

BRYAN TRIP IS ENDED

FINAL EVENT IN TOUR AROUND THE WORLD.

RECEPTION AT OLD HOME

Nonpartisan Celebration by Neighbors at Lincoln Marked by Sincere and Open-hearted Welcome Extended to Family.

Lincoln, Neb.—William Jennings Bryan returned Wednesday evening to his Lincoln home, and his "home folks" welcomed him with every evidence of approval and satisfaction. It was a neighborly welcome, planned as such, and carried out in its entirety with the understanding that Lincoln has more Republicans than Democrats, and Mr. Bryan has in the past good-humoredly expressed the belief that it would be a task to reform the city politics, and there was no line of partisan division, and the welcome extended to both Mr. and Mrs. Bryan was sincere and open-hearted.

Everybody showed good nature; nobody wanted to quarrel about politics, and nearly the whole population showed that it was genuinely glad that so well-known a man as Mr. Bryan lived here.

It is doubtful whether Lincoln ever held a larger crowd. The weather, barring the heat, was as nearly perfect as it could be; it was a half holiday in the city, and the train from over the state arrived loaded down, bringing not only Nebraska people, but many from nearby states. The city was handsomely decorated for the homecoming, and the business houses being a mass of flags and bunting, while in the residence districts lithographs of Mr. Bryan in the windows, together with the national colors, were everywhere seen. The nonpartisan nature of the reception was emphasized in every way possible.

GIRL'S HAIR CAUGHT IN BELT

Young Woman's Scalp Dragged From Head by Shafting.

Minneapolis, Minn.—As a result of her hair being caught in the shafting of one of the sewing machines at the Bemis Bag company's factory, Annie Shuman, 22 years old, is now in the hospital with her left ear and the entire scalp torn.

Little is known of the accident, further than that the girl was taken sick and lay down on a bench with her head within a few inches of the shafting.

In some way her hair became entangled in the machinery and the girl was dragged from her place on the bench. She was literally scalped alive in the presence of scores of the other employees of the place, none of whom were able to help her.

After consultation at the hospital, it was decided to make the attempt to graft the scalp back on her head, and the necessary operation was performed.

MAY END THE CUBAN REBELLION

Effort Being Made to Secure Agreement With Insurgents.

Havana.—Peace is in the air, and on all sides there is hope that matters will be arranged between the government and the insurgents so as to avoid further bloodshed. However, there has been no tangible advance towards an agreement or to a definite arrangement of a basis for negotiation. In the meantime fighting has been practically suspended. Delegates informally chosen by a small group of veterans started Wednesday to arrange for the Geneva, Col. Asbert, Gen. Guzman and others of the insurgent leaders, with the purpose of learning what will be acceptable to the actual fighting leaders of the revolution. A similar committee started for Cienfuegos to consult under a flag of truce with the insurgent leaders in Santa Clara province.

American Boats First

Marblehead, Mass.—Three American boats sailed across the finish line in Wednesday's race for the Roosevelt cup well in advance of the government challengers. The Vim, designed by William Gardner and owned by Commander T. L. Park, of the American Yacht club, of New York, won the contest through her brilliant windward work, coupled with splendid running qualities. Clifford Buckman, her amateur skipper, led the craft perfectly the second time over the course, although he lost during the first time by taking a long hitch in shore with the tide.

Force Food on Fanatics.

Winnipeg, Man.—Fourteen Doukhobors confined in the Regina jail absolutely refuse to eat. The mounted police are compelled to force food through their teeth by scientific means.

Peace Day Observed.

Portsmouth, N. H.—"Peace day," the first anniversary of the signing of the treaty of Portsmouth, which ended the war between Russia and Japan, was observed here Wednesday. All the bells of the city were rung.

Texas Fever in Missouri.

Trenton, Mo.—Dr. Sheldon, state veterinarian, has discovered Texas fever in a herd of cattle near here. Three cows have died from the disease, which was brought here by a drove of western horses.

North Dakota Solves the Adulteration Problem.

North Dakota seems to have found the key to the question, "How shall we protect the people from frauds in manufactured products?" A new law has recently gone into effect designed to make it impossible to deceive people into buying inferior and adulterated paint under the impression that they are getting lead-paint, viz: pure white lead and linseed oil.

