

THREE ACTS

For Sick Women To Consider

First.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, headache and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

Second.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and relieving their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

Third.—The great volume of uncollected and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of them from time to time published by permission, is the best evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

RELIGIOUS MUMOR.

The New York federation of churches, which has been in existence for ten years, is out of debt for the first time in its history. It is spending more than \$16,000 a year in its work.

Indianapolis was the scene of an international meeting of Young Men's Christian association societies, which brings together between 800 and 1,000 workers from the United States, Canada and Mexico, next May.

Native Protestant Christians in India have formed a national home missionary society to evangelize their own country. The society will be administered wholly by natives. It harmonizes with existing Christian churches in that land.

The Congregationalists are raising now about \$200,000 a year for church extension, but are starting with them are starting a movement to insure \$500,000 being raised. There are 500 congregations of their denomination in this country.

There are more than 2,000,000 negro Baptists in this country, with 60 institutions of learning and 45 denominational papers. They have a national organization, with headquarters at home and foreign, education, publication and the young people's societies.

The Salvation Army is making much progress in Germany under the leadership of Commander Cliphart, who the Frankfurt Zeitung declares is almost as interesting a character as Gen. Booth. He is tall and lean, has a very high forehead, bushy eyebrows and a long black beard. Though a Scotch-Irishman, he speaks German fluently and his citations evince thorough familiarity with German literature.

NOTHING FOR ARBITRATION.

Anthracite Coal Carriers and Operators Prepare Answer to Demands of Mine-workers.

New York.—A subcommittee of presidents of the anthracite coal carrying railroads and mine operators, headed by President Bear, held a meeting in this city Tuesday and drew up a letter to President John Mitchell, of the United Mine Workers of America, in which the operators again declare that there is nothing to arbitrate except the question whether there shall be any arbitration. The reply is made in response to President Mitchell's recent proposition of arbitration.

New Russian Loan.—St. Petersburg, Tuesday, that the arrangements for the new Russian loan totaling \$400,000,000, have been signed in Paris. About half the amount was taken by France in connection with Belgian interests and Austria took the portion originally assigned to Germany. The United States did not participate in the loan.

Decree Is Reversed.—St. Paul, Minn.—Judge Sanborn, in the United States circuit court of appeal, Tuesday handed down a decision in the case of Morgan Jones vs. the Missouri Edison Electric company. The court reverses the decree of the lower court.

Slain for Alleged Treachery.—Kief, Russia.—A workman who had been murdered here had a piece of paper pinned on his coat bearing the inscription: "Vengeance for treachery."

DIVORCE RULING IS DRASTIC

DECISION MAKES 20,000 CHILDREN ILLEGITIMATE.

Federal Supreme Court Holds Both Parties Must Be Residents of State Where Case Is Heard.

Washington.—It is doubtful if a more momentous decision has been delivered by the supreme court in recent years than that which on Monday bench divided five to four, it held that divorces obtained in states which do not have jurisdiction over both parties to a marriage are not enforceable outside the state granting them. The decision is based on the clause of the constitution providing that each state shall give full faith and credit to the decrees of another state.

The effect of the decision therefore is that divorces like those obtained in South Dakota by the acquisition of a temporary residence for that purpose are void in the state in which the couple resided only so long as their legality is not attacked.

It follows, therefore, that a divorce, in order to be beyond attack, must be obtained in the state of which both parties are residents.

NEED OF INSURANCE LAWS

President Urges Congress to Take Action in Interest of Army of Policy Holders.

Washington.—President Roosevelt Tuesday transmitted to congress an important message relating to insurance legislation. Accompanying the message were the report and recommendations of the insurance commission which was held in Chicago last February. Among the recommendations is the draft of a bill, which congress is urged to enact into law with some amendments in wisdom may suggest. The president urges the enactment of the proposed measure, as, he says, we are not to be pardoned if we fail to take the every step in our power to prevent the possibility of the repetition of such scandals as those that have occurred in connection with the insurance business as disclosed by the Armstrong committee.

RIGHT TO PROBE IS DENIED.

Ohio State Senate Cannot Force Witnesses to Testify in Local Investigations.

Cincinnati.—The state senate had no authority to authorize the investigation of the public offices of Cincinnati and Hamilton, which was carried on by the Drake committee, according to a decision filed by the common pleas court in this city Tuesday. The case was that of Thomas F. Davis, cashier of the First National bank in this city, whose refusal to appear as a witness before the Drake committee led to a decision filed by the common pleas court in this city Tuesday. A PRECARIOUS CONDITION.

Many Women Suffer Daily Miseries and Don't Know the Reason.

Women who are languid, suffer backache and dizzy spells, should read carefully the experience of Mrs. Laura Sullivan, of Detroit and Third St., Marquette, Mich., who says: "I had backache and bearing-down pains, and at times my limbs would swell to twice natural size. I could hardly get up and about, and often could not get my shoes on. Beginning to use Doan's Kidney Pills I got relief before I had had half a box, and continued taking them until cured. The bearing subsided and I was well again."
