

Christian Science Lecturer Outlines 'Law of Love' Tues.

Public Meeting Held in School Auditorium Well-Attended

Lecturing on Christian science in the high school auditorium Tuesday evening, Richard J. Davis, C.S. of Chicago, discussed "the law of love revealed and demonstrated." The lecture was given under the auspices of First Church of Christ, Scientist, Barrington.

Mrs. Harriet E. Tuttle introduced the speaker. Quotations from Mr. Davis' lecture follow: "Jesus, who better than any other man, embodied the divine purpose of Love, said, 'The Son of man is not come to destroy men's lives, but to save them.' Here, my friends, we have one of the most tender and appealing aspects of Deity, as revealed in the teaching of Christian Science. The only thing which divine Love can do is to save and bless. The law of Love can express itself only in salvation. Love is not condemning its own offspring. Condemnation, damnation, and penalty have no place in Love's plan. Infinite good is the only power of Love's expression, man, only the forever undimmed beauties of good. For this reason, since divine Love is not condemning man, neither does it condemn the past actions of any man, embodied in his Christian Science. It is not engaged in condemning but in saving, healing and redeeming, not a few or many, but all who are willing to accept its aid. Sin always comes to us as our own thought, and pleasure argues to us that we find pleasure and satisfaction in sin; or else it tries to make us afraid that because of heredity, environment, or circumstance we are helpless victims and unable to resist it. But once we have gained the concept of our changeless spiritual selfhood as an idea of good, we are enabled to shut out the false selfhood apart from God. In a sermon which she delivered in 1895 Mrs. Eddy gave this helpful instruction: 'Know, then, that you possess sovereign power to think and act rightly, and that nothing can dispossess you of this heritage and fragrances of Love' (Pulpit, and Pledge, p. 2).

In the law of Love it is never too late, never too late to be good, never too late to be well, never too late to be happy, never too late to be God's beloved son. If you cherished the belief that you are a castaway, cursed of God and condemned by man, now is the time to awaken and claim your heritage. Christian Science calls upon us to forget the past, with its mistakes and errors, and, like Paul, to reach forth unto those things which are before. It declares that there is no such thing as an unrepentant sinner, not one that may not be saved, not one, however evil, which may not be reformed. In Christian Science, we do not live in the past, but in the eternal now of Love's unfoldment. Having discerned your true relationship to your creator, do you believe it sacrilegious to assert and claim your sovereignty? Have you perceived your divine identity as an idea of good, can you condemn that? Mrs. Eddy has written in Science and Health (p. 340), "One admits God, good, in annulling the curse on man, and leaves nothing that can sin, suffer, be punished or destroyed."

Columbus Cathedral The cathedral, standing on Empedrado street, in Havana, dates back to 1656 and claims the distinction of having been the resting place of the remains of Christopher Columbus until they were removed to Spain after the war of 1898. It is Latin-Gothic in design and contains several works of old masters and many richly jeweled vestments. Its silver altar is valued at \$100,000.

Here's news! Olson Buy Co. just opened a LOOP STORE at 35 E. Madison Street in Chicago and the wash of the nation is watching.

Lake Zurich

Solid Permeated by Another The only solid that can be permeated by another solid at ordinary temperature is lead—and that only by gold, writes Muriel E. Young, Petersburg, Alaska, in Collier's Weekly. When a layer of gold is covered by a layer of lead, the gold molecules will—in time—become diffused throughout the lead.

Turn Your Debt Mountains Into Monthly Mole Hills by using the nationally known Household Loan Plan. Loans \$30 to \$300—only signers are husband and wife—repay in monthly installments to fit income—charges figured only on balance due and for number of days between payments—Household's new low rate is 3 1/2% monthly on first \$100 of loan balance and 2% monthly on that part of loan balance over \$100—first payment is not due for thirty days—quick, courteous, private service. Visit, write or phone.

From the Editor of The American Boy

During the coming year, the boys of America will get a better rate to adventure and fun. THE AMERICAN BOY—YOUTH'S COMPANION, the nation's leading magazine for boys, formerly \$2.00 a year, now costs \$1.00. A three-year subscription, prototypically \$3.50, costs only \$2.00.

Griffith Ogden Ellis, editor of THE AMERICAN BOY, brings boys the heart assurance that new prices will in no way affect the editorial contents of the magazine. It will be as large, as beautifully printed, as full of high-spirited adventure as ever.

"THE AMERICAN BOY" has been a non-accident. Mr. Ellis states: "We publish the magazine on the firm belief that boys deserve a magazine as good as any publication for grown-ups. So we use the best illustrators obtainable—well-known artists who work for the biggest magazines. We send our staff writers all over the country digging up the interesting facts of science, interviewing world-famous explorers, talking to coaches and athletes."

"We encourage and assist our writers to go everywhere for material—to Haiti, Africa, the South Seas, China—and bring back adventures for American boys. We hire experts on hobbies and boy problems to advise boys and young men. These steps account for our position as the quality magazine for boys, and we shall continue to take them."

Twelve issues of fun and excitement for \$1.00! Three years for \$2.00! Spread the news among your friends—and send our subscription directory to THE AMERICAN BOY, 7430 Second Road, Detroit, Mich. Service on your subscription will start with the issue you specify.

Connie B Fredric Be Here

The name "Raven" the name raven is now generally believed to have its source in the ancient verb to raven, to devour, thus identifying this ominous bird with the scenes of battle, rapine and death with which our ancestors were sadly familiar not so many centuries ago.

Must Sail 30 Miles. Ocean steamers reaching Wilmington, N. C. must sail 30 miles up the Cape Fear river, although the city is only ten miles from the Atlantic as the crow flies.