The North Dakota lawmakers did not attempt to absolutely prohibit the inferior pigments, or mixtures of pigments. They adopted the slogan, "Let the oil tell," and then left to the people to buy whichever they wished. Under this plan, if any one wishes to buy a mixture of rock-dust, ground quartz or other cheap elements which are found in many paints and so-called "white leads," no one can object; for they do it with their eyes open. But if they prefer genuine white lead and linseed oil, they can be sure of getting it, for none but the genuine article can bear a label which says "pure white lead."

It would seem that were this same principle applied to food, beverages and all other prepared articles, where deception is practiced upon the buyer, the question would be solved. It would leave us free to buy what we pleased, but would protect us from unwittingly buying what we did not want.

Cruising for Derelicts.

The excellent work in destroying a dangerous derelict last week, begun by the Tacoma and completed by the Columbia, gives renewed point to the suggestion hitherto made in these columns that vessels of the navies of the world might with peculiar profit be employed in tracking and destroying the abandoned hulks which dot the seas and which present one of the one of the most serious dangers to navigation, says the New York Tribune. Of the need that derelicts should be destroyed as speedily as possible there can be no question. Many known accidents and disasters have been due to the fact that there is reason for supposing that many, perhaps most, of the mysterious disappearances of vessels might truly be explained on the ground that they had come into collision with those wandering derelicts. Carrying no lights, making no noise, giving no signal of any kind, often lying so low in the water as to be scarcely perceptible, and heavy and solid almost against which a vessel could scarcely be guarded in the dark and collision with which is always serious and often disastrous.

WORN TO A SKELETON.

A Wonderful Restoration Caused a Sensation in a Pennsylvania Town.

Mrs. Charles N. Preston, of Elkland, Pa., says: "Three ago I found that my housework was becoming a burden. I tired easily, had no ambition and was fading fast. My complexion got yellow, and I lost over 50 pounds. My throat was so terrible and there was sugar in the kidney secretions. My doctor kept me on a strict diet, but as my medicine was not helping me, I began using Dean's Kidney Pills. They helped me at once, and soon all traces of sugar disappeared. I have regained my former weight and am perfectly well."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Deadly New Rifle.

Bullets from the new .30-caliber rifles of the United States army whirl with great rapidity. The rifling gives one revolution of the bullet about its axis in ten inches. At the muzzle the velocity of the bullet is 2,300 feet a second, which means 2,760 turns a second, assuming that the bullet does not strip in the rifling. The circumference of the bullet is .345 of an inch, which gives a peripheral velocity of 2,600 inches each second, or 13,000 feet a minute.

To keep your auto looking bright use the following mixture for all painted parts: Sperm oil, one-half pint; common vinegar, one-half pint; oil bertram, one dram. Mix and rub with clean cloth. For all brass work use trippol, one and one-half pounds; any lubricating oil, eight ounces; gasoline, three quarts. This is one of the best cleansers for all painted brass.

If you contemplate buying a medium priced automobile and want to be certain of securing a car suitable for touring on country roads, up hill as well as down hill, you will make no mistake in buying either a Buick, Maxwell, Mitchell, Rex, Knox, Franklin or Oldsmobile. These range in price from \$750 to \$2,000.

Long Journey for Pleasure.

Justus Miles Foreman has left New York for an extended journey, the itinerary of which includes Australia, New Zealand and the South Sea islands, and which is undertaken, he said, not to gain new literary material, but solely because he wants to play a little.

A woman willingly promises to obey a man at the altar, but she's apt to forget to deliver the goods.

Lewis' Single Dealer Clear has a rich taste. Your dealer is Lewis' Factory, Peoria, Ill.

A poor man isn't necessarily a cheap man.

All Chemically Pure.

The mistaken idea of a few years ago, about Alum in Baking Powders being injurious, no longer prevails, or scarcely exists. It is a well established fact by chemical analysis that Cream of Tartar being less volatile than Alum, when exposed to heat, is not entirely evaporated in the case with Alum, but leaves a residue in bread, which is injurious. Alum, on the contrary, is entirely evaporated while performing its function during process of baking, leaving no atom of injurious residuous substance. The words "Chemically Pure" erroneously used to designate Cream of Tartar from Alum baking powder is a misnomer. Baking Powder made from Alum is as chemically pure as made from pure cream of tartar. These words mean nothing more nor less than pure chemicals, and in no way can they imply that one baking powder is Alum and another Cream of Tartar. Alum has been declared to be wholesome; an established fact. Every large water system in the cities along the Missouri river use Alum in large quantities to purify the water before pumping it into their water towers for consumption. Cream of Tartar baking powder is perhaps good for powder for any one; Alum baking powder is better, and very much cheaper.

