

# CAPTURE CUBAN CITY

## REBEL BANDS ATTACK TOWN IN PINAR DEL RIO PROVINCE.

### BELITTLES THE UPRISING

Commander of Rural Guard Says He Has Enough Men to Suppress the Rebellious Elements Now on the Island.

Havana.—The insurgents in the province of Pinar del Rio captured their first city there Wednesday. At nine o'clock in the morning the forces led by Pico Guerra, an ex-congressman and an influential man, who was thought to be many miles eastward, and sundry other insurgent bands attacked San Luis, which is situated on the railroad, about ten miles west of Pinar del Rio City. A sharp and decisive engagement followed during which a number of men were killed or wounded. The town was defended by less than 100 rural guards, 50 of whom surrendered to the insurgents and are held as prisoners. The insurgent forces are in possession of the railroad station and of the town, which is resuming its normal condition. By the capture of San Luis, which has about 10,000 inhabitants, the insurgents have obtained an important base for future operations.

Gen. Rodriguez, commander of the rural guard Wednesday, after relating the incidents of the day, said: "You can tell the American people that Cuba is entirely competent to cope with the insurrection. The flood of rumors in all directions about the organization of insurgents had free seed in great numbers are not borne out by our reports, or so far as can be learned, by the facts.

"The much talked of movement in Santa Clara province has not been encountered, and no insurrectionists have been seen there by our troops. "We have to-day equipped and sent out in various directions 300 volunteers under competent officers. We have plenty of rifles and ammunition for all who enlist, and much more has been ordered from the United States. We believe the loyal people are taking up arms for the government faster than the insurgents are increasing."

### AMERICAN NETS ARE DESTROYED

#### Fishermen Complain of Action of Canadian Cruiser in Lake Erie.

Washington.—Capt. Ross, chief of the revenue cutter service of the treasury department, Wednesday reported to Acting Secretary Murray of the department of commerce and labor, that he had received advice that the Canadian cruiser Vigilant was destroying the nets of American fishermen in Lake Erie.

The reports of the fishermen indicate that the nets were set well within American waters.

Complaints were filed by the fishermen with the American authorities. The matter will be reported to the state department and probably will constitute the subject of an exchange between the American and Canadian governments.

### STUDIES FARMING IN AFRICA

#### South African Agent Will Report on Agricultural Conditions.

Washington.—William MacDonald, a representative of the agricultural department of the Transvaal, South Africa, called on Acting Secretary Hays of the agricultural department, Wednesday. Mr. MacDonald is traveling through this country studying agricultural conditions and methods. He will spend several weeks in the United States.

He will submit to his government an elaborate report of his operations, with recommendations as may be suggested by the agricultural conditions of America.

### HOLD-UP MEN FALL IN PURPOSE.

Duluth, Minn.—An unsuccessful attempt was made to hold up a gang of laborers on the Northern Pacific train which left Duluth at eight o'clock Tuesday night. Before the train reached Brainerd, where it was held up, the laborers got up their money. They were attacked by Conductor O'Brien, who was assisted by some of the passengers.

### Death of Hanna's Brother-in-Law.

Cleveland, O.—Jay C. Morse, at one time president of the Illinois Steel company and brother-in-law of the late Senator M. A. Hanna, died here Wednesday of a complication of diseases. Mr. Morse was associated with the late Col. C. M. Pickands in an immense iron ore and coal business, and he amassed a large fortune.

### To Unveil McKinley Monument.

Cincinnati.—Mrs. Nicholas Longworth, wife of Congressman Longworth and daughter of President Roosevelt, accepted an invitation to unveil the monument to William McKinley at Columbus, O., September 14.

### Brokers Quit Business.

New York.—M. J. Sago & Co., brokers of No. 1 Montgomery street, Jersey City, and No. 87 Broadway, this city, Wednesday posted a notice at their Jersey City office that they had discontinued business.

Washington, D. C., August 26th.—A determined effort will be made at the next session of congress to prevent appropriation for the free distribution of common garden seeds. Congress now expends \$142,000 a year in giving away the commonest varieties of peas, beans, turnip, squash and pumpkin seeds. They are divided into 40,000,000 packets so that the packets cost about half a cent each. But as a large part of the appropriation is expended in clerk hire, packing the seed, etc., the actual value of the seed in a packet is much less than half a cent. These packets are put up in packages of five packets, the total cost of the packages being about two cents each, and they are purchasable anywhere at five cents. Each member of congress gets 12,000 such packages, which he distributes to the voters of his district.

