ed with her work of answering calls certain times of the day when the oeen with her work of showering calls. At certain times of the day when the number of calls is at its height these few seconds that are asved by the supomatic busy-signal will assist in quickening the green as ervice. In numerous other wayshe new switch-board equipment provides for the elimination of time in handling a call. All these will reflect in faster and their

ment that could be installed.

SCHOOL NOTES

All of our loyal and enterprising citi-tens, especially the parents of the pupils who are attending our public school, should bear in mind that the

has been planned with special reference to the families of the church Every family in the church or touched by the Durcas society, Sunday school of Young Feople are carnestly requested to be present.

A kindergarten session during the church hour is regularly conducted for this beat status were Mabel or the high school assembly room. The containts of the intermediate and did departments will also be given most hear-y welcome to the morning and the series on "The Prophets of Idrael" will occur next Sunday evening, the subject being "Prophets of Idrael" will occur next Sunday overlage, the subject being "Prophets of Idrael" will occur next Sunday evening, the subject being "Prophets of Idrael" will occur next Sunday section and sinth chapters of Acts will be studied. The world and devotional service at three of clutch world and sinth chapters of Acts will be studied. There willse special musts Sunday morning and evening by the choir, under the direction of Mrs. Cameron METHOUST.

Sunday school mests Sinday at 2-20 a. m. Subject for study "The meeting of Acon and Eau." The laterest in all classes is most commendable. The including multiple special musts Sunday in Annual Sunday. elimination of time in handling a call, labely will reflect in faster and better is revice.

While there is little danger of fire in a tell phone exchange, yet, because of the engagerency value of the tellephone and the load of responsibility that is placed on the wires, it is essential that all possible danger be averted. Pror this reason is of freprose construction and the usual provisions have been made against eartrance of lightning of heavy electrical currents.

Installation of the new equipment has cost the company many thousands of dollars. This investment would be disproportionate to revenue were it routed a proportionate to revenue were it to for anticipated growth. It may be truthfully said that the company has trust of the proposition of the new system for the Harrington of 1838 and it has given conclusively its confidence in future growth by spending large sum-of money on the most modern equipment that could be installed.

2nd. Who should furnish it? 3d. How can it be raised?

All of our loyal and enterprising citizens, especially the parents of the pupils who are attending our public school, should bear in mind that the high achool hand will give a concert at the school house on Satorday evening it at eight ofcoles. No effort has been spared on the part of this organization to present a fire program.

There will be readings, vocal, piano and cornet solos and selections by the hand. Come and encourage the worthly efforts of our young boys who have your moral support and need your flower of the termination of travel transition. The office of public reads of the transition of the part of the work that means so much these concerts.

Are you willing that this apleedid training should be withheld from your children because of lack of funds to carry on the work that means so much for the youth of today and the man of tomorrow? We need your co-operation, your presence and the admission few which is but 15 cents for children and 25 cents for adults.

On Monday April 7, the preliminary declamatine contest was the first the pupils of the program of the program of the program of the pupils of the pupil

The state of illinois is Chicago's ingrest users of the country roads ingrest users of the country roads ingrest users of the country roads are the country of the country town in this road improvement only through a state tax. The marketing of farm products. The marketing of farm products which formerly was the chief use of creating insguliude, has come to be the smaller part of highway traffic. The distances traveled are not only from the farm to town, but are from roads to coast. It would appear that the responsibility for improving and maintaining our main roads (from 16. to 20 per our main

The Spalding Deep Tilling Machine

Platte, S. Dakota, Nov. 11., 1911.

My neighbors' fields were planted at the same time, and prepared with the same care, except that they were plowed the old way, five or six inches, while mine were plowed the Spalding way, twelve to sixten inches. My neighbors' yield is just exactly one-balf of mine, with a yield of twenty bushels per acre. Where mine was forty.
