**Attendance at Leipzig Fair.**  
At the Leipzig fair of 1906, the number of firms represented as buyers was 1,880, as against 1,105 in 1905 and 7,424 in 1903; an increase of over 31 per cent during the last three years. The United States and Canada were represented by 114 buyers, while Latin America, Asia and Europe were also well represented. The official list of sellers this year shows that 3,275 firms had exhibits, as against 3,101 in 1905. The countries represented, and the number of firms from each, were as follows: Germany, 2,561; Austria-Hungary, 228; France, 40; Great Britain, 12; Netherlands, 13; Switzerland, 6; Italy, 5; Belgium, 4; Denmark, 2; Sweden, 2; and the United States, 1.

"Now, I am ready, how do I look dear?" "You remind me of a Sioux in his war paint." "Oh, you nasty thing, you—" "Don't cry, darling; I only meant you were dressed to kill."—Baltimore American.

**HOW DEBILITY SHOWS**

**And Why Dr. Williams' Pink Pills Are Specific for Dangerous Physical Declines.**  
The symptoms of general debility vary according to the cause but weakness is always present, a tendency to perspire and fatigue easily, ringing in the ears, sometimes black spots passing before the eyes, weak back, vertigo, wakefulness caused by inability to stop thinking, and unrefreshing sleep. The cause of the trouble may be some drain on the system or it may be mental or physical overwork, sometimes insufficient nutrition due to digestive disturbance. In the latter case the physician recommends a coated tongue as well as general languor and debility.  
Miss Lela M. Metzger, a stenographer, living at 71 Mill Street, Watertown, N. Y., suffered for over a year from general debility. "It was caused by overstudy," she says, "and I had no ambition, didn't want to go anywhere, my food didn't taste good, I was run down, lifeless and listless. I took medicines but they failed to help me. Finally friends recommended Dr. Williams' Pink Pills for my mother and she got some for me. I took them for some time and was entirely cured and have had no return of the trouble."  
Dr. Williams' Pink Pills cure debility because they actually make new, rich blood, and as the blood carries nourishment to all the organs and tissues of the body, nerves as well as muscles, the new blood stimulates the organs to do the work that nature expects of them and normal health follows. Not only is this treatment effective to cure debility but many severe nervous disorders as well.  
The pills are sold by all druggists, or will be sent postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams' Medicine Co., Schenectady, N. Y. Send for free diet book.

**PRESIDENT AT COLON**

**STARTS TOUR OF INSPECTION OF WORK ON CANAL. BANQUET IN THE PALACE**  
Executive of Panama Entertains Guest in Royal Style, While Reception is Held for Mrs. Roosevelt by Mme. Amador.

Colon.—The first trip of an American president outside of the boundaries of the United States was successfully concluded Wednesday afternoon at half-past one when the battleship Louisiana, having on board President Roosevelt and his party, dropped anchor in the harbor of Colon.

President Roosevelt during his tour of inspection will be the center of an extensive programme of official entertainments.  
At Colon a procession of government officials and prominent citizens, escorted by 200 young men mounted, proceeded from the cathedral to the Tivoli hotel and received President Roosevelt. From there the party started for Panama, with a mounted escort in advance, proceeding in the carriage of President Roosevelt and Amador and the rest of the procession, which proceeded to the government palace. The party stopped in front of the cathedral where the two presidents, from which President Amador delivered an address of welcome.

After his speech all the school children of the capital paraded in front of the platform singing the national anthem. The same ceremony was observed in escorting President Roosevelt back to the hotel.  
President Amador entertained President Roosevelt at dinner in the palace, and from the balcony of the palace President Roosevelt witnessed a display of fireworks in the bay. President Amador and his wife held a reception in honor of President Roosevelt and Mrs. Roosevelt at the Commercial club.

**INDICTS JOHN D. ROCKEFELLER**  
Violation of Ohio Anti-Trust Law Basis of Bills.

Findlay, O.—The grand jury Wednesday found indictments against John D. Rockefeller and four other persons in connection with the Standard Oil inquiry which was reopened upon the reconviction of that body in adjourned session Tuesday.  
What the indictments allege or what the four other defendants in addition to Mr. Rockefeller are was not given out by prosecutor Davis, who, however, admitted the indictments had been returned.

