Boys Bites Bull Dog

Makes News Headlines
When a dog bites a boy, frightened parents may send for a doctor but the event cannot be classed as news. It took a 4-year old boy at Zion to make news paper headlines by reversing the usual procedure and biting a dog. It all started out as a strange adventure for Mitzi, bridge bull pup of T. Schmalfluss, who wandered into the yard of small Richard Kerr, son of Samuel Kerr, Jr., for a game of ball Friday. Dog and boy jumped for the ball at the same time and in reaching for it, Mitzi caught the lad's hand in her mouth. The surprised Richard retaliated by grabbing a hunk of dog, his teeth taking a firm hold in the astonished Mitzi's back. Mrs. Schmalfluss went to the assistance of her canine and Mrs. Kerr called off her Richard. According to the latest report, the dog hasn't developed rabies!

"Gas heat taught us something about living"

Anton Kohout, 1425 S. 59th Court, Cicero, tells why he and his family are enthusiastic about Gas Heat

"I used to think," says Mr. Kohout, "that if you owned a home you had to clean up after soot and dirt, tramp up and down stairs early in the morning, late at night, to fix the furnace. But with gas heat we've changed our ideas."

No soot, no dirt, no furnace mess More than 20,000 families in the Chicago-land area know that gas heat has brought pleasures and comforts to their homes never possible with their old heating systems. As Mr. Kohout says, "The house stays clean. The furnace never needs attention." Gas heat is clean heat. No soot, no dirt, no furnace mess. And no trouble, because a little thermostat on the wall regulates the temperature of your house. Now—before you order your next winter's fuel supply, get the facts about gas heat. Remember, it costs you nothing for equipment to try gas heat. You try it for one month, two months, or a year before you decide. While you are trying it you pay only \$5 a month rental during the heating months in the average home. This charge is included with the bill for the gas you use. If at any time within the year you decide you don't like gas heat we'll remove it and replace your former heating equipment in good workmanlike condition.

With gas heat there is no dust, no soot, Mr. Kohout, pointing to her curtains, says, "The house stays clean."
