DEAR SIR:—I was in the Army. I had more kidney trouble, and within the past year it became so severe, that I could not walk without suffering terrible pain. I was much alarmed—my strength and power completely gone. I saw an advertisement of Swamp-Root and wrote asking for advice. I received a bottle of the medicine and noted a decided improvement after taking Swamp-Root several bottles. I continued its use and am thankful to say that I am entirely cured and my strength and power are very much restored. I had a doctor examine the contents of my water, and he pronounced it all right and in splendid condition. I know that Swamp-Root is a purely vegetable and does not contain any harmful drugs. Thanking you for your complete recovery, I recommend Swamp-Root to all sufferers from kidney trouble.

L. C. HAMILTON, N. Y.

FIRST THANKSGIVING OBSERVED ON SHIPBOARD IN YEAR 1629

Illustration of the first Thanksgiving observed on shipboard in 1629.

From the beginning, with few exceptions, Thanksgivings have been kept in the late autumn, owing to the harvest time, of course, and more frequently toward the end of November.

No one knows how the custom of appointing Thursday originated, but some light is doubtless thrown on the subject by a controversy over a proposal to change the day of the week, about 1690, when the dissenters argued that Thursday was preferable, because of the Thursday lectures, or midweek religious services, that took place every week in communities of considerable size, a joint observance of the two days rendering it unnecessary, of course, for many to sacrifice a day's labor, especially for Thanksgiving.

Although the pilgrims were the first to observe Thanksgiving on this continent, the Salem colonists, on their voyage over here in 1629, observed Thanksgiving on shipboard, in which everybody, passengers, captain, and crew, took part, as an acknowledgment of a favorable breeze that had followed a preceding day of fasting and prayer.

Winthrop colony, in 1630, also observed a Thanksgiving, apparently entirely without any inspiration from the pilgrims, but in accordance with their former custom in England, the motive in this case having been gratitude for the safe arrival of their fleet at Charlestown, where puritan religious services were held beneath a tree, for it was in hot weather, July 8.

The Winthrop colony's second Thanksgiving here, which is commonly spoken of by historians as their first, was about eight months later, Feb. 22, when having moved over to the peninsula of Shawmut and taken up their abode in log houses, built, hovels and even holes in the side of Beacon hill, their number sadly depleted by disease caused by purified food, and even absolute starvation, the arrival of their fellow townsman, Capt. William Peirce, with a shipload of provisions from Ireland, and a host of all "good store of lemon juice" to arrest the ravages of the scurvy, furnished them with good cause for devout thanksgiving and gastronomic disposition as well.

The colony probably comprised 200 or less, no church had yet been built, and it is doubtful if there was any public religious observance of the day. Neither was the bill of fare of any of the households have been sumptuous, according to our ideas, judged by the record of the ship's cargo, which shows that the best Boston cuisine could have then afforded was corned beef or boiled salt pork, oatmeal or wheatmeal mush, without milk or stirp, and ship's biscuit with cheese.

Yet who shall say it was not deemed a rich feast, when we learn from one who participated in it that a repast consisting of "meat, water and a little salt, boiled together, was so good that none could ask for a better meal."

Digestion was facilitated by copious draughts of ale, if it could be had, from a single large pewter or wooden tankard, which was passed around

TERRIBLE SUFFERING

THIS YOUNG WOMAN APPEARED IN TALK FOR HELP.

When Hope had Almost Exhausted Her Own Strength Relief Came from an Unexpected Source.

Mrs. Emma Holdreder, of No. 1209 Joy street, Burlington, Iowa, whose husband is an employe of the Grand Lumber Co., tells a story of pitiable suffering.

"For about five years," she says, "I had a host of physical ills that kept me an invalid and put me in great pain. Some of them thought I was going into consumption. At times I was so weak that I could not comb my hair or even wash my face. These excruciating pains ran suddenly up my thigh and I had to be carried to bed screaming in my agony. I could no longer do my work and the strain upon my husband's nerves was very heavy. I craved food but what I ate only gave me discomfort. My liver was torpid, and often I had to be carried to the door for air to save me from suffocating.

"The worst was the pain which seemed as if my thigh were being ground out by my body. The best doctors could do was to deaden it by narcotics. Once they thought I could not live for more than two days. In one of my worst attacks, a friend said: 'Why don't you try Dr. Williams' Pink Pills? They are the only thing that ever helped my rheumatism.'

"I took his advice. After using one box I felt better, and I continued to use the pills for three or four months with steady improvement. At last I was well. For four years I have been able to do all my household work, and no longer have to take medicine. In my former trouble, I gave one box of Dr. Williams' Pink Pills to a man on crutches because of rheumatism and advised my market woman to buy a box when she was complaining of the same trouble. I heard that he was soon able to throw his crutches away, and she told me she had got rid of the rheumatism by the use of one box and could not thank me too much."

Testimony multiplies as to the magnificent curative powers of Dr. Williams' Pink Pills for Pale People in cases of rheumatism, neuralgia, nervous headache, palpitation of the heart and all forms of weakness in either male or female. They are sold by all druggists throughout the world.

MAMMOTH CAVES IN FRANCE.

Lately Explored, They Are Now a Popular Place of Excursion.

One of the strangest local legends, and one of the most interesting, is that recently made accessible to the public at Padoux, in the department of Lot, France. There a wonderful series of caverns, containing magnificent stalactites and a subterranean lake and forest, have been discovered. The caverns were discovered by an adventurous explorer, and the dangers of the visit have now been ingeniously reduced, so that the average sightseer may enter these "antres vast" with ease and safety.

For ages the caves remained absolutely unexplored, but by the enterprise of M. Martel, a geologist, they have been thoroughly examined and described, and by means of iron stairways and galleries have been rendered accessible to all. One of the caverns opening is 300 feet in circumference, and when M. Martel made his first visit to the depths he had descended on a board attached to two ropes after the manner of a swing. He went down 500 feet, and with several companions, began an extraordinary series of discoveries. The chief of these is an underground river, which he navigated in a collapsible boat.

An Honest Opinion.

Mineral, Idaho, Nov. 14th.—(Special.)—That a sure cure has been discovered for the Rheumatism pains that make so many lives miserable, is the firm opinion of Mr. D. S. Colson, a well known resident of this place, who has not hesitated to say that the cure is Dadd's Kidney Pills. The reason Mr. Colson is so firm in his opinion is that he had those terrible pains and is cured. Speaking of the matter he says:

"I am only too happy to say Dadd's Kidney Pills have done me lots of good. I had awful pains in my hip so I could hardly walk. Dadd's Kidney Pills stopped it entirely. I think they are a grand medicine."

All sciatic and Rheumatic pains are caused by Uric Acid in the blood. Dadd's Kidney Pills make healthy kidneys, and healthy kidneys strain all the Uric Acid out of the blood. With the cause removed there can be no Rheumatism or Sciatica.

The navy department is to establish a wireless station in the Fall River islands, and it is expected that thirty-two miles west of the entrance to San Francisco bay. It would be a very important station in war time.