The farmers say that these packages contain so little seed as to be of no value for sowing, and that if they really rare and valuable seed, or in maintaining a national agricultural college, or divided among the state agriculturists, would be of far more value to the farming interests. They therefore protest against the waste of public money. The seedsmen claim that as congress has already expended \$5,000,000 getting into the war, it is time it should give away seeds, axes or hoes and give the seed trade a rest. Those who believe that congress should cut off the perpetuation of members now under political purposes, are writing their senators and representatives, urging them to abolish the free seed distribution, and the National Garden, may state and local societies are adopting resolutions condemning it. Mr. William Wolf Smith, of Washington, D. C., has been selected to represent the opposition to the free seed distribution, and is personally answering all inquiries concerning the same.

### PUTTING IT RATHER ROUGHLY.

#### Leading Question Asked of Methodical Writer.

There is a certain veracity in Boston—a man of remarkable versatility—has been seen at the publishing business in New York a resume of the details of his average day's work. "I am as methodical in my work," said the Boston writer, "as any business man's daily tasks are so diversified and so arranged that I am able to afford myself considerable variety during the 12 hours per diem that I employ in authorship. For instance, from ten o'clock in the morning to ten I do my verse; from ten to 12 my criticisms; from three to five I am engaged upon a history of the world intended for perusal by children. And so he continues to advise that the whole scheme. When he had concluded, the New Yorker, an exceedingly blunt individual, rather unkindly inquired: "And when, sir, do you think?"

### GAS USED UNDER LIME KILNS.

#### Innovation by Connecticut Company is a Success.

The New England Lime company, of Winsted, Conn., asserts that it is the first to introduce gas as fuel for lime burning. The method is producing a more intense heat, and consequently increases the capacity of the kilns. The daily output at the company's kilns is increased from 80 barrels per kiln to 100 barrels, or a total of 700 barrels daily.

### MORE THAN MONEY.

#### A Minister Talks About Grape-Nuts.

"My first stomach trouble began back in 1895," writes a minister in Neb., "resulting from hasty eating and eating too much. I found no relief from medicine and grew so bad that all food gave me great distress. "It was that sore, gnawing, hungry feeling in my stomach that was so distressing and I became a sick man. Grape-Nuts was recommended as a food that could be easily digested. "Leaving the old diet that had given me so much trouble, I began to eat Grape-Nuts with a little cream and sugar. The change effected in 24 hours was truly marvelous, and in a few weeks I was back to health again. "My work as a minister calls me away from home a great deal, and recently I drifted back to fat meat and indigestible foods, which put me again on the sick list. "So I went back to Grape-Nuts and cream and in four days I was put right again. The old dull headaches are gone, stomach comfortable, head clear, and it is a delight to pursue my studies and work. "Grape-Nuts food is worth more than money to me, and I hope this may induce some sufferer to follow the same course I have taken. Name given by Postum Co., Battle Creek, Mich. "There's a reason." Read the little book, "The Road to Wellville," in 3 pgs.

### COULD NOT KEEP UP.

#### Broken Down, Like Many Another Woman, with Exhausting Kidney Troubles.

Mrs. A. Taylor, of Wharton, N. J., says: "I had kidney trouble in its most painful and severe form, and the doctor prescribed for me a course through now seems to have been almost unbearable. I had back-ache, pains in the side and joints, dizzy spells and a hot, feverish headache. There were bearing-down pains, and the kidney secretions passed too frequently, and with a burning sensation. They showed sediment. I became discouraged, weak, languid, and my strength failed, and weak that I could not keep up. As doctors did not cure me I decided to try Doan's Kidney Pills, and with such success that my troubles were all gone after eight boxes, and my strength, ambition and general health is fine."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### Butler's Stolen Face.

The late Hon. Joseph Q. Hoyt, formerly of Boston, when a lad attended a circus and his silver watch was stolen. The supposed thief was arrested and was defended by Benjamin F. Butler, who proved he did not take the watch, and never was at the circus.

During the civil war Hoyt was introduced to Butler at a dinner at the Astor house, in New York, and the latter remarked: "This is the first time I have had the pleasure of meeting you."

"Oh, no!" said Hoyt, who then related the circus incident. "Was that you, Hoyt?" asked Butler, and, being answered in the affirmative, Butler remarked: "That was an awful good watch. Hoyt. That is all I got for defending the thief."

"A Remarkable Trip." Would you like to take a trip through the mountains by steamer? It sounds peculiar, does it not? Of course you have often read of traveling streams through mountains, or probably by a flat-bottomed boat of very limited dimensions. But to take a trip through the mountains in a big, comfortable, up-to-date steamer is an entirely different proposition.

