restrictions or black out dates), and you can earn frequent flyer mileage on a ticket bought with it.

### Half-Price Tix

Discount tickets for the theater and other cultural events are available in most major cities at short notice. You just have to know where to look. The granddaddy of all half-price ticket outlets is in New York where the TKTS Booth (4th & Broadway) has been going strong for years (there's also a branch on the mezzanine level of Two World Trade Center. In Paris, Kiosque Theater boasts two locations: at the Place de la Madeleine and the Gare Montparnasse.

### Denver's New Airport a Hit

The new Denver International Airport is finally open, with an old-fashioned baggage handling system (the automated system

originally planned still doesn't work properly which was the main reason the new facility was late coming on line. Early reviews are favorable: among the major benefits is that even during bad weather three planes can land simultaneously on three different runways. But car renters beware: according to Travel Weekly, a trade magazine, there isn't a gas station within a 20 mile radius of the new airport.

### Please 240 Me

Next time an airline strands you somewhere, either due to equipment failure or a missed connection, ask the agent to "240" you. Many airlines, in their contracts of carriage, have incorporated Rule 240 (it's a vestige of the old Civil Aeronautics Board days), requiring the airline to put you on the next flight out, even if it's operated by a competitor and even if it means flying first class. Ask to see the rule book if the agent is reluctant.

ing up-to-date on local building codes, safety and environmental regulations, not to mention all those new products—everything from high-tech appliances to cabinet finishes to custom door knobs.

Walker notes that before CKDs can sit for their final exam, they must file affidavits from fellow professionals, letters of reference from past clients, and submit samples

of their design work for review by the Societies, the accreditation agency of the National Kitchen & Bath Association.

"The kitchen and bath industry is dynamic," said Walker, "with new products and new technologies constantly being introduced. Keeping up with all this is a responsibility CKDs take seriously."

## Nine-To-Five Dog

Dogs thrive on routine: walk, play, feed, train, owner leaves for work, hang around the house, owner arrives home, walk, play, feed, train, hang around with owner, walk sleep, etc. Once they know the routine, they expect it. Changes in routine means trouble. Anticipation can cause problems. Dogs who are normally well behaved can fall apart if you go out in the evening after being away all day.

If your dog is left alone all day on its own, without physical or mental stimulation, a dog can develop stereotypical routines. Just like a caged wolf in a zoo, it might pace relentlessly or it might run up and down the stairs, bark incessantly, or even urinate and defecate in the house. Separation anxiety and this kind of obsessive behavior occur most frequently in dogs rescued from animal shelters or animals with an inadequate exercise routine.

Most dogs get worked up at the sign of your departure or your arrival home. Canine extroverts behave in a relentlessly gregarious way, but so do highly strung or neurotic individuals. Prolong boredom can also induce over excitement. The tendency to be excitable is partly inherited and partly learned. Excitement is a gratifying feeling. It acts as its own reward, which is one of the reasons dogs behave this way.

Dogs do not like being alone. They are a sociable species, and it is unnatural for them not to have companionship or activity. A dog needs to be mentally active for about half of its time, and if it is not its brain actually shrinks in size. Most bored dogs just

look glum and lie around, but many become destructive, overexcited, and do things that craves attention.

Dogs do not like being left alone for long periods of time, without physical or mental stimulation, a dog can become bored, frustrated, worry, show signs of separation anxiety or become destructive. Signs of your dog having these traits are chewing and tearing of things, and digging and soiling anywhere in the house. Further examples, your dog may exhibit any of the following: Picking up a towel or throw rug and shake it as if it is prey; howling, barking, especially continuous, rhythmic barking; chewing up the newspaper. These are signs of anxiety, frustration and boredom.

### The Role of Exercise

Stress affects dogs just as it can people. Think how stressed you would be if your family came and went as they pleased, never telling you where they were going, when they would return or what they were up to. A dog, being naturally social, is particularly stressed by hours of isolation mandatory in today's world. Situations that create stress for you—a new job with different hours, a new child or problems in your relationship can all add up to increased stress for your dog.

Like humans, dogs need to release stress. Meditation and biofeedback are not possible, so exercise and play become the main avenues of release for your dog. The more stress he is under the more exercise he needs or more importantly, a consistent exercise routine. With problem dogs the im-

portance of exercise and reassurance increases.

Besides all the previous reasons to exercise your dog, Vestee Jackson owner of **Barrington Pet Sitters** sites that regular exercise keeps your dog fit and healthy. "Dogs which don't have enough exercise become obese. All the grooming in the world will not make a dog beautiful if his diet or exercise are poor, and the latter is more apt to be deficient than the former these days. Most of us seem to think that if we throw the dog outdoors every once in a while he will get all the exercise he needs. This is not altogether true, and it is not even possible if you live in the city or suburbs where leash laws are strictly enforced."

According to Jackson, the dog who lives most of his life indoors presents the most difficult problem. "He may need to run, even like to run, but because he is confined, he cannot". As a result, his physique, coat and temperament all suffer.

A long walk is so beneficial for both you and your dog, and in many cases, especially among the giant breeds, a walk provides adequate exercise. Of course the walk must be more than just giving the dog the opportunity to relieve himself. You must be prepared to spend an absolute minimum of twenty minutes, but preferably a half an hour to forty-five minutes once or twice a day. Walking in combination with some indoor or outdoor play is even more invigorating, and you may continue the same games you instituted when the dog was a puppy-retrieving, and pulling rubber toys

with his mouth.

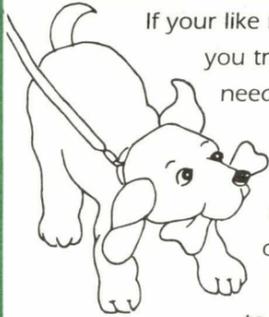

The single factor that guarantees you a happier nine-to-five dog with fewer problems, is exercise. Both mental and physical exercise are important. Regardless of weather, your energy level, schedule or mood, your dog must be exercised in the morning or midday if you expect him to be well behaved during the long day alone.

Hiring a walker for the middle of the day is a kindness to your dog. **Barrington Pet Sitters** offers several exercise programs to fit the particular needs of both you and your dog. Our professional pet care staff is responsible and is aware of the adequate amounts of exercise each pet requires. But most importantly, you and your pet can expect a reliable individual to be there when promised. All dogs are leashed, and monitored for any signs of over exercise, fatigue or heat exhaustion. Safety is our primary concern in the care of your dog and home.

**Barrington Pet Sitters** is offering readers of this article an introductory special offer of one month of service, which includes; five visits per week, thirty minutes of exercise, fresh water, a treat, fifteen minutes of brushing your pet three times a week, and a monthly report card and monthly notes as to your pets progress and reactions. **Call Barrington Pet Sitters, 381-7387, and mention that you read the article in Lifestyles and you are interested in Nine-To-Five Dog Program for \$45 a week.**
