

September Building Work Gains Sharply; Permits for \$8050

Building activity in the village of Barrington is picking up sharply during the month of September following a slow period during August and July.

The largest item was a new service station and business office for the Deep Rock Oil Co. at Main and Lakeshore streets for \$3500.

Another large remodeling work and the largest was issued to Clayton Watkins for an estimated amount of \$2000 for his residence on Elm avenue in Jewel Park.

Mrs. Donald Titterton will entertain members of Circle D at her home, 133 W. Lake street, Monday afternoon, Oct. 15.

chased at 419 E. Hillside avenue. The estimated cost is \$1500. A. L. Trane received a permit to remodel and add to a house he recently purchased at 503 North avenue, estimated at \$500. A permit to construct a porch addition estimated at \$250 was issued to Fred J. Sandman at 210 Elm street.

Miss Louise Laird to Talk on Alaska

Miss Louise Laird of the local school faculty will describe her recent travels in Alaska at a meeting of the Women's association of the Methodist church to be held at the church parlors Thursday afternoon, Oct. 14.

To illustrate points in her talk, Miss Laird will show snapshot pictures she took in Alaska this summer. Miss Vera Schierhorn and Miss Ruth Johnson of the faculty accompanied Miss Laird on the trip.

Circle B of the Methodist church will meet at the home of Mrs. John H. Babb on Hillside avenue Wednesday, Oct. 13 for dessert and an informal program.

Mrs. Donald Titterton will entertain members of Circle D at her home, 133 W. Lake street, Monday afternoon, Oct. 15.

James Plagge Starts to Instruct Classes at U. of C. Monday

James C. Plagge, son of Mr. and Mrs. G. Plagge, 514 Grove avenue, met his first full term class of pre-medical students at the University of Chicago Monday. Plagge, who received an appointment of assistant instructor in the Department of Zoology last March, is teaching a course of vertebrate embryology this term.

During the winter season he will instruct sophomores in general zoology, one of the university's new plan courses in which students are permitted to set their own rate of advancement. During the spring term he will again instruct the pre-medics in a course of comparative anatomy.

Plagge is also engaged in graduate research work in biology at the university. He is investigating the functions of the thyroid and salivary glands in albino rats and other laboratory animals, work that may eventually uncover a significant relation to human ailments.

Lt. Col. Harry T. Moore Burial Rites at Wenona Tuesday

Burial services for Lt. Col. Harry Thornton Moore, United States Army, retired, of Harry Thornton Moore Jr., 130 W. Main street, were held at Wenona Tuesday afternoon.

Lt. Col. Moore died in Paris, France, September 6 while on a tour with his son. He was 67 years old and had served as Persian colonel of the 1st San Francisco army overseas, at Louisville, Ky., New York and Chicago.

In addition to his son, he is survived by his wife, Mrs. Moore. Moore preceded him in death last May.

Start Construction for New Deep Rock Oil Service Plant

Preliminary construction work was started this week on the new Deep Rock oil service station and offices at West Main and Lakeshore streets. Excavation for supply tanks for the service pumps is being completed and actual construction is expected to get underway this week.

Modern Construction Co. of Fox River Grove and Schroeder Hardware of Barrington have the two major contracts. The estimated cost of the structure is placed at \$3500. The building, to be of common brick exterior, will be 27 feet long and 12 feet wide with service drives on Main street and Lakeshore street.

Three 2000-gallon and one 1000-gallon tanks will supply the station's gasoline pumps while the bulk plant will continue to service the delivery trucks from their present location.

and we got underway; it was just dawn and as we steamed up the Yangtze we passed at least ten merchant steamers waiting for the river to be cleared of the debris waiting for cargo to be delivered down river to them, because they would not run the risk of going up to Shanghai to collect cargo or to wait for the debris to clear.

Just a little further up river we began to pass Japanese men-of-war at anchor; there were between 15 and 20—most of them large type destroyers and one or two 16,000 ton cruisers. The airplane tender which was also at anchor there was just putting planes in the water for the take-off for their morning bombing raid over the Chinese lines. We continued on up to the mouth of the Whangpoo and turned up that river which was strangely deserted of nearly all traffic; one could not help but be impressed by the absence of river traffic because the Whangpoo under normal conditions is usually teeming with craft of all sizes and descriptions.

On our right we passed a large power plant which had recently been built out of commission by the fire of Japanese gunboats. Finally we came to the docks of the Texas company where both ships stopped to fuel.

clouds of smoke from fires caused by bombs and shells dropped on the outskirts of Shanghai. As the Jap ships come up river and make a bend in the stream just above or they invariably let go with one or two broadsides to starboard (which is in the opposite direction from us, thank heaven) in an effort to blast out the Chinese troops which are farther inland.

After dark, hostilities increased in activity; more ships came up the river, firing as they came, we could hear the intermittent rattle of machine guns both from the ships and from the shore and could see the flashes caused by the tracer bullets they were firing. Several new fires sprang up on the horizon and we could see the slow plainly from the ship: things would quiet down for a while and then in about an hour the firing would start all over again—this continued throughout most of the night.

