

VILLAGE DADS ASSEMBLE

Official Report of the Barrington Village Council.

Board met in regular session. Minutes of July 2 read and approved. Treasurer's report for July read and approved. Bills amounting to about \$600 were ordered paid. Communication from M. C. McIntosh read and referred to the Clerk to communicate with parties complained of and see if nuisances could not be abated without cost. Plat for S. Peck's sub-division approved. Tax Levy Ordinance No. 17 (New Series), passed, averaging \$4,000.00. Ordinance No. 18 (New Series), for extension of Main street water mains, passed. Mr. Ewing made a report on the sewerage system plans. Meeting adjourned.

L. H. BENNETT, Clerk. Barrington, Illinois, July 23rd, 1906. To the President and Board of Trustees of the Village of Barrington: Gentlemen: We herewith submit an ordinance for a local improvement by furnishing and laying a connected system of cast iron water supply pipes on West Main Street from Cemetery Street West to the corporate limits of said Village; said improvements to be made in the Village of Barrington, in the Counties of Cook and Lake, and State of Illinois, together with an estimate of the costs of said improvement

and recommend the passage of said ordinance and the making of the improvements contemplated therein. Respectfully submitted.

MILES T. LAMEY, JOHN C. FLAGG, JOHN DONLON, Board of Local Improvements.

Table with 2 columns: Item description and Amount. Includes items like '1300 feet of 6-inch water supply pipe, laid at \$1.90 per foot', '4 fire hydrants with two 2 1/2 inch hose couplings', 'Four 6 inch gate valves', 'Total labor and material', etc.

I hereby certify that the above estimate does not exceed the probable cost of said improvement and the lawful and necessary expenses attending the same.

MILES T. LAMEY, President of the Board of Local Improvements of the Village of Barrington.

Ordinance No. 18, New Series.

An Ordinance providing for the construction of an extension of the connected system of water mains and supply pipes with the necessary hydrants and appliances on Main Street from Cemetery Street West to the West limits of said Village Corporation, in the Village of Barrington, Counties of Cook and Lake, and State of Illinois.

WEST MAIN STREET. That a pipe six inches in internal diameter shall be laid in said West Main Street from a connection to be made with the 8 inch pipe now in said street at a point twelve feet west of the center line of said West Main Street north, and twelve feet south of the center line of said West Main Street, produced West; the pipe shall extend north and south with twelve feet west of the center line of said Main Street to a point on the west line of the corporate limits of said Village.

TEES FOR FIRE HYDRANTS. That cast iron tees, having a branch of four (4) inches internal diameter, for fire hydrant in connection to the pipe at the following points: Branch to be on the South side of pipe.

One (1) 300 feet west of the west line of Cemetery Street. One (1) 600 feet west of the west line of Cemetery Street. One (1) 900 feet west of the west line of Cemetery Street. One (1) 1200 feet west of the west line of Cemetery Street.

HYDRANTS. There shall be four fire hydrants, each fire hydrant to be connected with the tees above located by means of twelve feet of cast iron pipe of 4 inch internal diameter. The fire hydrants above provided for shall be what is known as the "Eddy" fire hydrant, with two (2) and one-half inch hose couplings, the thread to be what is known as "Chicago Thread." Said hydrants shall be of such length as required for a trench five (5) feet deep.

GATE VALVES. There shall also be gate valves placed along the line of said pipe as follows, to wit: One six inch gate valve, 400 feet west of the west line of Cemetery Street. One 800 feet west of the west line of Cemetery Street. One 1000 feet west of the west line of Cemetery Street. One 1300 feet west of the west line of Cemetery Street.

VALVE BOXES. A cast iron extension valve box shall be furnished and set over each shaft. Said boxes shall have an upright shaft not less than five (5) inches in internal diameter, and to be fitted with a cast iron cover, on which must be cast in raised letters the letters "W. G." All boxes shall be made to extend to six (6) feet.

CROSSIES. That cast iron crosses shall be placed along the line of said pipe as follows, to-wit: One 4x4 by 6x6 inches at the intersection of Main Street with the east line of the E. J. & E. Railway. One 4x4 by 6x6 inches 1000 feet west of the west line of Cemetery Street.

PLUGS. There shall be cast iron plugs placed in said crosses where the crosses do not connect with pipe already laid or provided for by this ordinance.

