## NEW SCHOOL HOLIDAYS

State Superintendent Recommends Three New Special Program Days.

F. G. Blair, state superintendent of schools has recommended the inauguration of three new school holidays—days on which special programs will be prepared, not days for the dismissal of school. They are as follows:

Coro Day, the first Friday in November. This day is intended more especially for the country and village schools, but there is a reason to believe that it can be observed with great profit by all schools. It is the plan to have published each year a coro day annual, placing in convenient form material for use by teachers and pupils.

Fire Prevention Day, the first Friday in December. The state fire marshal has agreed to prepare a circular containing interesting and trustworthy information on fire losses and fire prevention. This circular is intended to supply superintendents and teachers with subjects and materials for preparing a fire prevention program.

Good Roads Day, the first Friday in March. Here is a practical, every-day subject. It confronts us every day in our farms, merchandise, backyards, engineers, citizens and experts have been discussing the matter for many years. We have arrived at many simple and sane conclusions. What is needed now is to secure a wider and deeper interest in applying these conclusions. Settlement will be a large factor in making better highways. It is believed that these special programs will spread this information and create sentiment and interest.

The state highway commissioner will collect and arrange interesting and instructive material for teachers and pupils to use in preparing the program.

In a recent circular Mr. Blair says: "We now have enough holidays on which the schools are dismissed. It is a question whether we have enough holidays for which special programs are prepared." With the disappearance of the old Friday afternoon sessions and the literary and debating societies there seems a real need and demand for some sort of a substitute.

will move to Montana the first of the year.

The members of the Annis club of the Methodist church held their first meeting with Miss Stella Harnden on Thursday evening October 3. Miss Stella Harnden was elected president; Edith Kilgus was secretary and Miss Stella Harnden, treasurer. After the business was transacted the girls indulged in fancy work, chatting and delicious refreshments.

Mr. and Mrs. W. W. Welch of Chicago visited friends here last evening. Mr. Welch will be remembered as having conducted a meat market here some years ago.

The Royal Neighbors will entertain the members of Cary and Crystal Lake lodges at their ball in this village next Tuesday evening, October 22.

Edward Spolkenberg, a brakeman for the C. & N.-W. railway on a Dan Plains young lady this evening.

Miss Eleanor Todd of Pomona, California, who has been visiting relatives at Maywood, left the last week with Harrington friends.

Mrs. Chris Sobos of Waverly, Iowa, visited here from Monday until Wednesday with her cousin, Mrs. H. J. Lagaschule.

H. J. Lagaschule left Tuesday evening on a business trip to Lyons, North Dakota, and will be gone 10 or 15 days.

Miss Jennie McElroy returned last week from a two weeks' visit with a brother who lives near East St. Louis.

Under the law ordinary stamps cannot be used for this purpose.

The special parcels post stamps will be larger than the ordinary stamps and will be so distinctive in color and design as to prevent any possible confusion, with stamps now in use. The stamps will be ready for distribution December 1.

## BOARD IN SPECIAL MEETINGS

Trustees Hold Short Special Session at the Village Hall Monday Evening.

The board of trustees of the village of Barrington met in a short special session at the village hall Monday evening to hear the report of Civil Engineer Stone in regard to work done on the sewage tank and sewer system on certain streets and other business which had to be removed before the next regular meeting.

Mr. Stone reported that A. M. Lanyon, the contractor who has the sewer construction in charge, was entitled to \$2,000 for material and work to date, and upon motion by Trustee Martin, the village clerk instructed to issue an order for this amount.

Members of the board inspected the sewer work last Thursday and instructed that some changes be made in regard to placing and depth of tile.

At the suggestion of Trustee Lagaschule they decided to put the sewer pipe leading to the septic tank about five feet lower than provided in the contract, to insure against freezing, and at another special meeting held last evening Mr. Lanyon was directed to make the change. It will cost \$800.

They were well satisfied with the manner in which the work was progressing and the board has approved about 20 per cent of the bill for the first six months of the present fiscal year was ordered paid by a motion made by Trustee Lagaschule and seconded by Trustee Lagaschule. This bill amounting to \$11,033.48 is not due until the first of April but the village received a discount of two per cent for payment at this time and considered this amount work done.

F. O. Stone was granted a license to operate his pool table upon presentation of his petition, accompanied by a bond signed by Charles Lipovsky and E. F. Wichman, and the following bill was ordered paid:

Lena Meister, rebate on sidewalk.....	\$ 6.00
Fred Broemelkamp, rebate on sidewalk.....	7.92
R. G. Munday, rebate on sidewalk.....	43.20
Barrington Review, printing and publishing.....	15.94
Lamey & Company, material.....	32.94
Total.....	\$61.56

Inspect County Poor Farm

The Lake county board of "superintendents" at the county poor farm at Libertyville last week on Wednesday for semi-annual inspection. They found everything in a satisfactory condition. They were in receipt of an offer from a farmer owning 17 acres adjoining the county farm to sell this land to the county for \$100 an acre. The matter was placed in the hands of a committee to investigate and report at the next meeting. The county now owns 150 acres in the township of Libertyville for this purpose and most of the supervisors feel that this amount is sufficient. They also voted down a proposition for establishing and maintaining a tuberculosis hospital at the county farm and appointed a committee to purchase additional equipment for fire protection.

There are at the present time 47 males and 36 females at the poor farm.

A Surprise.

The return to Barrington of Rev. O. F. Mattison as pastor of the Methodist church here, was recognized by the people of that church in a very pleasant surprise on last Thursday evening.

