

LAKE ZURICH REVIEW

Plan Farmers Institute for Lake County Oct. 11-12

Members of the Lake County Farmers Institute held a meeting at Elia high school Tuesday evening to arrange dates and make plans for the 1934 meetings to be held Thursday evening and all day Friday, Oct. 11 and 12. Several new features will be added this year. It was reported, and Dr. John H. Bland of Prairie Farmer and WLS has been invited to deliver the address Friday evening. The rural school will again enter exhibits in canning, quilts, hand-made rugs as well as displays of vegetables and flowers.

Will Meet to Organize Lake Zurich Fire Department

Local citizens who are interested in organizing a fire department will meet at the village hall Thursday evening, John Horen of Antioch will be present to assist in making plans. W. F. Buh and Albert Heybeck attended the Lake County Fireman's Association meeting at Libertyville Monday evening. The next meeting will be held at Wauconda April 23.

A kindergarten in Her basement

What clean, automatic gas heat has done for Mrs. J. M. West, 213 W. 15th Place, Chicago Heights

LOOK into the basement of a typical gas-heated home—see what happens when soot, dirt, and furnace mess have been eliminated! Like Mrs. West's, thousands of home owners now have clean basement playrooms, workrooms, game rooms—due to gas heat. Imagine your own basement rid of the coal bin—rid of dirty ash buckets and furnace mess. Perhaps a game room, where the children are out of the way. Now that gas heating rates are so low, it is pure folly to delay any longer. Think of it—gas heating rates are now only half of what they were during the 1930-31 heating season.

You invest nothing to try
And you can try gas heat without investing one cent! We will install a burner in your present furnace or boiler at our own expense. You pay only the rental on the equipment, which amounts to \$3 a month in the average home. The charge is included with the bill for the gas you use. You try it for a month, two months, a year. And if within the year you find that you are not completely satisfied with gas, we will take it out at our expense and replace your former heating equipment in good workmanlike order. But if you decide to keep gas heat—as we think you will—the rental you have paid applies on the purchase price of the equipment.

Act now!
You never will regret accepting this liberal offer on gas heat. Call your nearest Public Service office for full information.

"You can't imagine what a difference it makes," says Mrs. West. "To get rid of all that basement mess—soot, dust and dirty ashes. Now it's just as clean as a pin all through the house."

Mrs. West's basement kindergarten room is spic and span—thanks to gas heat. "And gas heat keeps the house right at the temperature we want it, night and day," says Mrs. West.

You Never Have to Order Gas
You never have to order gas—it is always under orders to serve you. Morning, noon, and night it is at your command. Should you fail to stock your larder for the week-end, or should extra company visit you unexpectedly, you might have to scurry around to meet unforeseen demands. Not so with gas. Public Service Company of Northern Illinois has learned to anticipate your demands for fuel and how to meet them. For many of its employees, Sundays and holidays means days devoted to your service. Day in and day out, through rain, sleet and snow, these workers are busy in order that an unending supply of gas flows to you instantly at your command.

The West home at 213 W. 15th Place, Chicago Heights. More than 20,000 Chicago homes are now heating with gas.

Gas heat can be installed in your home without allowing the house to cool off
