Pump and Shovel Two Symbols of a By-gone day! Automatic gas heat, like the automatic water supply, now replaces inefficient, laborious, old-fashioned methods. KITCHEN toil—long hours in a poorly equipped, hot room has been banished forever by the forward march of progress. The wood-burning stove, the basement cooler, the pump at the sink have passed. In their stead have come the automatic range, the modern refrigerator and the sanitary plumbing system. Pump and shovel—these symbols of a by-gone day—are no longer to be found in the truly modern home. The shovel—symbol of hours of furnace work and basement drudgery—has been displaced by a little thermostat on the wall—the only thing you need to regulate the temperature of your home when you have gas heat. Heating with gas is the modern way to end back-breaking shoveling, hauling of ashes, dust, soot, and dirt. Gas heat is automatic. Gas heat is clean. And it is so easy. No running up and down basement stairs at all hours to tend furnace. You fire your furnace from your favorite easy chair. No grime to cover curtains and walls. No dirty smudge to make woodwork harder to clean. In this modern day the shovel—like the old-fashioned kitchen pump—has no place in your home now that gas heat, rates are so low. Get the facts at once. So that you may know the genuine pleasures of gas heat, we make this liberal offer. We'll install gas heat at our expense, remove it at our expense, if you don't like it. You do not invest one cent for equipment. We will install a burner in your present furnace or boiler at our expense. While you are trying it you pay only a small rental during the heating months—only \$3 a month for the burner in the average home. This charge is included with the bill for the gas you use. You try it for one month, two months or a year. If within a year you decide to return to your old heating methods, we will replace your former heating equipment in good workmanlike order. But if you decide to keep gas heat, the rental you have paid applies on the purchase price of the equipment. Call your Public Service Company for complete details.

THE FEDERAL DEPOSIT INSURANCE CORPORATION WASHINGTON, D. C. \$5000 MAXIMUM INSURANCE FOR EACH DEPOSITOR \$5000

The Sign of Your Guarantee The above sign, hanging over the receivers' windows in the First National Bank, is the official mark identifying this bank as one in which your deposit is guaranteed 100 per cent (up to \$5000) by the Federal Deposit Insurance Corporation.

Loans to Repair and Modernize Your Property In cooperation with the Federal Housing Administration, The First National Bank announces that it is prepared to receive applications for loans of from \$100 to \$2000 to be used for alterations, repairs, and improvements on real property. This step is in conformity with the bank's established policy of making loans to aid employment and stimulate the entire building industry. Under the provisions of the new housing act the modernization of homes, farm buildings, and business properties may be undertaken.
