GET RID OF THAT DIRTY WINTER OIL

Car slow, sluggish, peepless? Take a look at the oil in your crankcase—and we think you'll find the reason! An oil gets thin and dirty even in a mild winter. Using your choke more lets raw gas into the cylinders to dilute it. What's more, the way cars are built today, your oil takes twice the punishment it used to. Mobiloil's the biggest selling oil in the world because it can "take" that multi-faceted punishment better. You need the correct grade of Summer Mobiloil for your particular make of car. It takes only a few minutes to drain your crankcase and refill with Mobiloil. Your Mobiloil dealer will do a complete job—with Mobiloil "C" for gears and proper grades of chassis lubricants. Stop today at any Mobiloil sign—you'll find them everywhere. Get the right kind of oil for Summer driving. Vacuum Oil Company, Inc.—a Socony-Vacuum company.
