

DEMOCRATIC NATIONAL PLATFORM.

OUTLINES PARTY POLICY.

Drafted by John Sharp Williams. It Demands John Sharp Williams, Temporary Chairman of Democratic Convention, Tells of the Aims of His Political Associates.

John Sharp Williams, the veteran newspaper correspondent, sent the following from St. Louis July 7, the platform prepared by John Sharp Williams for the Democratic leader in the House of Representatives has been accepted by every word of the party. Here is the document in full.

Economy of Government.
To favor economy in Federal expenditures, and to cut and outlay expenditures the former as well as the latter gradually but surely and steadily.

Monroe Doctrine. Its full integrity as conceived by Jefferson, amended as interpreted by Adams and finally revised by its true construction, we think it our duty to maintain, and to oppose any encroachment upon the territories of the United States.

Attack on President.
We believe that citizenship of the residents of the Republics parts for President, and that the President is better to be elected by the people than by the Senate.

Against Debt Collecting.
We especially resent the practice, which was not born of Mr. Monroe, but was born of Mr. Roosevelt, of not making us act with decency in industrial and political matters.

Oppose Favored States.
We favor the creation of the single tariff department of the Federal Government, and we favor the abolition of the favored states, which are a source of trouble to the people.

Foreign Trade.
We favor the creation of a single tariff department of the Federal Government, and we favor the abolition of the favored states, which are a source of trouble to the people.

Addressing the Democratic National Convention at St. Louis July 7 Temporarily Chairman John Sharp Williams.

There has been always two great parties with two great platforms. Political conventions have elected the one or the other, and the people have selected a candidate and his party.

Set, thereby for the first time party itself reestablishing the standard of the United States.

At the point the speaker questioned of the Spanish war question.

Think Danger Ahead.
Let me tell the members interested in the future of the party. If Roosevelt is elected, we shall have a President of perilous uncertainty, untrust business, and a President who will be the cause of the ruin of the Republic.

Prizes the Nominee.
I think that the only party that can stand for the people is the party that stands for the people.

FOR OUR OWN PART.

We favor an open door for the world.

Notes.

The Democratic party is the only party that stands for the people. It is the only party that stands for the people.

Changes Plagiarism.

The Democratic party is the only party that stands for the people. It is the only party that stands for the people.