All unknown to the pastor or any of his family, the people gathered at the church to attend the evening service and with them good cheer and words of kindly welcome that must have warmed the hearts of the reverend gentleman and his wife. Everybody seemed to have a good time and the refreshments brought were no hindrance to the success of the occasion.

At the close of the service prominent couples in the front row of the pew which is the sixth year of Mr. Mattison's pastorate.

Good congregations also greeted him on Sunday. In the evening he gave reminiscences of his conference year closed.

Mrs. Heinrich Thanks Friends.

I most heartily thank the many friends who have been so kind to send me greetings from my home last week. Although so many miles away I have been able to feel that I have not lost the spring of youth in this "New Country".

Miss A. E. HOWARD

## FARM AND DAIRY NEWS

Notes and Comment of Interest to Local Farmers and Milk Producers.

In the display of farm products from the northern district at the state fair the Lake county exhibit, entered by W. E. Miller of Libertyville was awarded second place.

More than a dozen national associations connected with the dairy industry will hold their conventions in Chicago during the week of October 24. Among the organizations which will convene in Chicago are the International Milk Commission, the Poultry, Beekeeping, Egg and Game Commission, National Butter Makers' association, the Holstein-Friesian Cattle club, the Gurnsey Cattle club, the Milk Producers' association and the National Association of Milk Standards.

Dairymen of Libertyville have refused to sell their milk to Yore Brothers, managers of the factory there, at the price they are being offered, which is an average of \$1.70 a hundred with an additional 10 cents to those who farm scores 85 per cent or over, the same as the Bowman company is paying. The milk producers have formed a strong local organization of the Milk Producers' association and are hauling their milk to other places rather than accept this price. They say that they will sign up if all are given the top price regardless of what their farms score.

All records for milk and butter have been shattered by Creamella's milk, a Holstein cow owned by Earl Upton an eastern dairyman. The cow has given 26,300 pounds of milk, with a monetary value of \$1,300 since November 15, 1911. An average cow gives, according to the department of agriculture statistics, about 3,900 pounds per year. Creamella's milk in one month has given 3,700 pounds. At her best Mr. Upton's Holstein has given 100 pounds of milk a day, which is at the rate of 44 pounds an hour. The present record for a year is 27,432 pounds of milk. It is expected that the completion of this year will give Creamella's milk a mark of over 30,000 pounds.

Epworth League Social.

The Epworth league of the Epworth league social held Tuesday evening in the lecture room of the Methodist Episcopal church was the largest known, a hundred or more being present.

The room had been rendered attractive by decorations of autumn leaves in abundance placed over the incandescent lights and around the corner corner could be noticed the Epworth league motto: "Look Up—Lift Up," peering through a huge branch of oak, covered with leaves of brilliant hues.

An interesting program was rendered, Edward Young calling the numbers, Miss Castle and Miss Freeman rendered a play and Miss Hoffmann sang a solo and Mr. Hoffmann gave a humorous reading much to the delight of everybody. Then came a series of monologues by ten or twelve members of the league on "Why I never married." This was a decided hit, and was followed by an exhibition of "The whole thing in figure, this 'brought down the house.' Irving Hager performed his part especially well. Lovell Bennett rendered two violin solos, with Miss Horn as accompanist, much to everybody's delight.

The formal program closed with the distribution of slips of paper on which were certain verses, standing for words which were to be guessed. The words made sentences for a social occasion. After this came the real fun of the evening. It was all innocent and as if young people enjoy one another in a while. There were games of different kinds, the most exciting being the hand to hand contest with pumpkins.

Coffee and doughnuts were served as refreshments, and everyone felt that the interest and pleasure as well as the very large attendance repaid for the effort put forth.

The league is flourishing and is having frequent accessions to its ranks. Young people but owing allegiance elsewhere are invited to membership in the league. The special work of the league for the winter will be a series of bible studies. Edward Young is president. A social evening is held once a month.

Hem's It occurred to you that if it would be just to read the 1st of the world, in consequence, you can be so far you go to read? For so no says a merchant unless in regard to terms to whom it is addressed, and that there is no escapable mutual interest laws of life.

Eight Butter Markets.

Butter remained firm at 25 cents on the High board of trade Monday, no change from last week.

## SNEAK THIEF GETS \$50

Office of Local Dentist Entered at Noon Today by Thief Who Makes Away With Fifty Dollars in Material.

Dr. J. Howard Furby was today robbed of \$50 worth of gold used for filling teeth. The thief or thieves entered his dental office in the Groff building while Mr. Furby had gone to dinner. Mr. Furby discovered his loss shortly after his return but as it is probable that the robber was a stranger and departed from this village on the noon train there is nothing that local authorities can do towards his apprehension.

Mr. Groff, who was in his market on the ground floor, saw a stranger enter the building during the noon hour but attached no importance to the fact until Mr. Furby informed him of his loss.

Entrance to the office was gained by forcing the spring lock on the door.

Teacher Mrs. F. Y. Ago.

Mr. and Mrs. J. Applebe of Wallsville, New York, are visiting relatives in this village. Mr. Applebe was principal of the Barrington school in the winter of 1897-98; in fact, he was the only teacher. It being but a one-room school at that time, one teaching greatly with the modern and well equipped structure of the present day. He had 100 pupils that winter and the only assistance he received was from one of the higher grade pupils who helped to teach the primary classes.

Ask \$2,000,000 Bond Issue.

At the coming election in November the question of a \$2,000,000 bond issue will be put before Cook county voters. One issue of \$1,000,000 will be for additions to the Oak Forest Infirmary and a new cemetery site. Two issues for \$500,000 each will provide for improvements on the ninth floor of the county building and the construction of a new detention hospital.
