

W. Grunau Opened First Barber Shop Here 50 Years Ago

Tells How Village Looked When Mustaches Were Dred for 35c

Barrington's first barber, William Grunau, opened his shop on Park avenue 24 years ago this month on a site just one doorway distant from his present location. Until his arrival, local men had shaved themselves at home with the exception of Sundays when a barber from Palatine would make a weekly visit to the village.

Hairstcuts cost 25 cents each in those days, shaves 10 cents. When a gentleman was fancy and wanted a hairdressing or a mustache, the mustache to be dyed, that service cost 35 cents.

Mustaches were quite the rage but many men wore beards, said Mr. Grunau as he reminisced over those days. There were five older ladies who came in to have their hair shingled. However most women wore their hair long. Very young girls wore straight bobs.

Barrington was a village of wooden buildings, wood sidewalks and mud roads. Farmers used to deliver milk to the village in two-wheeled carts. There were only about 700 residents.

Fifty years ago last fall, Mr. Grunau brought his bride, Annie Metcalfe of Palatine to Barrington to live. Their first home was in an apartment above "Dickson's Drug store," which occupied the present site of Gold Star Motor company.

One son, William Junior, was born to them and they now have one grandchild.

In spite of his 73 years (he will be 74 next May 6), Mr. Grunau is very active, walking to work from his home at 319 Grove avenue and engaging in business daily.

There are only two people living whom the Grunaus remember as having lived on Grove avenue when they moved to their present address 47 years ago, he stated. They are Mrs. B. Sott and Mrs. C. Hutchinson.

Fire destroyed the block in which his first barber shop was located in 1893. A bucket-brigade of volunteer fire fighters couldn't stop the flames which started in the Henning saloon and soon destroyed all buildings in that row.

Mr. Grunau, Mr. Henning and Mr. W. Stott rebuilt the block. During that period of re-building, about two months in all, Mr. Grunau had his shop in the old Laney building. That was his only chance of street location in the entire 54 years.

Perhaps the largest Thanksgiving dinner to be given in Barrington this year is that of Mr. and Mrs. Robert Buckley, who each year entertain the entire Buckley clan.

Mrs. Samuel Rowe also had a large party with just her family but also several friends from Chicago. Both her daughters, Kitty and Evelyn arrived home Wednesday from Kemper hall to stay until Sunday.

Mrs. Jean and Priscilla White now have at the same time and were glad to see their brother Sanford who is in his freshman year at Ann Arbor, Mich.

Kraft Paper Gets Its Name From German Word

Kraft paper or pulp derives its name from the German word for strength, which is its chief characteristic. According to Wihman's "Modern Paper and Paper Making," the terms Kraft and sulphate pulp are used practically interchangeably. The Kraft pulp is of a dull brown shade when unbleached and is used for the manufacture of products where color is not a consideration and where strength and ability to resist all kinds of wear and tear are desired, as for instance in the manufacture of paper bags.

The Kraft process is especially adaptable to the pulping of long fibered resinous and non-resinous woods, certain kinds of wood that are useless in the manufacture of sulphate pulp being adaptable to this process. In the sulphate process used for making Kraft paper, sulphate of soda replaces soda ash. Originally the pulp was only partially digested and the process was completed by mechanical means. In the modern production of Kraft pulp, the cooking is more thorough and the subsequent disintegration of the pulp is accomplished in the beaters and Jordans.

Letters Once a Week

The island of Foula, with a population of about 140, is the most inaccessible place in the Shetland group and is probably more isolated than any other part of the United Kingdom. Situated in the stormy Atlantic, 18 miles from the nearest point of the mainland, without telegraphic or telephonic communication, the islanders' only means of intercourse with the outside world is restricted to a mail service weekly in summer and bi-monthly in winter. In summer the service is fairly reliable although subject to interruption by storms, but during the remainder of the year it is very irregular, as long a period as six weeks having elapsed between trips last year.

Edison Diliked Decorations

Upon Thomas Edison's second trip to Europe the French Telephone company offered him a decoration which required that he wear a long sash. But the Ohion flatly refused with the assertion that he couldn't "stand for that." Persuaded by his wife, he did however consent to wear the little red button of the Legion of Honor. But whenever he saw any American approaching he would slip the button into his pocket for fear, as he said, "they might think I am trying to show off."