PIPE. All pipe and castings shall be made of the best quality of metal and without admixture of cinder or any kind, and shall be of such character as to

make the pipe strong, tough and of even grain, and will satisfactorily admit of drilling and cutting by hand, and have a tensile strength not less than eighteen thousand (18,000) pounds per square inch.

They must be thoroughly cleaned and no rough places shall be left in the barrels or sockets, and after being cleaned and inspected they shall be carefully coated, inside and outside, with coal pitch varnish before any rusts set in, and when dry shall be subjected to a water pressure of three hundred (300) pounds to the square inch, and while under such pressure be subjected to six (6) blows of a three (3) pound hammer.

LEAD AND GASKET. The lead used shall be of the best quality of pure soft lead and suitable for this purpose. Gaskets of sound hemp yarn, braided and twisted shall be used, driven tightly to pack joints. Sufficient lead shall be used to give a thickness of at least two (2) inches in each joint.

LAYING PIPE-TRENCHES. The trenches for the pipe shall be opened on lines above specified, and the depth of all trenches shall be sufficient to give a covering of five (5) feet below the surface of the ground or established grade, where grade is established. Proper implements and tools for the safe and convenient laying of pipe shall be laid or set which are known to be defective.

All pipes shall be laid and all calling shall be done in the trench, and in no case may the pipe be laid together on the bank and lowered into the trench. All pipes and castings shall be carefully covered and cleared as they are laid, and no earth or rubbish shall be allowed to find entrance or remain in the pipe or castings.

After the pipes have been laid they shall be tested by water pressure of one hundred fifty (150) pounds per square inch, and any leaks caused by such test shall be repaired by and at the expense of the contractor. The intention being that the contractor shall complete this work in such a manner that the excavation and the crossing or alterations of the contract shall be completed before the final acceptance of the work.

BACK-FILLING. All trenches shall be filled with material furnished by the excavator and after thorough settlement be refilled and properly graded; and all crosses shall be refilled with the excavating of the trenches or laying of the pipes shall be restored and placed in as good condition as before the work was done to the satisfaction of the Board of Local Improvements.

GUARANTEE. For the keeping and maintaining in a passable condition of the work of the streets in which pipes are laid for a period of six months from and after the completion and acceptance of the work, which keeping and maintaining shall consist of refilling depressions caused by settling of the back-filling; the Village of Barrington shall refund five per cent of the contract price for the said work, and if the said contractor or contractors shall not within five days after notice so to do proceed to make such repairs as are required to be made, the said Board of Local Improvements may immediately cause such repairs to be made, and to pay the cost thereof from any money of the said contractor or contractors in possession of the Village of Barrington.

GENERAL.

All work in the construction of said Water Supply Pipes shall be done in a good and workmanlike manner, and all materials used therein shall be of the best quality and subject to the approval of the Board of Local Improvements of the Village of Barrington.

Section 2. Said work shall be done under the superintendence of the Board of the Village of Barrington. Section 3. That the recommendations of the Board of Local Improvements of the Village of Barrington providing for said improvements, together with estimate of the cost thereof made by the President of said Village, both hereto attached, be and the same are hereby approved.

Section 4. The said improvements shall be made under the whole cost thereof to be paid for by special assessment in accordance with an Act of the General Assembly of the State of Illinois, entitled "An Act concerning Local Improvements" approved June 14th, A. D. 1897, and amendments thereto; and that of the amount of said assessment to be collected as aforesaid the sum of Ninety-eight and twenty-eight one-hundredths (98 28/100) dollars, which sum does not exceed six per cent of the amount of such assessment, shall be applied as required by law to the payment of all lawful expenses attending the proceedings for making said improvement and the cost of making and collecting the same, and therefor, in accordance with the provisions of said Act.

Section 5. The aggregate amount assessed, and each individual assessment, and also the assessment against the Village of Barrington, if there be any, shall be divided into five installments, the first installment shall include twenty per cent of the assessment, together with one per cent of the amount of the remaining installments and the aggregate amount of each of the remaining installments shall be equal each and every year a multiple of One Hundred (\$100.00) Dollars, said first installment shall be due and payable on the second day of January next after the date of the first voucher issued on account of work done on said improvement, and the second installment one year thereafter, and so on annually until all installments are paid. All installments shall bear interest until paid at the rate of five per cent per annum, and all assessments shall begin to run from the date of the first voucher issued on account of work done on said improvement, and the second installment one year thereafter, and so on annually until all installments are paid. All installments shall bear interest until paid at the rate of five per cent per annum, and the date of the first voucher issued on account of work done on said improvement, and the second installment one year thereafter, and so on annually until all installments are paid.

