

BARRINGTON REVIEW

ESTABLISHED 1855
LESLIE W. MCCLURE, Editor and Publisher

WALTER R. WINTERINGHAM, Business Director and Foreman

Published every Thursday afternoon at Barrington, Illinois, and entered as second-class matter at the Barrington post office under Act of March 3, 1879.

All communications should be addressed to the BARRINGTON REVIEW, 110 W. Main Street, Barrington, Illinois. Cards of thanks, resolutions of condolence, obituary, poetry, memorials, and all notices of entertainments or society and church sales and parties given for pecuniary benefit will be charged for.

TELEPHONE, BARRINGTON NO. 1

LIBERTY LEAGUE

To uphold the constitution of the United States and conduct an educational campaign for safeguarding the rights of private property and private initiative is the avowed purpose of the American Liberty League, a non-partisan body, the organization of which was announced in the past week.

President of the league is Joutett Shouse, who was assistant secretary of the treasury under President Wilson. Other democrats on the executive committee include Alfred E. Smith of New York, democratic candidate for president in 1928, and John W. Davis, who opposed Calvin Coolidge in the presidential election in 1924.

Among republican members on the executive committee are Representative James W. Wadsworth of New York and former Governor Nathan L. Miller of New York. Irene G. Pont, who supported Alfred E. Smith and Franklin D. Roosevelt in their presidential campaigns, is also a member.

ONE-THIRD ON U. S. PAYROLL

Unless present trends quickly change, an industrial census of the United States soon may show the following: Supported by private industry, 85,000,000 persons.

Supported by public industry, 40,000,000.

For under way in Washington is a race between recovery, mounting relief burdens, and what Dr. Rexford Guy Tugwell calls "social management," but what other economists have called "state socialism."

Rising prices for food, clothing and the other things required by the millions of unemployed and their families are forcing the government more and more into the field of production. How far federal agencies are ready to go in this direction remains an official secret. But plans and actual developments point to rapid expansion.

U. S. TAXES CLIMB

The speed with which billion-dollar appropriations become new worries for the tax-burdened public was brought sharply to the front in the announcement by the department of internal revenue that its tax collections for the fiscal year just closed increased 65 per cent over those for the preceding year.

Internal revenue taxes for last year totaled \$2,672,239,000, compared with \$1,619,839,000 the preceding year, a gain of \$1,052,400,000 or 65 per cent, according to the official announcement. And collections for the fiscal year did not take into account the new funds that must be provided to meet the billions of dollars appropriated by congress during its last session, with increased taxes burdening recovery already.

While country papers have been suffering financial difficulties the past few years, and in ninety-five per cent of the cases surviving them, there has been a distinct improvement in the quality of news and editorial service. No line of business, probably, has kept faith with its customers more courageously than the weekly press.

OUR CHILDREN

Have An Apple

"I'm not coming tomorrow." I added up the last column with great deliberation. I could see Don in the mirror on the edge of my desk but he couldn't see my face. That is fair enough because he has many other advantages among them the recklessness of youth.

"A City on a Hill"

In Montreal is a city that is set on a hill. When Massachusetts came in 1602 to plant a French colony near the Indian village of Hoche Marie, he called the town "Ville Marie." The mountain was named Mont Real (Mount Royal) in honor of the King of France.

Caviar Great Delicacy

Caviar is a salted preparation of fish roe considered a great delicacy by many. It is usually made of the north or west sturgeon, a fish of the herring family. Although the roe may be used, most people have to acquire a taste for it.

WHAT'S GOING ON IN WASHINGTON

Forecasting the business future of America is directly related now to the amount of money the federal government spends. This may not be sound. It may produce what has been called "synthetic" prosperity for the time being. But its effect on the trend of events in the next few months at least cannot be ignored.

The industrial appeals board, the group formed to investigate the alleged injustices which the "little fellow" suffers under the codes, has handed down its first decision and it is a triumph for Florence Darrow's "under dogs."

The board composed of Chairman A. Peaslee, John S. Clement, and Monsignor John A. Ryan, reversed the findings of the NRA's cotton textile code, authorized in favor of the Acme finishing company of Pawtucket, R. I.

The ranks of the unemployed are filling rapidly. Jobs instead of increasing in number, are decreasing. Jobs, instead of finding more and more are being less and less. That is the story read into present statistics.

A hundred men, the elect of the criminals held by the federal government, were started away on a private island. The island is Alcatraz, a little rocky hump in San Francisco bay, where the federal government has built up an escape-proof prison for its most desperate captives.

President Roosevelt is generally believed to have withdrawn the physical strain of his job as well as any president. He returned to his home in the White House, a little weight and has the problem of keeping his weight down rather than maintaining it.

Bears Shi

Crush Indians in Double Header by 11-3, 18-3 Counts

G. Altenburg Gets Seven Hits in a Row; Libertyville Here on Labor Day

The Barrington Bears really came on a rampage last Sunday night, capturing the hapless Cary Indians victoriously in both ends of a double header played at the local park. After capturing the first game by a score of 11 to 3, the Bears hit everything off the bat in the stadium, which was cut to the bone because of lateness, but by a margin of 18 to 3, leading the barrage on the Cary park was Emory (Shimmo) Altenburg who turned in a record seven hits in a row, "Shimmo" safely his last two times up in the box and then really went to work and gathered five straight hits in the second game.

Brothers Hurl

Gussie and Charles Altenburg both pitched good ball for the Bears and were aided by good pitching on the part of their teammates. Gussie only allowed three hits in the nightcap, but the Bears little opposition but nevertheless the local slugger was really hitting the ball. In the second game they banged out 10 extra base hits; seven doubles, two triples and a home run. All the while the Bears were making a large sum of \$75 in the two games.

Feature Games

This weekend the Bears will have a chance to get back at two teams which beat them earlier in the season. On Sunday West Chicago will be here for a game and the Labor day feature brings the long-awaited Libertyville aggression for an appearance on the local field.

First Game

Table with 3 columns: Team, Hits, Runs, Errors. Includes totals for both games.

Second Game

Table with 3 columns: Team, Hits, Runs, Errors. Includes totals for both games.

Summary: Two base hits—W. Altenburg, Three base hit—W. Altenburg, Home run—Schmitt, Bears out 9 times on 32 balls—Altenburg, 3 of 2nd, 2 of 3rd.

Score by innings: R H E

Table with 3 columns: Inning, Bears, Libertyville. Shows runs, hits, errors for each inning.