(To be continued next week)

Will Present Award at School Program

Professor B. A. Thresher, dean of admissions at the Massachusetts Institute of Technology, will present the Barrington high school with a "Technology Award" voted the local school recently at a program in the school auditorium this afternoon, Thursday, at 3 o'clock.

The award was based on the ranking of Alfred Castle, son of Mrs. H. P. Castle, 525 Grove avenue, who in the freshman class at the school last year. He was among the first five of that group in English work.

The award consists of a volume to be added to the school library.

2000 Paid Attendance at Barrington Festival

Continued from page 1

but a gala note at frequent intervals nightly. The performance of Frank Hogan's nationally famous retriever dogs Tuesday evening deserves particular mention, each having obeyed orders perfectly. The retrievers carried live chickens, jumped into a pool for live ducks, returning each unharmed to the handler, and fished coils out of a pail of water. The audiences will have their last opportunity to see the dogs at work Saturday evening.

The program Wednesday evening included the following vaudeville acts: a dance team, a tenor, a magician, all of exceptional ability, and a wild animal act, two lions and a tiger looking fierce as they went through their paces. An unexpected pleasure for the crowds was music by newweds, Mr. and Mrs. Homer Phillips. Mrs. Phillips was formerly Miss Blanche Frye of Barrington. Dr. W. A. Fanning, president of Lions, gave a short address of welcome and Roy Willinger represented the Lions as master of ceremonies.

Garden Club Program for Pupils on Friday; Parents Are Invited

Approximately 175 grade school pupils will be guests at a program sponsored by the Garden Club of Barrington under the supervision of Mrs. J. L. Bell, chairman, at the school auditorium Friday afternoon at 2:30 o'clock. The purpose of the program is to distribute first and second prizes to winners in the three groups of the garden contest held this past summer.

Parents have been invited to attend the program. Mrs. Bell reported. Mrs. H. J. Whitcomb, former chairman of the Junior Garden club of the Garden Club of Illinois, will speak on "Hobbies From the Garden." Mrs. Bell will demonstrate to the children the proper method of planting bulbs. The Garden Club of Barrington, through the cooperation of the P.-T.A. and Village Garden club, distributed seeds to grade school children at the close of the term last June for the purpose of starting gardens. During the summer the gardens were inspected and winners in the three divisions were selected. First and second prizes will be awarded to both boys and girls.

School Nurse Plans Bi-Weekly Parents' Conference Periods

Miss Lillian McLeish, registered nurse in attendance at the Barrington public school, has announced that she will have parent conferences at her office in the school building on Tuesday and Thursday afternoons from 2:30 to 3 o'clock.

The purpose of these conferences, it was reported, was to allow parents who might care to an opportunity to meet with Miss McLeish to discuss health problems.

Appointments may be made by telephoning or through a written message delivered by the child in school.

H. D. Kelsey Main Speaker at State Assn. Gathering

H. D. Kelsey, supervisor of the town of Cuba, left Tuesday for the state capital at Springfield where he was the principal speaker Wednesday at the annual meeting of the state association of high school commissioners and town clerks. He was accompanied by Andrew F. Grom, clerk of the town of Cuba, and Will Criswell, town commissioner for the town of Cuba.

Driver Escapes As Auto Catches Fire in Freak Accident

Herman Hinks, employed by C. Luckman on Thrink road, narrowly escaped serious injury when the mired car he was attempting to drive out of a ditch on Sutton road caught fire and was heavily damaged Sunday evening.

According to reports, had come to Barrington for a supply of distillate fuel oil which he placed in the rear of the car, a sedan. While driving along Sutton road, he stated, a car with bright lights forced him from the road and the car became mired in the ditch.

In attempting to free the car by rocking back and forth, the distillate spilled on a gunny sack, the fumes of which escaped his attention when he placed the sack under the rear wheel to gain traction.

MARRIAGE LICENSES

Henry Langstaff 26, Violet Rebling 24, both of Palestine.

MILLER BROS. FUN & FACTS NO. 40 Barrington, Ill., Thursday, October 7, 1937 VOL. 43

Don't miss our booth at the Fall Festival. Come and spend your evenings with us. "How did you find yourself after the party?" "Oh, I just looked under the table and there I was." Lots of uses for binder twine around a farm besides just binding. We have it here for you at the time. McCormick-Deering twine—all strengths.

When a married man has more than 50 cents in his pocket, he begins to get independent. Redies—for your fire extinguishers. Either the foam or foam type. A man advertised for a wife and received a hundred answers. Nearly all the replies said, "You can have mine." We know a man who won't go home until his wife's bridge party is over. "I can't smoke a cigarette," he says. Use the Garden Gum that he leaves. All steel construction. Lasts a life time. A certain man says the only public speaking he ever does is when he tells you how you need your flashlight.

Lt. Kirk Smith Writes of Jap War Incidents

Continued from page 1

Chefoo shortly after noon and started for Shanghai at 10 knots. It was a lovely day and I looked forward to a pleasant trip. I was free from the discomfort of mal de mer; however, late in the afternoon, although the weather continued to be perfect, we ran into ground swells. I had heard about ground swells before, but had never seen any and didn't realize what they could do in the way of heaving the ship around. My seat flew out, for though I tried bravely I just couldn't bring myself to eat any supper and had to resort to the only effective remedy I have found for seasickness—the horizontal position.