Section 6. For the purpose of anticipating the collection of the second and succeeding installments of said assessment for said improvement, bonds shall be issued, payable out of said installments, bearing interest at the rate of five per cent per annum, payable annually and signed by the President of the Village of Barrington, and attested by the Village Clerk, under the corporate seal of the Village of Barrington, and shall be issued in accordance with and shall in all respects conform to the provisions of the Act of the General Assembly of the State of Illinois, entitled "An Act Concerning Local Improvements" approved June 14th, A. D. 1897, and amendments thereto.

Section 7. One half of the frontage abutting on said West Main Street wherein said improvements to be made lying in the Counties of Cook and Lake, the Village Attorney for said Village of Barrington, be and he is hereby directed to file a petition in the County Court of Cook County, and a like petition in the County Court of Lake County, in the name of the Village of Barrington, praying that steps may be taken to levy a special assessment for said improvement in accordance with the provisions of this ordinance, and in the manner prescribed by law.

Section 8. This ordinance shall be in force from and after its passage and approval by the President. Approved this 6th day of August, A. D. 1906. MILES T. LAMEY, President of the Village of Barrington. LEWIS H. BENNETT, Clerk of the Village of Barrington.

Card of Thanks. We desire to thank the many friends and neighbors who so kindly assisted and sympathized with us in our bereavement over the loss of our dear and loving son and brother. Never have we realized so much the old adage, "A friend in need is a friend indeed." MRS. L. BAUMAN, BROTHERS and SISTERS. Health & Milligan's Climax buggy paint is the best paint for the purpose manufactured. Sold by Lamey & Co. For Sale-Gasoline stove; cheap if taken at once. Inquire at this office.

MANY PAY TRIBUTE TO HIM

Remains of Popular Highway Commissioner Fred Bauman Laid to Rest in Evergreen Cemetery.

The funeral of the late highway commissioner, Fred Bauman, took place on Saturday from the home of his sister, Mrs. S. Geske.

Funeral services were held at the house on account of the physical condition of his mother and Sister Carrie. Seats had been provided for about 200 persons on the outside lawn and sidewalk while the speakers stood on the front porch, making it possible for all inside and outside to understand. Good singing was furnished by a male octet and a mixed quartette. Rev. F. W. Landwer of Chicago read a Scripture passage and led in prayer.

Rev. A. Haselt of the Salem church spoke briefly about "Their works do follow them." He called attention to the fact that a person's influence never dies but will go on till time shall be no more. The singing may be good or bad, but the harvest must inevitably be the same for, "As a man sows, so shall he also reap." To this important law of our Maker no reasonable being should object.

Rev. H. Stege of the Zion church spoke about, "Therefore be ye also ready, for at such a time as ye think not the Son of Man cometh."

A brief biography was read by the pastor of Salem church, of which church Mr. Bauman had been a member for thirty-three years. A large procession followed the remains to the "Evergreen" cemetery. Six young men, who at one time or another had worked for the departed one, acted as pallbearers. Many floral wreaths and other designs were offered as tokens of regard by friends of the departed. A very substantial cement vault had been placed inside the grave by our accommodating undertaker, which was afterwards covered with a cement top and sealed to make it airtight and watertight. Sadly the friends left the cemetery, thinking of the congenial and friendly "Fred," but hoping to meet him again in a world where death and sorrow are unknown.

It is a Good School. Many of our young people are now making up their minds what school they will attend during the fall and winter. Many of those who probably will not attend any school ought to do so, as they are abundantly able to bear the expense. Nothing pays so well as an education. A number of young people have attended the Metropolitan Business College of Chicago and are well satisfied. This college is an old established institution and has a fine reputation for training young people in ways and methods of business. The college assists its graduates in finding employment. We hope our young readers will write for the booklet, "Business Education," and make arrangements to attend this popular institution. The fall term opens September 4.

New house for sale or rent on North Hawley street and ready for occupancy Sept. 15th. Will build to suit purchaser. M. C. McINTOSH.

The Reliable Dayton
