SOME THINGS WE'VE FOUND OUT ABOUT TAXES

One of the strange whims of public psychology in this country is the fallacious belief that taxes are paid by the other fellow!

We read with interest in our newspaper that some millionaire had paid \$50,000 in income taxes, and congratulate ourselves that our own income tax bill is only a few dollars. If we would stop and figure it out, we might discover that \$50,000 was only a small amount compared to that millionaire's income, while the amount we paid proportionately was much larger.

We read of high taxes in another state, and again extend congratulations to ourselves that we are getting off so cheaply. But that "high" tax may have represented the total, or a large part of the taxes paid, while we pay a number of taxes, each small in amount, but actually totalling more than those of our neighbors.

Then there are special levies, like the federal gasoline tax. Some of us think this is paid by the gasoline companies. It isn't; it's paid by each of us every time we buy gasoline. Perhaps we think it is small because the tax rate is only one cent a gallon. But that means \$6 a year to the average motorist, and while \$6 in itself isn't so much, it is really \$6 added to an average of \$25 in state gasoline taxes, plus state registration fees, drivers' licenses, property taxes, lubricating oil taxes, wheel taxes, and others.

All in one we buy our car over again in taxes about every four years. Some demon statistician has figured that in the life of the average car, seven years, taxes upon it amount to 186.9 per cent of its value. In fact, the total tax rate on the average car today is estimated at 26.7 per cent of value!

If the average taxpayer fully was aware of these facts and realized how much taxes really cost him, it is probable he would be in sympathy with this current movement to eliminate federal taxes upon gasoline. Of course, it isn't what anyone would call substantial tax reduction, but it represents a saving and it probably is the only kind of tax reduction the federal government can afford to give the people this year.

WHAT'S GOING ON

Congress is becoming more and more conspicuous every day that an election is to be held in November in which all the experiments of the new deal will be on trial. This means that differences of opinion now will arise between what the president thinks the public wants and what congress believes will be popular at the polls. Unfortunately for the congressman, Mr. Roosevelt is not going to stump the country or write letters asking the people to reelect just democrats. So the candidates of the president's majority depend on what they can do themselves as campaigners and they must have an eye on what the rival candidates will say and do. The veterans issue was a case in point. Mr. Roosevelt had a temporary solution or compromise to offer. But it came too late after the members had committed themselves on the first vote.

A new stage in the life of the national recovery administration now definitely has been reached. It is the rather prosaic period when thoughtful and careful administrators will endeavor to smooth out enforcement procedure, and will try to make the new system of industrial self-government work quietly and with a minimum of friction. In that connection, much significance is attached to the report that Gen. Hugh Johnson, administration and organizer of NRA, will receive a commission from President Roosevelt. He is stated to take over a nation-wide drive for new housing in an attempt to break the remaining log-jam of the depression—that which has the capital goods industry tied up.

Stepping up into a position of prominence in the coming job of real enforcement of codes is W. Averill Harriman, young and tactful member of the railroad family. Whether he would occupy the position was filed by General Johnson is questioned. But his is to be the task of obtaining compliance with the multitude of provisions of hundreds

HARRY A. HALL
REPUBLICAN CANDIDATE FOR COUNTY JUDGE

TO THE VOTERS OF LAKE COUNTY:
The Committee on Professional Ethics of the State Bar Association of Illinois has issued an opinion condemning the practice which now exists in this and other Counties, of the County Judge engaging in the private practice of law. The code of ethics of the American Bar Association also opposes the practice of law by a judge in such cases.
If elected County Judge I will be guided by said opinion and will not maintain a private office, nor engage in the practice of law, but will devote all of my time to the duties of County Judge. This will permit me, if elected, to cooperate in relieving the congestion in the Circuit Court by requesting the transfer to the County Court of all appeals from the Justices of the Peace, and I will recommend that all such appeals be taken to the County Court in the future.
This will remove from the Circuit Court hundreds of minor cases and permit the Circuit Judge to devote his time to the more important matters pending before him.
Your vote and support respectfully solicited.
HARRY A. HALL

Edward R. Holmberg
(City Treasurer of Waukegan)
Republican Candidate for
Clerk of the Probate Court

I have consistently pointed to my record as City Treasurer of Waukegan.
I have made no statement, not fully justified by actual facts.
I have pledged myself to a policy of efficiency, courtesy, and the strictest economy in office if elected.
Every pledge I have made will be kept.