The bench warrants issued upon the indictments were placed in the hands of Sheriff Groves, who was to Cleveland, where it is supposed they are to be served.

It is understood the indictments charge the defendants with having continued to restrain the production of oil at six prices on and after July 7, 1906, in violation of the Valentine anti-trust act, a state law under which the recent prosecution of the Standard Oil company in this country was conducted, and in which a fine of \$5,000 was imposed by the probate court.

**COUNT BONI BEATEN IN COURT**

Anna Gould is Divorced from Extravagant Husband.

Paris.—The tribunal of first instance of the Seine judge Ditté presiding, at noon Wednesday granted a divorce to Countess De Castellane (formerly Anna Gould, of New York), and gave her the custody of her children, who, however, will not be allowed to be taken from France without the consent of their father, Count Boni De Castellane. The end of the famous case came suddenly. The court brushed aside the demand for an allowance of \$50,000 annually, was pronounced by the court to be without foundation in law, and was read.

**Mother and Children Burn.**

Coldwater, Mich.—Mrs. Charles Mowry, aged 21, and her three children, Homer, aged six years; Louise, aged three years, and a baby of six months, were burned to death early Wednesday in their home on a farm near Batavia Station, six miles southwest of this city on the Lake Shore railroad.

**Three Dies in Burning Tent.**

New York.—Three lives were lost in a fire which destroyed several tents occupied by negroes. Two children, Frank and Susan Doran, who had been locked in their home by their parents, were burned to death.

**Planting Mills Burned.**

Peoria, Ill.—The planting mills of the Washfield Manufacturing company burned to the ground here early Wednesday morning, destroying a value of \$60,000, nearly covered by insurance. The plant will be rebuilt.

**JOLLET WANTS WORKMEN.**

All Kinds of Help, Men and Women. Wanted in Her New Factories.  
If you want a good position in one of the mills or factories of Jollet, now is the time to apply. There is abundant property for all in that Illinois city of 45,000 people. It has grown to be a great manufacturing center, and business is lively the year round. More than 100 important industries employ 30,000 people, both men and women. Old concerns are enlarging, and new ones are being established, so that thousands more are wanted to help do the work. Men of all trades, men without trades, and women for work suited to them, are wanted.

Jollet is a public-spirited, go-ahead city, and a very attractive place to live in. It has many prosperous churches, four public parks, four theaters, a very fine public library costing \$150,000, one of the very finest high schools in the United States, and over 30 other schools; banks, home-building associations, clubs and social organizations; a conservatory of music, and all that goes to make up a wide-awake, modern city. These all are to be considered for a home.

Steady employment is the foundation of individual prosperity, and few places can hold out such attractive inducements as Jollet. It has long been known as the best labor market near Chicago. It is better than Chicago, because one may live near his work, and save time, as well as money, while wages are just as high. Living is as inexpensive as anywhere, because supplies may be purchased direct from farmers. About 1,500 farmers sell their produce in Jollet.

The American Refractories Co., of Jollet, has just brought 65 more men from Pittsburg, and will soon add 150 more. The American Steel & Wire Co. employs over 2,000 hands, and wants more. The Western Car & Foundry Co. is putting on 600 hands. The Jollet Malleable Iron Co. has increased its works three-fold. The Jollet steel works employs 3,500 hands, making 600 tons of steel a day, having just spent \$1,250,000 on a new blast furnace. Three million dollars are being spent in track elevation.

Jollet is at the southern end of the Chicago drainage canal, an open channel for vessels of the great lakes, and the ship canal to the Mississippi passes through that city. Forty thousand horsepower is being developed at the end of the drainage canal, while other great power plants are contemplated. Thirty trains run daily each way between Chicago and Jollet.

Fine opportunities exist in Jollet for business of all kinds. Cheap coal and the best railroad facilities are at the bottom of Jollet's great industrial prosperity, and any person who wants to make a change in his fortunes should go to the city. Write to the Citizens Alliance of Jollet for additional information.

**Size of Heads.**

The average adult head has a circumference of fully 22 inches. The average adult hat is fully 6 1/2 size. The sizes of men's hats are 6 1/2 and 6 3/4 generally. "Sensational" hats are common for our colleges generally wear 7 1/2 to 8 sizes.

Heads wearing hats of the sizes 6 1/2 and smaller, or being less than 21 inches in circumference, can never be powerful. Between 19 and 20 inches in circumference heads are invariably weak, and according to this authority, "no lady should think of marrying a man with a head less than 20 inches in circumference."

