HAD HEART PAINS

A Critical Case of Rheumatism Cursel By Dr.Williams Pink Pills.

While Mr. W. S. Geisel, G No. 128
East Coutes street, Moberly, Mo., was steadily working at his trade in a foundry at that place, he became the victim of an attack of rheumatism, and his experience is that of thousands who are compabled to work in similar surroundings. He describes his attuation as follows:

companies to work a manine astronomy.

Me describes his situation as foliage. He describes his situation as foliage.

"I had been at work for a long time in a foundry where I was exposed to dampiness. First my feet began to hurst and to swell, them my knees and my shoulder joints began to be affected in the same way. Finally I could not walk without great difficulty and suffering and had to stop work altogether. My appetite was feeble and I grow very pale and weak. I began to have pains about and weak. I began to have pains about and weak. I began to have pains about the virtues of Dr. Williams? Pink Pills, as they had given her back her health when she was nearly wasting to death, and when also found that they were good for rheads of the mount of the pains and was the pains and swelling and had restored my appetite and color. Then I felt strong enough to take up a line of outstong enough to a foundry again at St. Louis."

Sweeping Interpretation of Law Hand

ed Down by Supreme Court.
Minneapolis, Minn., dispatch: The
upreme court has decided in the case Mineapolis. Minn. dispatch: The supreme court has decided in the case of A. J. Cummings against Edwards. Wood & Co. that the garnishee law of Minneotta may be extended to cover moneys in the bank when a garnishee is secured. The decision is a sweeping one and Judge Lewis states in the opinion of the supreme court that the courts can give no relief to the institution and that the legislature must be looked to for any other construction of the law.

Mexico's Richest Citizen.

Don Luis Terrazas, 'the Mexican Croesus who once offered to assume all the debts owed by his country, has a farm of about \$8,000.000 across in the state of Chinahua. It takes Mexican Central trains half a day to cross the farm. Don Luis is thought to own more than 1,000,000 cattle, but a bagatelle of 100,000 or so more or less never bothers him. His stable consists of some 100,000 horses, his sheep fold of 700,000 sheep. From 200,000 to 300,000 calves are branded with his brand every spring. More than 1,000 cowboys and so on keep his cattle on a thousand bills.

In an article on the "Growth of Fletcherism," in the March "World's Work." Isaac F. Marcosson gives Hor-ace Fletcher's following rules for eat-ing, which are given to all patients of the Harvard Dental School Dyspen-

Harvard Dental School Dyspenmay. Harvard Dental School Dyspen(1) Eat only in response to an actual appetite, which will be natisfied
with plain bread and butter.
(2) Chew all solid food until it is
iliquid and practically swallows itself.
(3) Slip and taste all liquids that
have taste, such as soup and lemonadelowed, immediately.
(4) Never take food while angry or
worried, and only when caim. Waiting for the mood in connection with
the appetite is a speedy cure for both
anner and worry.

anger and worry.

(5) Remember and practice these four rules and your teeth and health will be fine.

Senator Knox's physician advised him to sive up smoking a few days are safe jut him in the same class after forty years of it. Senator Knox's physician happened up at the capitol and went into the senator's committee room to pass the time of day. He found Knox smoking a cigar. "Here, senator," he said, "I thought I told you to quit that." "Quit what?" asked Knox in mild surprise. "Why, quit using tobacco." "Tobacco' Why, my dear doctor, I am not using tobacco. "Tobacco' I have a merely smoking a cigar Senator Dolliver gave me."

Immune to Colds.

"A Quakeress," said a physician. "never catches cold. Her immunity is due to ber bonnet. If I had my way, all of us, women and men alike, would wear Quaker bonnets. This bonnet protects the beley of the head and the nape of the neck, two very tender spots. The nape especially is tender. Let a good draught strike you there for just a second and I'll guarantee you a week's cold. The Quakeress's bonnet may not be beautiful, but, protecting her nape as it does, it keeps her free from colds year in and year out."

California's Hardy.

According to the latest available statistics of the mineral industry of the whole United States, California now stands number one in rank in the production of petroleum, asphait, quicksliver, magnesite, borax, bituminous rock, gerns, platinum and manganese. It is number two in the production of gold, Colorado exceeding it. The state stands number four in copper, number five in siliceous crystalline rocks, and in sandstone and quartaite. Number seven in marble; number eight in natural gas, etc.—Charles G. Yale in Sunset Magazine for March.
