Our Motto: Reasonable Prices and Prompt Service

An Engine Without An Engineer.

An I. H. C. Gasoline Engine
does not require an engineer to run it. It is so simple and practical in construction that it requires very little attention and is easily operated by anyone.
An I. H. C. Gasoline Engine
runs smoothly and produces more power than rated. It is very economical in the use of fuel, consuming less per horse power than any other engine of the same rated capacity.
An I. H. C. Gasoline Engine
is a wise investment. It saves time and money, and increases your profit as a result of the increased production. No progressive farmer can afford to be without an I. H. C. engine. There is one to fit your special need.
Made in the following styles and sizes:
Vertical—2, 3 and 5 horse power.
Horizontal—4, 6, 8, 10, 12 and 15 horse power.
Portable—4, 6, 8, 10, 12 and 15 horse power.
Call and examine an I. H. C. gasoline engine and see for yourself the merits of this engine.
We also handle a full line of Deering Mowers and Binders and Weber Wagons, in fact everything the farmer wants on the farm. Call and examine our stock and be convinced that we are up-to-date implement dealers.