People with heads under 19 inches are mentally deficient, and with heads under 18 inches "invariably idiotic."—Young Woman.

**Marion Harland.**

The celebrated author, so highly esteemed by the women of America, says on pages 103 and 445 of her book, "Eve's Daughters; or, Common Sense for Maid, Wife and Mother":  
"For the aching back—should it be slow in recovering its normal strength—an Allcock's Plaster is an excellent comforter, combining the sensation of the sustained pressure of a strong warm hand with certain tonic qualities developed in the wearing. It should be kept over the seat of obstinate cases, for perhaps a fortnight."

"For pain in the back wear an Allcock's Plaster constantly, renewing as it wears off. This is an invaluable support when the weight on the small of the back becomes heavy and the aching incessant."

Women who kiss each other are often guilty of counterfeiting.

World's Gold Production.  
In the last 500 years over twelve billion dollars' worth of gold is estimated to have been dug from the earth. Not much more than one-half of this is definitely known to be in existence in the monetary stocks of the globe. Of this, however, the United States is believed to hold from a billion and a quarter to a billion and a half.

Superb Service, Splendid Scenery en route to Niagara Falls, Muskoka and Kawartha Lakes, Georgian Bay and Temagami Region, St. Lawrence River, and Rapids, Thousand Islands, Algonquin National Park, White Mountains and Atlantic Sea Coast resorts, via Grand Trunk Railway System. Wouldn't Fit.  
Some visitors from the north attended service at a colored church in Alabama and were much amused when the good old preacher referred to John I. and John II. as "John with one eye and John with two eyes!"  
But when he gave out a hymn beginning "Purge Me with Hyssop," there was consternation in the choir and great fumbling around for a tune to fit the words. At last the leading chorister addressed the preacher: "Say, Brother Johnnie, won't you please try some odder yarb?"—Lippincott's.

**Year's Tea Production.**

The total exports of tea from India during the year ended April 30, 1906, amounted to 214,198,943 pounds, valued at \$23,294,526. The shipments to the United Kingdom were 106,004,000 pounds; Canada, 18,019,000 pounds; Russia, 9,991,000 pounds; Australia, 7,746 pounds; Turkey and Asia, 3,464 pounds; the United States, 2,185,000 pounds; Persia, 1,091,000 pounds, and to all other countries, 8,084,000 pounds. All these countries, except the United States and Persia, increased their purchases over 1905. The trade with the United States decreased 9.7 per cent, and that with Persia 55.5 per cent.

**THE LAXATIVE OF KNOWN QUALITY**  
There are two classes of remedies: those of known quality and which are permanently beneficial in effect, acting gently, in harmony with nature, when nature needs assistance; and another class, composed of preparations of unknown, uncertain and inferior character, acting temporarily, but injuriously, as a result of forcing the natural functions unnecessarily. One of the most exceptional of the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., which represents the active principles of plants, known to act most beneficially, in a pleasant syrup, in which the wholesome Californian blue figs are used to contribute their rich, yet delicate, fruit flavor. It is the remedy of all remedies to soothe and refresh and cleanse the system gently and naturally, and to assist one in overcoming constipation and the many ills resulting therefrom. Its active principles and quality are known to physicians generally, and the remedy has therefore met with their approval, as well as with the favor of many millions of well informed persons who know of their own personal knowledge and from actual experience that it is a most excellent laxative remedy. We do not claim that it will cure all manner of ills, but recommend it for what it really represents, a laxative remedy of known quality and excellence, containing nothing of an objectionable or injurious character.  
There are two classes of purchasers: those who are informed as to the quality of what they buy and the reasons for the excellence of articles of exceptional merit, and who do not lack courage to go elsewhere when a dealer offers an imitation of any well known article; but, unfortunately, there are some people who do not know, and who allow themselves to be imposed upon. They cannot expect its beneficial effects if they do not get the genuine remedy.  
To the credit of the druggists of the United States it is said that nearly all of them value their reputation for professional integrity and the good will of their customers too highly to offer imitations of the

**Genuine—Syrup of Figs**  
manufactured by the California Fig Syrup Co. and in order to buy the genuine article and to get its beneficial effects, one has only to note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package. Price, 50c per bottle. One size only.
