

The Way of It.
 Knocker-Jones used to be a cutter.
 Knocker—is still. He has quit cutting.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take. Do not grip.

It sometimes happens that a man who talks like a book is a plagiarist.

PILLS CURED IN 6 TO 10 DAYS.
 Pills will cure in 6 to 10 days. Pills will cure in 6 to 10 days. Pills will cure in 6 to 10 days.

He is a brave man who will face the parson with a short-haired woman.

SAVED FROM AN OPERATION

How Mrs. Reed of Peoria, Ill., Escaped The Surgeon's Knife.

Peoria, Ill.—"I wish to let every one know that Lydia E. Pinkham's Vegetable Compound has done for me what I suffered. The doctor said I had a tumor and the only remedy was the surgeon's knife. My mother bought me Lydia E. Pinkham's Vegetable Compound, and today I am a well and healthy woman. For months I was afflicted from inflammation, and your Santal Wash relieved me. I am glad to tell anyone what your medicine has done for me. You can use my testimonial in any way you wish, and I will be glad to answer letters."—Mrs. Christina Reed, 100 Mount St., Peoria, Ill.

Mrs. Lynch Also Avoided Operation.
 Jessup, Pa.—"After the birth of my fourth child, I had severe acute inflammation. I would have much terrible pain that did not seem as though I could stand it. This kept up for three long months, until two doctors decided that an operation was needed. Then one of my friends recommended Lydia E. Pinkham's Vegetable Compound, and after taking it for two months I was a well woman."—Mrs. Jennetta A. Lynch, Jessup, Pa.

"Women who suffer from female ailments try Lydia E. Pinkham's Vegetable Compound, one of the most scientific remedies the world has ever known. When submitting to a surgical operation."

La Salle Auto Sales Co.
 ALL CARS GUARANTEED
 WE merit the patronage and confidence of people who want good cars at low prices, but don't want junk or sharp trading at any price. Every car offered is not only overhauled by experts and placed in fine running condition, but is sold with a written guarantee which will hold water.

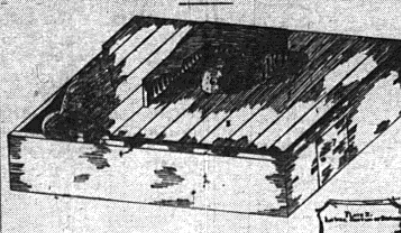

It's a new way of dealing, and one that is making a success. The next best thing to owning a brand new car is to own a La Salle guaranteed car. Write us Today We may have just the car you are looking for. Write us your preference—seating capacity, kind of body, etc. We will tell you frankly whether we have a car we can recommend to you. If we have, the price will be right, and you can deal with us satisfactorily, no matter where you live. Our stock includes many of the most famous cars in America. Please remember every car is guaranteed as represented. We are a corporation with paid up capital, in business to stay. Address LA SALLE AUTO SALES CO., 2031 Michigan Blvd., CHICAGO.

HOW TO BUILD A SATISFACTORY AND CHEAP BROODER FOR LITTLE CHICKS

1. Base of brooder, made of inch boards, 18 inches wide.
2. Sheet of galvanized iron 3d feet.
3. Strip 1st inch wide, 18 inches long.
4. 18 inch 1x2 boards, about three on two opposite sides.
5. The 1st part, holes punched in bottom and sides and fitted into a hole in pine flooring.
6. Hoop for lamp, 18 inch inches on legs 6 inches high.

By D. O. BARTO, University of Illinois.
 Even more important than the correct housing of laying hens and the brooding flock is the proper brooding of little chickens. For no matter how good the stock is or how strong the vitality of the chicks when hatched, if they do not have right conditions in their brooding they will either die, or worse, develop into weak, unprofitable fowls.
 The number of inquiries which the writer receives about the selection of sites for chickens is the principal thing to be mastered in the poultry business. This is a mistake idea. Any one can learn to hatch chickens with almost any kind of an incubator, but it will take care and skill to keep them alive and thriving until they are four or five weeks old. After that age it is easier sailing.
 There are at many different kinds of brooders on the market as there are incubators, and many of them are high-priced. The capital invested in brooders in many poultry plants is the heaviest single item in the business and this tempts many poultry raisers to try to economize by repeatedly shifting the chicks from the brooder in which they were started into some makeshift one which is worse than the first one. The conditions are so different from what they had become accustomed to that the change proves disastrous to them. It is better, when possible, to allow the chicks to remain for the first three months of their lives, at least, in the brooder in which they were raised.
 In the selection of a brooder there are a few essentials that must not be overlooked. The features that I believe are indispensable in a brooder are:
 1. Abundant supply of fresh air at all times. 2. Ability to furnish plenty of heat when needed.

