Small wonder that appendicitis, peritonitis, constipation and all sorts of trouble exist when we go so contrary to nature's law. The food experts that perfected Grape-Nuts Food, knowing these facts, made use in their experiments of the entire wheat and barley, including all the parts, and subjected them to moisture and long continued warmth, which allows time and the disastase, outside of the human body. In this way the starchy part is transformed into grape-sugar in a perfectly natural manner, without the use of chemicals or any outside ingredients. The little sparkling crystals of grape-sugar can be seen on the pieces of Grape-Nuts. This food therefore is naturally pre-digested and its use in place of bread will quickly correct the troubles that have been prounts flowing the too free use of starch in the human race to-day.

The seffect of eating Grape-Nuts tendays or two weeks and the discontinuance of ordinary white bread is very marked. The user will gallar rapidly in strength and physical and mental health.
