Ela Township Boy in School Group Attending Fair

Superintendent W. C. Petty at Head of Delegation at Springfield

William Buesching, a student at the High School, is one of a group of five Lake county school students who have been spending the past week at the state fair in Springfield. Superintendent W. C. Petty is heading the group.

The department was taken from the Lake County Farm Bureau at Graylake. The group will return Friday.

Those to accompany the county superintendent in addition to Buesching were Frank Wilson Jr., Wauconda and a student at the Wauconda township high school, Sven Ronde of Benton township, a student at the Waukegan high school, Howard Bonker of Lake Villa, a student at the Antioch township high school, and Earl Bauman of Milburn, a student at the Warren township high school at Gages.

Attend Classes

The students will have morning classes and brief afternoon classes under the ablest instructors in agriculture from the University of Illinois and the remainder of the afternoons and the evenings are theirs to enjoy at the state fair.

Petty is one of the men in charge of the school, representing the first ten congressional districts in Illinois which includes all northeastern counties in the state.

The Lake county board of supervisors provides all expenses for their delegation, while in many of the counties the boys pay for their own expenses. The expenses of the Lake county group are paid on the theory that the fair gives the boys farm training of such value that they improve themselves and their young farm friend's interest.

Students Trip on Little Words in Spelling Exams

The students of the Lake County schools have proved that it is not always the long word that one trips over in spelling. Sometimes it is one of the short words such as the word "lose," a word which stood high on the list of words that stumped youngsters.

This innocent word was spelled all the way from "lose" to "loss" and the records from the examinations given the pupils in Lake county, under the supervision of W. C. Petty, county school superintendent, 1932, 1933 and 1934 disclose a long list of short foibles.

The worst commonly misspelled of these three words were: separate, lose, interest, truly, piece, exquisite, coming, tear, receive, respectfully, surprised, title, laboratory, completely, lecture, mental, disease, attack, disappear, boundary, abundance, desirable, warrant, indispensable, villain, gymnasium, unassuming, remarkable, incidentally, occasion, and tranquility.

To improve the spelling of the pupils this year Petty has suggested to all school teachers that every written lesson be considered as a spelling lesson.

"Remember," Petty warned, "that pupils are individuals. Some are auditor minded, some are actor minded, some visual minded. Therefore, one should hit every avenue of approach in presenting spelling."

Indiana's Official Flower
The blossom of the tulip tree was chosen as Indiana's official flower by the legislature in 1923, the reason expressed being for the flower that "should be native and indigenous to the state." On March 8, 1901, it adopted and designated the tulip tree (Liriodendron tulipifera) as the official state tree, and the zinnia (zinnia elegans) as the official state flower.

When Clocks Predict Death
A curious superstition prevails in Peterborough, England, is that when the Cathedral and parish church clocks chime simultaneously, a death will take place in the cathedral precincts.

Lake County Gets First Funds for School System From Gas Tax Money

A check of \$11,444.93, the first gas tax money to be allotted to the Lake county school system by the state to pick up the arrearage in the distributive fund owed the county by the state, was received last Thursday by W. C. Petty, county school superintendent. For just how long a period of collection this amount covers Petty does not know.

Of the gas tax money received for the school, \$7,800.08 will go to the grades and \$3,644.85 to the high schools.

The gas tax money was accompanied by another check amounting to \$8,614.84, also from the state, to pick up the arrearage in the distributive funds which came out of receipts from the state sales tax. This, added to the gas tax money, will make an allotment of \$16,414.92 for the elementary schools.

Petty stated that he made disbursements to the schools on the same day that the checks were received.

The county draws a little more than \$103,000 annually from the state from the distributive fund.

Phoenicians Lose Prestige
The Phoenicians have partly lost their reputation as pioneer sea lords since it has been found that the people of Crete spread settlements from the Aegean to Spain.

When Washington Failed Out
As a legally existing governmental agency—a municipal corporation—Washington disappeared in 1871, when congress constituted the District of Columbia its successor. The District of Columbia was incorporated municipal by the President's organic act of 1870.

Palm Trees in Jerusalem
It is not believed that palm trees grew in Jerusalem at the time of Christ. They were very unusual in the upper hills, and probably three were none in the city. Jericho was the city of palm trees in the low region along the Jordan river.

Civil War History Blended Into Film of 'Operator'

To Be Screened at Cat Next Week; 'Thin Man' Sunday and Monday

Millions of movie fans are being the praise of little Bill Temple. In "Baby, Take a Bow" tonight, Shirley is proving the delight of all that about the most astonishing child actor on the screen today.

"She Learned About Sailing" comes to the starting line Saturday with Lew Ayres, Harry Green and Alice Faye in featured roles. As a personable job, with the title of heart-breaker in the story, "Thin Man," a night of snigger manages a little head breaking herself, all of which provide a nice bit of romance in a lively story of the boys who run the seven seas. Pathe news, cartoon and comedy contribute to interest of this bill.

No screen play of recent days has received so much word-mouth publicity as "The Thin Man." First as a best seller, then as a picture of startling interest, the title, "The Thin Man," earned for itself outstanding popularity. The screen play, scheduled for Friday and Monday, is for its stars William Powell, a Myrna Loy, with Mina Gombel, Maureen O'Sullivan and Nat. Peardon featured. Powell, as Nick Charles, is in New York for vacation, and there against him will become involved in a trip murder mystery. Short subject program includes a new Popeye cartoon, descriptive musical, community singing and dard devils scenic.

Mrs. Arnold Holstein discloses an incident in her marital life that led up to the murder of her husband in the film, "Now 'I'll Tell You" coming as the bargain night attraction next Tuesday. Spencer Tracy, Helen Twilwettes and Alice Faye are starred.

Out of the pages of history has come another great motion picture theme to thrill theatre audiences with one of the finest romances ever upon the screen in recent years. This time it is "Operator 13," the exciting Robert W. Chaney story which offers Mario Davis and Gary Cooper as starring partners. It will play at Carlow next Wednesday, Thursday and Friday.

It is a gripping love story to which the Kipling verb serves as background. It is the story of a beautiful woman spy of the Union army and a gallant spy of the Confederate forces.

As Gail Loveless, the federal spy who is sent into the southern army to spy on the Confederates, Mrs. Davies contributes her finest dramatic performance of her eventful career.

Gary Cooper, the southern spy, equally surpasses all his former screen roles as the man whom Miss Davies sets out to destroy—and with whom she falls in love.

Nothing was spared to make "Operator 13" as authentic as possible. Through it are woven many characters, whose names have become famous in American history—Abraham Lincoln, Pauline Cushman, Allan Pinkerton, General "Jeb" Stuart and many others.

The musical spirit of the old south has been captured and will sing and dance by the four Mills brothers of radio fame, by Miss Davies and by the old-fashioned dances that have been revised for the production.