...or any strong-heating lamp will be all that is needed for heating. Keep the floor of the brooder covered thickly enough with loose material, such as, sand, or fine soil, to prevent the floor from becoming too warm for the chicks. I keep a thick layer of clean in the rear and under the hooper and sand in front where the little ones are fed.
 A brooder of this sort can be built for 100 chicks easily. By placing a middle section, 16 inches wide, between the upper and lower parts, the brooder will be capacious enough to house the chickens during the whole season, and no other colony house need be provided.

1. Side of top, 12 inch in front, 6 inch in back.
2. Hoop for lamp should be shown in other end of base; the size for 18 inches from rear, leaving front end for feeding and exercise.
3. Hoop for chicks to pass.
4. Hoop.
5. Hoop for lamp should be shown in other end of base; the size for 18 inches from rear, leaving front end for feeding and exercise.

Facts About Borghum.
 There are several varieties of sorghum and when it is grown well, it makes a good roughage. It is sown thickly and cut and cared as hay. It is not sown thickly, it becomes coarse with a hard, woody covering to the stem. It is delicate when small and slow in starting but grows rapidly later and yields well. It is sometimes used as silage, but this is not advisable when corn can be grown well. Sorghum is also low in protein and must be fed with concentrates high in protein. It should be cut after the heads are well formed but before ripe. Sometimes stunted sorghum or the second growth is fatal to cattle, hence it should be fed with care.

HER WELL-MERITED REPROOF

Rebuke of Boston Teacher Must Almost Have Broken the Heart of Little Sammy Parker.

A well-known educator tells of a school of advanced ideas in Boston, wherein no pupil is ever punished in any way, the individuality of every child being held too sacred for repression.

One day, it appears, soon after her entrance into this school, one little girl came home with a face wet with tears and her mouth covered with blood.

The mother was greatly alarmed, and, taking the child into her arms, asked what had happened.

The answer, naturally enough, was sobbed out in the sympathetic mother, One Sammy Parker, it seemed, had struck the little girl and knocked out a couple of teeth.

When the unfortunate youngster had been restored to equality her father, who had in the meantime put in the afternoon naturally enough, was so told to know how the teacher had dealt with Sammy.

"She didn't do anything," "Well, what did she say?" "She called Sammy to her desk and said: 'Samuel, don't you know that not every antisocial'—Harpur's Magazine.

CHILD'S HEAD A MASS OF HUMOR

"I think the Cutoffs remedies are the best remedy for eczema I have ever heard of. My mother had a child who had a rash on his head when it was real young. Doctor called it baby rash. I got out a medicine, but it did not do good. In a few days the head was a solid mass, a running sore. It was awful, the child cried continually. We had to hold him and watch him to keep him from scratching the sore. His suffering was dreadful. At last I got out Cutoffs Remedies. We got a dollar bottle of Cutoffs Ointment, and used it before the eczema. This is the best I ever used. We gave the Remedial as directed, washed the head with the Cutoffs Soap, and applied the Cutoffs Ointment. We had no more trouble. The eczema was clear and free from eczema, and it has never come back again. His hair was healthy and he had a beautiful head of hair. I think the Cutoffs makes the hair grow and prevents falling hair." (Signed) Mrs. Francis Land, Plain City, Utah, Sept. 13, 1910.

Although Cutoffs Soap and Ointment are sold everywhere, a sample of each, with 25-page book, will be mailed free on application to "Cutoffs," Dept. L, Boston.

A Painful Occasion.

"What is the trouble next door?" "Little Sammy has eczema; is giving a coming out hair!" "A coming out hair? I don't understand." "The father has just released him after a short session in the wood shed."

Stop the Pain.

The heart of a burn or a cut stops when Ointment is applied. It makes it so easy and prevents scars. Use it for all burns and cuts. Ointment is sold by A. J. Cole & Co., Blank River Park, Wis.

A man's nature runs either to herbs or woods; therefore let him seasonably water the one and destroy the other.—Bacon.
