Built Famous Monitor.

Deloit, Wis.—V. V. Holmes, of this city, died Monday at the home of his daughter, in Wheaton, Ill. He was a member of the Society of American Engineers, and had charge of the construction of the famous Monitor.

SHORTAGE IN FOOD SUPPLY

SAN FRANCISCO NEEDS PROVISIONS FOR HOMELESS PEOPLE.

San Francisco.—A feeling akin to consternation was created at the meeting of the general municipal committee Monday, when Mayor Schmitz stated that the city faced a shortage in the food supply. It had been the popular belief, and that of many officials also, that San Francisco, through the generous aid of the nation, had been placed in a position above want for a long time to come, and the mayor's declaration came in the nature of a painful surprise.

Monday the plan of George Greeley for distributing food to people in want was commenced in a number of the newly created districts, and there was some noticeable noticeable in the output of goods.

An unfortunate happening was the destruction of a number of homes in the saved section on Van Ness avenue. The blasting was notified that certain insecure walls were a menace to pedestrians and, in order to blow up an unusually solidly constructed facade, was obliged to use a large quantity of dynamite. As a result of the tremendous explosion four houses on the other side of the city's broad thoroughfare were utterly wrecked.

Signs of renewal of industrial activity were apparent in many parts of the burned districts, and the work of clearing away the debris preparatory to rebuilding was in progress in some of places. It was said that plans for over 20 large buildings have been drawn, and will be submitted to the authorities as soon as new building laws are promulgated.

The mayor notified the board of supervisors that he would appoint a committee consisting of engineers, architects, builders and lawyers to prepare plans for laying out streets and boulevards and reconstructing San Francisco.

Calumet Baking Powder

is the only HIGH GRADE POWDER offered to the consumer at a Moderate Price MAKES PURE FOOD

From Rochelle Salts, Alum or any injurious substance.

Calumet Baking Powder is recommended by leading physicians and chemists.

OF HISTORIC INTEREST.

An edict of Charles IX. of France, dated 1547, made it a civil offense to offer any guest more than three courses at one meal. If a fourth appeared, the provider of the feast was liable to a fine of 200 francs; while the guests who partook of the fourth course were to pay the authorities 40 francs each.

Lord Avelbury, otherwise Sir John Lubbock, was the first person in England to have his photograph taken. Mr. Daguerre, the co-inventor of the art, came to London to patent his discovery, and paid an early visit to Lord Avelbury's father. The son was successfully photographed.