False Alarm.

From the valley there came a cloud of dust and a distant rumble. The man of the stone age rushed up the mountain and perched himself on the highest peak.

"Shucks!" exclaimed the fugitive, as he slipped down to the valley again. "It is only a poor dinosaur running about for his breakfast. From the noise I thought it must be an automobile."

And the man went back to his peaceful occupation of heaving an apartment house out of a solid cliff.

Superb Service, Splendid Scenery en route to Niagara Falls, Muskoka and Kawartha Lakes, Georgian Bay and Temagami Region, St. Lawrence River and Rapids, Thousand Islands, Algonquin National Park, White Mountains and Atlantic Sea Coast resorts, via Grand Trunk Railway System. Double track Chicago to Montreal and Niagara Falls, N. Y.

For copies of tourist publications and descriptive pamphlets apply to Geo. W. Vaux, A. G. P. & T. A., 135 Adams St., Chicago.

Sympathy Led to Life Work.

Prof. Edward Perkins Clarke, the newly-appointed principal of the Central New York institution of deaf mutes, was led to make the profession of teaching the deaf his life's work owing to the fact that both his parents were deaf.

FITTS, St. Vitis Danse and all Nervous Disorders, pronouncedly cured by Dr. Kline's Great Nerve Restorer. Send For Free \$2.00 mail order and treatise. Dr. H. H. Kline, 181 Arch St., Philadelphia, Pa.

Although the rolling stone gathers no moss the high roller scatters a lot of it.

Smokers have to call for Lewis' Single Binder cigar to get it. Your dealer is Lewis' Factory, Peoria, Ill.

Mice and conclusions are not synonymous, yet women jump at both.

Mrs. Winslow's Soothing Syrup. For children teething, cures wind colic, soothes the stomach, always palatable, cures wind colic. See bottle.

It's unsafe to bury the dead past—better cremate it.

WILD WITH ITCHING HUMOR.

Eruption Broke Out in Spots All Over Body—Cured at Expense of Only \$1.25—Thanks Cured.

"The Cuticura Remedies cured me of my skin disease, and I am very thankful to you. My trouble was eruption of the skin, which broke out in spots all over my body, and caused a continual itching which nearly drove me wild at times. I got medicine of a doctor, but it did not cure me, and when I saw in a paper your ad, I sent you for the Cuticura book and I studied my case in it. I then went to the drug store and bought one cake of Cuticura Soap, one box of Cuticura Ointment and one vial of Cuticura Pills. From the first application I received relief. I used the first set and two extra cakes of Cuticura Soap, and was completely cured. I had suffered for two years, and I again thank Cuticura for my cure. Claude N. Johnson, Maple Grove Farm, R. F. D. 2, Walnut, Kan., June 15, 1905."

Eugenie's Mission to Austria.

The Paris papers still insist that Empress Eugenie went to Lechl on a match-making errand. She wishes, it is said, the hand of a granddaughters of Francis Joseph for Princess Louis Napoleon.

We can generally avoid a lot of trouble by not saying what we think.

PITMAN FADELESS DYES, are fast to light and washing and color more goods than others. 10c Per Package.

European Nations in Africa.

Of Africa's area of 11,500,000 square miles, Great Britain owns 2,700,000 and France 2,800,000, including Madagascar.

THE BEST COUGH CURE

We handle all 800,000 contracts direct with customers. Write for particulars. LAMSON BROS. & CO., 503 Board of Trade, Chicago.

THE WINNING STROKE

If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well considering in making purchases.

It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists, and that full name of the company—California Fig Syrup Co., is plainly printed on the front of every package. Regular price, 50c per bottle.

CALIFORNIA FIG SYRUP CO.

San Francisco, Cal. New York, N.Y. Louisville, Ky.