If you have a desire for you to go farther than the Province of Quebec, for within that province is the River Saguenay, running through the Laurentian Mountains, and navigated by the fine, large steamers of the Richelieu & Ontario Navigation Company. It is now believed that this river was formed by a cleft in the Laurentian Mountains, caused probably by a gigantic earthquake. It certainly must have been all that could be desired in the way of earthquakes, for the Saguenay River is so deep that it is impossible to find bottom. Nature must have been in a very fanciful mood when she created the Saguenay, for this magnificent river embraces all the scenic grandeur for which one could possibly wish.

For Illustrated Guide, "Niagara to the Sea," send 6 cents postage to Thos. Henry, Traffic Manager, Richelieu & Ontario Navigation Co., Montreal, Can.

### Another Dig at Powers.

A few days ago Gov. Cobb, of Maine, was in politics in the same state, were together on a train. Mr. Pattangall is a lawyer and an editor, the writer of the humorous "Meddymops Letters" appearing in his paper, the Machias Union.

In the course of conversation, Gov. Cobb remarked to Mr. Pattangall: "I don't see why you and Llewellyn Powers should be so extremely antagonistic to each other. Neither of you ever falls to give the other a rap when there is opportunity." At this point an interested listener in the car leaned toward their chairs and asked: "Is it really true that ex-Gov. Powers is of Indian descent?" "Well, the Indians deny it," Mr. Pattangall answered, in his inimitable manner.

### DOCTOR CURED OF ECZEMA.

Maryland Physician Cures Himself—Dr. Fisher Says: "Cuticura Remedies Positively True Merit."

"My face was afflicted with eczema in the year 1897. I used the Cuticura Remedies, and was entirely cured. My physician, a specialist, and very often prescribe Cuticura Resolvent and Cuticura Soap in cases of eczema, and they have cured where other formulas have failed. I want to put in the words of a practicing physician, but when I find remedies possessing true merit, such as the Cuticura Remedies do, I am broad-minded enough to proclaim their virtues to the world. I have been practicing medicine for sixteen years, and must say I find your Remedies A No. 1. You are at liberty to publish this letter. G. M. Fisher, M. D., Big Pool, Md., May 24, 1905."

After a man has tickled three or four enterprisers and failed to succeed in any of them, he usually sets himself up as a pessimist.

Double track Chicago to Montreal and Niagara Falls, N. Y.

Rice Eaters. In China and its dependencies, with a population of 400,000,000, or 25 per cent of the total population of the world, rice is the principal food supply. The same may be said also of India, with its population of 275,000,000, and Japan, with its 40,000,000. In addition to rice, the chief articles of diet with other peoples of Asia and Africa, whose population is estimated at 100,000,000. The total reaches 815,000,000, or 50 per cent of the total population of the earth.—Boston Globe.

How Emperor William is Battling Against a Dangerous Heredity. Emperor William's father died of cancer of the throat. Emperor William himself had infantile paralysis.

It has been whispered that he himself is troubled with the same malady which carried off his father. Royal blood is unfortunately most generally deteriorated. Governor Allen knows this as well as anybody, and is doing his best to eradicate the taint from his name and his family by the adoption of simple life principles.

Through the visit of a countryman of his to Battle Creek, Michigan, while in this country, visiting the World's Fair in Chicago in 1893, Governor William became acquainted with the Battle Creek idea of simple living and has to a large extent adopted the methods in his family. His wife and children live the simple life and the Battle Creek right way. The wife, King Edward, also has these baths installed in his Windsor and Buckingham palaces for the use of himself and Queen Alexandra.

Among other things GOOD HEALTH, the oldest health journal in the world, tells about the Battle Creek idea and the simple life. Every number is brimful of up-to-date ideas. Sample copy 10 cents. One dollar a year.

If you will cut this out and send to GOOD HEALTH PUBLISHING CO., Battle Creek, Mich., with a quarter you will receive free this month's subscription to this handsome illustrated monthly health magazine. Write to-day.

### Striking Advice.

Mrs. Anxious (mother of two marriageable daughters)—Really, I don't know whether to send Grace and Elizabeth to the seashore or the mountains this summer. What do you advise? Mrs. Knowing—Well, I would advise Sulphur Springs for a change. Sulphur, you know, is one of the principal requisites for a matchmaking.

We want five, well-to-do, thoroughly experienced men to sell our first monthly supply of our Salem Soap. A salary made in every state and territory. Some with no experience. Some with no experience. Some with no experience. Some with no experience. Some with no experience.

### THE LAXATIVE OF KNOWN QUALITY

There are two classes of remedies; those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruity flavor. It is the remedy of all remedies to sweeten and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed people who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.
