Children's Party a Success

Tuesday afternoon was certainly a children's paradise from four to six o'clock at the Barrington Hills Country Club. Invitations read that a real magicland would be there and enough balloons and ice cream cones for everybody. Not a child was disappointed and even the grownups agreed it was a wonderful party. On Saturday night the elders had a dinner and dance of their own that was just as successful.

Mr. and Mrs. William D. Horn Jr. had open house last Sunday to celebrate their fifth wedding anniversary and to let their friends enjoy their swimming pool and see the modernistic and attractive alterations in their new home. Miss Mary Grubb left Saturday night with Mrs. Mary Mavor to visit Mr. and Mrs. Lawrence Hill and Miss Ann Mills about 100 miles north of Elly, Minn. Among the out of town guests were Mr. and Mrs. Harold Scott, Mr. and Mrs. Pat Kilroy and sons George and Kenneth of Aurora visited at the Grantham home Sunday. James Strad of Chicago visited his cousins Mrs. Frank Suchr, Mr. P. Kridera and Mrs. Emma Lazanski, three days last week. Sister Mary Martin, the first teacher who taught when the school was conducted in the basement of the St. Peter and St. Paul church has been transferred and Sister Etelle will take her place.

"Gas heat has ended our furnace worries forever"

Read why Otto-Spilka, 1622 So. 61st Ave., Cicero, endorses gas heat.

We asked Otto Spilka what he thought of gas heat. Here is what he had to say: "We would never think of going back to the old days—the old heating methods. We installed gas heat when our coal bin was full—and never for a minute have we regretted it. Gas heat is worth its weight in gold." These are Mr. Spilka's own words. Yet, if you were to ask any of the 20,000 other users of gas heat in the Chicago-land area, you would probably get the very same answer.

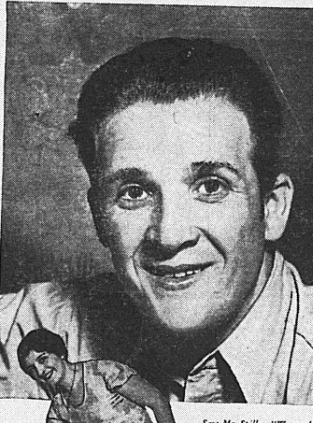

No furnace worries, no soot, no dirt They know the comforts gas heat has brought to their homes. They know it is clean—absolutely clean. There's no soot to cover walls and curtains. No ashes to get furniture and woodwork dusty. No dirt to clean in the house or basement. Just uniform, clean heat, day in and day out, any time of the year. And with gas heat you can forget you ever had a furnace. No running up and down stairs to fix the fire. All you do is set a little thermostat on the wall.
