Sign of a Modern House

Get a List and check off the houses that are described as "Electric lighted" if you want a modern house.

"Electric lighted" means a great deal more than it says, for the same wires that carry the lighting current furnish current for ironing, sewing, washing, vacuum cleaning, massaging, ventilation and for many other purposes.

A few cents per week added to your lighting bill, will work wonders in lightening the domestic burden.

The UP-TO-DATE SILO

must preserve the ensilage perfectly right up to the walls; should be convenient, strong, pleasing in appearance, and so durable as to require no attention and expense for adjustment and repairs. The cost is only a trifle more than a cheap wood silo and in a few years more money is required for paint and repairs of a wood silo than would make up the difference. When the wood silo is no longer of any value the IMPERISHABLE will stand like a tower of granite.
