

## THE MODERN "PITTSBURGH PERFECT" WIRE FENCE, WELDED BY ELECTRICITY.

What a Marvel it would have been to Abraham Lincoln, splitter of rails.

Mr. Farmer: Your progressiveness is keeping you in close touch with improvements in farm machinery, in dairy methods, and with all the scientific facts that bring about the greatest possible agricultural production.

You are also informing yourself about fences. We know you are. First—there was the stone fence of medieval history. Second—pioneer America converted its timber into rails. Third—somebody found a way to weave wire and slats. Fourth—along came barb wire, with its marvelous sale. Fifth—machines were invented to twist or clamp one wire around another; the woven wire fence.

But, most important of all, electricity now welds the wires at the joint, making no longer necessary those wops and clamps. Stay and strand, wizard-like, become one.

The greatest step forward in fence building is thus accomplished at a single, master stroke.

Of course, you are not using anything else. Surely you are familiarizing yourself with this remarkable improvement, to be found only in "Pittsburgh Perfect."

The Woman's Club met at the home of Mrs. G. Arps at Palatine on Thursday afternoon and enjoyed an excellent program arranged by Mrs. Arps and Mrs. Mattheil. Next Thursday the club will be entertained at the home of Mrs. F. W. Stott. Two papers on the subject of the study of music will be read. The club is planning to give a public entertainment before the close of the season in June.

The Knickerbocker Ice Company, which owns tremendous amounts of land and water in Grant, Avon and Antioch towns and owns most of the acreage around Lakes Zurich, Oconomowoc and Loon, have mortgaged their property for \$6,000,000. The mortgage is the largest ever filed and calls for five per cent refunding mortgage bonds. The document is printed and makes up a book of 123 pages, dated February, 1906.—Antioch News.
