Bring 5-Year-Olds for Examination at Clinic Tuesday

A school round-up of children eligible to enter kindergarten or the grades next fall will be included at the usual clinic in the lobby of the school building from 1 to 3 p. m. Tuesday when a nurse from the Cook county public welfare association will assist Dr. Deane Brooks in the free examination of children.

The state will provide toxin for immunization against diphtheria and Dr. Brooks has offered his services at the clinic so parents may make appointments for inoculation at the next clinic.

REVIEWSPOINTS

To Barrington Review: There seems to have been created a rumor that I forwarded to the Federal PWA authorities in Washington, the petition that was circulated among Barrington property owners last autumn to ask the village board for abeyance in sewer loan granting and sewer construction until after the decision on our sewer case appeal.

On April 30th, 1934, a representative of the federal emergency administration of public works interviewed me in regard to Barrington's application for a federal loan to reconstruct the sewer system. I showed him willingly all of the correspondence I had with the Washington authorities, namely copies of my letters of Sept. 15, 1933, Nov. 13, 1933, and Jan. 24, 1934, and the replies.

A special meeting of the village board was called for the evening of that day in order to discuss sewer loan application possibilities and other matters. Even though the village board, the village president, Mr. Elden Glasse, said to me, in the presence of four village trustees, "you ought to have your head examined, Blanke" (after he had told the trustees about what I was supposed to have written to Washington authorities), I still maintain that I was working for the best interests of the majority of our citizens in seeing to the Washington authorities the information which I did send.

I wrote these letters to Washington authorities because I felt that the federal authorities I stated in fact in our village affairs, which would facilitate their investigation of local conditions and which will make it possible for the village to receive the best possible deal on the part of the Federal government.
