Stout, 12, was killed when her car was struck by a car driven by a man who had fallen asleep at the wheel. The man, identified as George W. Stout, was charged with driving while intoxicated. The accident occurred on a narrow, two-lane highway. The girl's car was struck from the rear by another car, which then struck a third car. The girl was killed instantly. The driver of the first car was arrested and charged with driving while intoxicated. The driver of the second car was charged with driving while intoxicated. C. R. Stout's Auto and Garage Burned to Ground
Continued from page 2
All fire loss to the Stouts was covered by insurance, but the fire was a great shock to Mrs. Stout who had been injured and extremely nervous since the automobile accident a month ago. She and her son William were returning from the C.C.C. camp at Skokie Valley when their car overturned in a ditch as the driver attempted to pass a truck. Mrs. Stout was bruised and received a severe burn which made it necessary for her to stay at a north shore hospital ten days.

Employees of Public Service Company to Get Raises August 1

Employees of the Public Service Company of Northern Illinois (except officers and higher executives) are to get an increase in wages and salaries August 1, equal to one-third of the reduction of August 1, 1932. Announcement of this effect was made this week by Britton I. Budd, president. In making this announcement to employees, Mr. Budd said: "The reduction in gross revenue that began in 1930 made the pay reductions of 1932 an economic necessity. This pay increase follows the reduction in wages which has arisen in the minds of many employees as to when they might possibly expect any restoration of the 1932 reduction in wages. "While there has been some improvement in business in general which is reflected in somewhat greater sales of products of the company, nevertheless increases in taxes and other operating expenses, and adjustments under the NRA which required an increase in the payroll by a substantial amount, limits the restoration at this time to one-third of the 1932 reduction. "The pay reductions of 1932 were much less than men and women in almost all other lines of employment suffered, and were not as drastic as might have been justified by the loss of business and earning of the company."
